

FOOD RIOTS IN SPAIN WHEN TEN ARE KILLED

(Special via G. T. P. Telegraphs.)
Madrid, May 3.—Ten persons killed, 16 seriously injured and a large number slightly wounded is a result of disorders arising from demonstrations as a protest against the high cost of living in the province of Tarragoua on April 28.

There were several clashes between gendarmes and civilians on the previous day, so the governor decided to reduce the price of food 25 per cent.

The following day when selling provisions at the old prices crowds pillaged the stores and were charged by gendarmes, and revolver shots exchanged. The disorders lasted into the night, and there were numerous violent street battles between gendarmes and the public.

Bolshevik Taking People to Grain Centres to Feed Them

(Special via G. T. P. Telegraphs.)
London, May 3.—Reports received from British official sources today announced the Bolsheviks are compelling the civilian evacuation of Petrograd, and a number of other places in the vicinity. The movement is being carried out according to plans announced a year ago whereby withdrawal was to be made to Moscow and other grain centres to enable more efficient feeding of the population.

Paris, May 3.—Petrograd has probably been taken by the Finns.

Mr. Chisholm reached Dawson a few days ago. He was mushed in over the trail from Whitehorse. He is a member of the Prince Rupert branch, G. W. V. A.

EXTRA POWER BELTING

Completely Standardized on Belting

ONE of the greatest compliments ever paid Goodyear Extra Power Belting comes to us from Port Arthur, Ont. In May, 1918, the big plant of the Port Arthur Pulp and Paper Company was opened. In six months they had decided to use nothing but Goodyear Extra Power Belts on their Mill machinery.

This decision was not made in a moment. Extra Power received as severe a testing as was ever given belting.

From barkers and grinders, down to cutters and pumps, "Extra Power" was submitted to all the gruelling work and difficult conditions that a pulp and paper plant affords.

"In the six months that we have been in operation," writes Mr. A. G. Pounsford, the General Manager, "we have only had three belt failures, all of which were due to improper riveting."

It is important to remember that belting service in such a plant means continuous ser-

vice—a breakdown on one machine means a complete shut-down of all production.

To decide, therefore, to standardize on Extra Power Belting, in view of the "very good service" it has given, is a splendid tribute to its dependability and all-round merits.

These time and money-saving features of "Extra Power" are winning for this modern belt a dominant place in Canadian industry.

There are executives in your line of business who keep belt records, who buy on known facts, who balance length of service and performance against price—men whose experience with "Extra Power" will interest you.

Let us send a man trained by Goodyear to discuss your belt problems. No obligation, of course. Just phone, write, or wire our nearest branch.
