BEHIND each package of Kellogg's Corn Flakes are the modern plants of the Kellogg Company at London, Ont., clean, sunlit, sanitary. Behind it is an organization, thousands strong, of loyal, efficient workers. Behind it is the personal guarantee of W. K. Kellogg: "You must be satisfied with every package of Kellogg's Corn Flakes. If you do not think they are more delicious, crisper, fresher - mail the empty package to us and get your money back."

These are policies - these are assurances of quality and value - that have taken 25 years to build. Whenever you are offered a substitute for genuine Kellogg's, it is seldom in the spirit of service. Insist on the red-and-green package.

Kellogg's are definitely guaranteed the freshest corn flakes you can buy. They are protected by a completely sealed inside WAXTITE bag. It's a patented Kellogg feature.

AIR DRIED SHINGLES

Retain the cedar oil in the wood, affording extra and better preservation than kiln-dried shingles from which the essential oil has been evaporated. Our shingles are made on Queen Charlotte Islands and, as a home product, deserve your preference. Shingle makers wages on the Islands are spent eventually in Prince Rupert, while Vancouver wages never come north. Support a home industry and your own welfare by specifying Air Dried Shingles.

In Connection With Communnity Service Work

The possibility of an athletic ground er quarter-mile track being developed on land just west of Mc-Clymont Park which was turned over to the city by the Grand Trunk Pacific Development Co. a year or so ago was discussed at today's luncheon of the Prince Rupert Gyro Club. It was suggested that this Club community service work during the coming year. It would be particularly valuable as far as track sports were concerned and there apepared to be considerable talent in this line of athletics in Prince Rupert. The unstart of the discussion was to refer the project to a special committee consisting of I. W. Wangh and W. H. Tobey for further report.
