

SPECIALIST SAID HE MUST OPERATE

She Took "FRUIT-A-TIVES" Instead, And Is Now in Perfect Health.

MME. F. GAREAU

158 Papineau Ave., Montreal.
"For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This, I refused to permit. I heard about 'Fruit-a-tives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it. The first box gave great relief; and I continued the treatment, taking six boxes more. Now, my health is excellent—I am free of pain and swelling—and I give 'Fruit-a-tives' my warmest thanks'."

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent by Fruit-a-tives Limited, Ottawa.

CURRIE WIRES REGARDING "Y"

Says It Was Integral Part of the Canadian Corps and Real Factor in Winning The War.

General Sir Arthur Currie cabling the national council says the Y. M. C. A. has long been looked upon as an integral part of the corps.

It has been a real factor in winning it many victories. It was a wonderful help through the last weary months. The organization has been most efficient and I do not know how we should have got along without it.

I am confident the association will be called upon to play a large part in the national life of Canada.

SHAWATLANS PIPE LINE

Editor Daily News,
The item on the Shawatlans Passage submerged main, published in your issue of Tuesday is hardly correct.

I laid this main by contract and I believe my price was less than one-third of the cost of laying the first one and was perfectly satisfactory to the Board of Works.

This main was tested for leakage by Mr. Mason, the city engineer, and Mr. Walker, the backwoods foreman, the leakage was found considerably less than the amount allowed in my contract.

The joints were made by the regular city gang whose wages were paid by me. The lead was furnished by the city. It was then examined from end to end by a competent diver whose report is on file at the city hall.

The main was placed in service as soon as it was completed and I believe was in constant use from June, 1915, to the winter of 1917, when the first break occurred.

I think this break and the bad condition of the main was caused by the severe shock it received at the time the large gate valve at the powerhouse was broken. Pipes were broken at the same time at McBride St., and also at Frederick St. The submerged main must have received a very severe shock at this time as it is the lowest point in the system.

There is another point that should receive consideration. The first main was laid with pipe made by Messrs. Howells, an English firm. This pipe is used for the mains under the Narrows at Vancouver, and has been in service for over twenty years and has given perfect satisfaction.

At the time it was decided to lay the second main, it was impossible to get the English pipe, so pipe of American manufacture was used. This pipe is twenty-five per cent lighter and has a different joint.

I make this explanation, as I consider that the wording of the last paragraph of the item was a reflection both on Mr. Mason and myself. Thanking you for your courtesy in publishing this,
H. B. BABINGTON.

PLAY WITHIN PLAY AT THE WESTHOLME

How Pictures are Made is Well Illustrated in Story "We Can't Have Everything."

How it is done in some picture studios, is shown in "We Can't Have Everything," at the Westholme Theatre tonight. This is a special Cecil B. De Mille production from Artercraft and is based upon Rupert Hughes' novel of the same name. The scenario is by his brother, Wm. C. De Mille.

The incidents which show the inner workings of a film studio occur when a photoplay within a photoplay is enacted. The part of Kedzie, a film star, is interpreted by Wanda Hawley and the scenes of the "movie" in the making are located in a "harem" with the accompaniment of beautiful girls, gorgeous costuming, etc.

The story of the picture itself is concerned with the rapid life of the metropolis today and the part of a society woman of blue-blood is interpreted by stately Kathlyn Williams.

Suppose That You Decide to Own A WATCH

Suppose that you believe that we can sell you a good watch.

Suppose that you call, look over our stock, and decide to take a Hamilton watch at \$45.00, well—

Twenty years from now you will still be learning the time from that watch.

Which is an argument that ought to be plenty convincing to any watch buyer.
