SOLDIERS EXPRESS SYMPATHY WITH WINNIPEG STRIKERS AND WISH TO DISCUSS ENEMY ALIEN

Newspapers Tied up through Pressmen and Stereotypers Walking Out; Shops and Restaurants are Closing; Telephone Operators Latest to Join the Strike Movement.

(Special to The News via G. T. P. Telegraphs.)

Winnipeg, May 16.—The pressmen and stereotypers have joined the general strike, thus preventing the issue of newspapers. The Typographical Union members remained on the job but without the other trades the issue of papers is impossible. The strike committee announced it might authorize the issuing of a paper under the auspices of the strike committee.

Supplies for retail stores were depleted by the rush yesterday afternoon and this morning several butchers and grocers report that they were notified by individual strikers that if they did not close they would be made to. Nearly all restaurants are closed.

The first day of the general strike in sympathy with the building trades and metal workers passed without disorder. The last employees to declare in favor of a walkout were the telephone operators.

Full sympathy with the purpose of the present strike and pledges to use every legitimate means to preserve law and order and that after the strike is settled labor and the returned soldier will get together and discuss the deportation of the enemy alien, was included in a resolution unanimously passed at a mass meeting of veterans.

LONE STAR CLAIM IS BEING DEVELOPED

The "Lone Star" claim on Leage Creek near Pacific in which J. M. Harrington and Jack Burns are partners, and other adjoining claims have drawn the attention of eastern capitalists, who have taken an option on these prop-

erty is a copper-Co. ball-gold one, and it looks good. With the going of the snow this spring and the return of so many of the old timers into this district, more development work than ever is expected to be undertaken, and Pacific promises to be an important mining centre in the very near future.

U.S. DIRIGIBLE SWEEP FROM MOORINGS AND CARRIED OUT TO SEA

(Special by G. T. P. Telegraphs.)

St. Johns, May 16.—The United States navy dirigible C-5, which escaped from its moorings dropped into the sea 85 miles off shore according to a radio message received by the cruiser Chicago from an unidentified British steamer. The steamer, it was said, was standing by the dirigible. The destroyer Edwards started at once to salvage the airship. The giant balloon burst from its moorings in a gale and swept out to sea soon after it arrived from Montauk Point, after being in the air continuously 25 hours and 45 minutes.

KETCHIKAN MAKES EYES AT STEWART

At the head of the Portland Canal lies a rich mining district, both on the American and Canadian sides, says the Ketchikan Times. On the American side is the thriving little town of Hyder, and back of it are a number of prospectors, miners operating on a small scale, and properties which give evidence that they will develop into big producers.

Although but a comparatively short distance from Ketchikan, little or no business from that district is coming to town. Prospectors from that country, as well as men in other lines of industry, have indicated time and time again that they would like to trade with Ketchikan, if they could get the facilities.

At the present time passengers and freight go by Canadian vessels and are transhipped at Prince Rupert and then shipped to Hyder. Through an unwarranted spirit of magnanimity, Uncle Sam, when the boundary lines were to be located, did not follow the natural dividing line north from the head of Portland Canal, and now it develops that a rich mining property was presented our neighbors across the line. But even a part of the trade of that mine may be secured if a boat service is established between Ketchikan and Hyder, with stops at camps along the canal.

DEATH RESULTS FROM BURNS

Mrs. Hutchinson, Wife of G. T. P. Agent at Pacific, Victim of Accident.

A most distressful accident, which has had fatal results, happened yesterday morning at Pacific when Mrs. Hutchinson, wife of the G. T. P. agent there, was horribly burnt through her clothing catching fire. The injured lady was brought to town on last night's train and taken at once to the General Hospital, where she succumbed to her injuries early this morning.

Mrs. Hutchinson was going about her usual household duties in the forenoon yesterday in her home, in which was an oil heater. It is assumed that the heater exploded, as the unfortunate woman had carried it outside the house with her clothing alight, and ran some distance before she rolled on the ground to put out the blaze. Assistance was given her at once, and the blaze extinguished, but Mrs. Hutchinson was burned so badly by this time that she became unconscious.

First Aid.
First aid was at once given and there being no doctor in the district the patient was placed on the train, which came along shortly afterwards.

At Terrace Mr. Campbell, the druggist who rendered such valuable aid there during the influenza epidemic, was picked up later, and along with Rev. T. H. Marsh, accompanied Mr. and Mrs. Hutchinson to Prince Rupert and on the way down did much to alleviate the pain which the patient suffered.

Everything Possible Done.
The burning was so severe that there was hardly a square inch on Mrs. Hutchinson's body from her neck down which escaped. On being taken to the hospital here, everything possible was done last evening, but the injuries were so severe that Mrs. Hutchinson died about 3 o'clock this morning. She was a young woman of twenty-two years of age and comparatively recently married. Her home was in Winnipeg whither the remains will be sent for burial by the B. C. Undertakers on tomorrow's train.

DIGNITY AND IMPUDENCE.

HON. E. D. BARROW IS TO VISIT RUPERT

"We expect to settle communities of returned soldiers on the splendid agricultural lands along the Grand Trunk Pacific this summer," said Hon. E. D. Barrow, minister of agriculture to the Vancouver Sun. Hon. Mr. Barrow is preparing to leave on an extended tour of the northern lands, accompanied by Dominion government representatives and will go out over the Canadian Northern railway and back to Prince Rupert over the G. T. P.

"There is one particular area up there, about 115 miles by 200 miles," said Hon. Mr. Barrow, "and this place is about the finest farming proposition in the whole province today. We are going to look it over and decide just where the soldier settlers will be sent. They will get the best available land, and it may be understood that if owners hold out for highly inflated prices they may look forward to expropriation proceedings. We intend to see that the veterans get a square deal in this settlement matter, and the object of this trip is to make certain that the boys will be given the best land in the country. On the lands which we now have in view the clearing is very light, being mostly brushwood and alder, and the tracts are every way highly suitable for immediate colonization."

SALVATION ARMY DRIVE IS STARTING

Ensign Kerr Leaving for Points Along Line to Raise Funds For Work.

Ensign Kerr of the Salvation Army has come north for the purpose of conducting the Red Shield drive for the institution which he represents. He will leave on the train tomorrow morning for Hazelton and will take in every point along the line as far as Jasper, returning to Prince Rupert and then proceeding to Alaska.

The drive in this city for the Army will take place about the end of June or early in July and it is expected will be well supported.

The work of the Salvation Army was much appreciated by the soldiers when overseas. Everywhere nothing but good words are heard of the untiring service given to the men during the trying days, and the result is that everyone is favorably inclined toward the institution.
