

ACUTE NERVOUS EXHAUSTION

All Treatments Proved Useless Until He Tried "FRUIT-A-TIVES".

MR. JAS. S. DELGATY.

R.R. No. 4, Gilbert Plains, Man. "In the year 1910, I had Nervous Prostration in its worst form; was reduced in weight from 170 pounds to 115 pounds.

The doctors had no hope of my recovery, and every medicine I tried proved useless until a friend induced me to take "Fruit-a-tives".

I began to mend almost at once; and after using this fruit medicine for 3 or 4 months, I was back to my normal state of health.

I never had such good health for twenty years as I have enjoyed the past six years. We are never without a box of "Fruit-a-tives" in the house".

JAS. S. DELGATY.
50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

NEW MACHINE SHOPS ON WHARF

Akerberg, Thomson & Co. Extending Their Business to Keep Pace With the Growth of Port.

In order to cope with their ever increasing business, important improvements have been made by the firm of Akerberg Thomson & Co., Ltd., on the leased waterfront adjacent to the Government wharf. Their wharf here has been repiled and redecked, and a gridiron or ways has been constructed, which is capable of landing boats up to 75 feet long. On the wharf above a 6,000-lb. derrick has been constructed, which will greatly facilitate the handling of heavy material to and from boats.

It is the intention of the firm to remove their machine shop from its present location on First Avenue to their wharf where work will be handled much more economically, to the advantage of their customers.

An oxy-acetylene welding plant both stationary and portable, has just been installed and the plant will be in charge of Mr. J. Davis, who has had a large and varied experience in this class of work, obtained in the C. P. R. shops in Vancouver and with Yarrows, Ltd., at Esquimaux.

They have also recently added to their plant a Hisy Wolf combination electric grinder, which tool will be used more particularly for grinding out cylinders, which is a more improved method than the old way of boring them.

Work will be commenced upon the new machine shop very soon and when housed there Akerberg Thomson & Co., Ltd., will have together a very complete equipment for the handling of machine work of every kind.

PHILIP GIBBS AS WAR CORRESPONDENT

Philip Gibbs has rounded off the wonderful work he has done during the war by publishing his despatches covering the last year of it under the title of "Open Warfare."

When one sees this war correspondent face to face one cannot help marvelling at his achievement. A small, almost dainty, man, frail you would call him, delicate too in his cast of countenance, and pale, who would have thought that he could have stood four such years of wear and tear?

"You'll be dead in a month," his friends said when he started for the Balkan War in 1912, and he himself thought it was quite possible. As a matter of fact he thrived on it, put on weight. At the beginning of the present war, when correspondents were not regarded with favor, he only succeeded in getting to the front by attaching himself to a Belgian ambulance.

The secret of his success as a despatch writer has been his wonderful powers of observation. He has the piercing eagle eye. This was apparent several years ago,
