CHURCH MUST LEAD IN ALL GREAT REFORMS IN KEEPING WITH SPIRIT OF THE AGE

ARCHBISHOP DU VERNET URGES THAT WELFARE OF THE WHOLE PEOPLE BE SUPREME STANDARD, IN CHARGE TO SYNOD OF DIOCESE THIS MORNING

With the great war over the great work of reconstruction has begun, said Archbishop Du Vernet in his charge to the Synod this morning. There has been a vast explosion and a world upheaval. Old customs, old traditions, old methods, old beliefs have been shaken up. The shattered fragments may fall back, but things in the economic, the industrial, the social, and the religious world can never be the same as before. There must be a rearrangement of these fragments, and there should be such a readjustment to present conditions as will lead to a better order of things in the home, the community and the state as well as in the society of nations.

Church Must Lead. If the Church misses the unparalleled opportunity now being given it to lead in great reforms it will be brushed to one side as a useless relic of the past. The mission of the Church is to inspire the people with the Spirit of Christ, which is the spirit of brotherly love and mutual service, but the Church must not be content unless this spirit works itself out in a better order of things.

Only a comprehensive Church can reach the whole people. Only a united Church can have sufficient spiritual life and power to inspire the community, the nation, and the world. For this reason the very first piece of reconstruction work undertaken should be in the way of Church Union.

Sectarian Evils. As the first great impetus towards Church Union came from the Foreign Field where the iniquity of importing sectarian strife was quickly felt, so it is right that the second great impetus towards Church Union should come from the missionary districts of our own country. We who are working under pioneer conditions in outlying districts are far more alive to the evils of sectarianism than are those at the crowded centre.

TELEGRAPH WIRES OUT OF BUSINESS

Eight Miles of Line of to Made Good Before Trouble Wended.

As a result of slides along the line of the Grand Trunk Pacific Railway something like eight miles of telegraph line has been carried away, most of it now being in the Fraser river. That accounts for the interruption in the telegraph service on that line. Linemen are out trying to get a wire through in order to connect up with the east.

The Dominion Government wire is also down, a bad hurricane in the Burns Lake section having played havoc with the wires. For two days the linemen have been out working on them, but up to noon today the ticker was dead.

PRESENTATION LAST EVENING

J. E. Davey and W. V. Davies are Recipients of Tokens of Esteem From Musical Society Members.

There was a very pleasing interlude at the annual meeting of the Prince Rupert Musical Society last evening in the council chamber, when the members made a presentation to J. E. Davey, their conductor, and to W. Vaughan Davies, accompanist.

In a happy little speech, President W. E. Williams, speaking for the members, presented Mr. Davey with a cheque for \$64 as a small token of the esteem in which he was held and in appreciation of the hard work which he had put in during the past winter in training and coaching the members of the choir, both individually and collectively.

A music roll and a handsome pipe were presented to W. Vaughan Davies, who as accompanist, had never missed a practise during the winter.

Mr. Davey and Mr. Davies both responded and expressed their thanks to their fellow members for the kindness which prompted the gifts.
