

TORTURED BY RHEUMATISM

"FRUIT-A-TIVES" Brought Quick and Permanent Relief

MR. P. H. MCHUGH

108 Church Street, Montreal.
December 10th, 1917.

"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists, took medicines, used lotions; but nothing did me good. Then, I began to use 'Fruit-a-tives'; and in 15 days, the pain was easier and the Rheumatism was better. Gradually, 'Fruit-a-tives' overcame my Rheumatism; and now, for five years, I have had no return of the trouble. Also, I had severe *Eczema* and *Constipation*, and 'Fruit-a-tives' relieved me of these complaints; and gave me a good appetite; and in every way restored me to health". P. H. MCHUGH.

GRANBY COKE PLANT ABOUT TO OPEN UP

Business at Anyox is on Increase; Million Pounds of Copper Shipped in April.

Reports received by the Granby Consolidated from New York, the seat of the metal selling industry, indicate that the sales of copper in that market for the week were the largest in some time. Despite reports from various copper centres that no move would be made for increased production, even with copper selling at a better price than it has at any time since the armistice was signed, every effort is being made to get into full swing at the Granby-Anyox plant. Machine miners have been scarce, as far as labor goes, but conditions are improving every day and it is fully expected that by the first of June or soon thereafter, the Anyox plant will be headed toward capacity business.

Million Pounds.

Although copper prices have not yet reached a figure to make production appear alluring, and despite a shortage of miners the Granby Company has shipped more than 1,000,000 pounds of blister since the latter part of April and prospects for an increased shipment regularly now are bright.

The report of the Minister of Mines for April showed that the Granby coal production at Cassidy, the new model town of the company of Vancouver Island, had reached 2,804 tons, all of which has been shipped, along with several thousand additional tons of coal held in reserve, for the new coke plant at Anyox, which is expected to be placed in operation June 1. Fires have been burning in the ovens for the past twenty days, warming up, and a full crew of coke handlers, expert chemists and others are about ready to announce the opening of this new industry, the only one of its kind on the Pacific coast.

Copper Export.

Official reports of seventeen of the biggest copper concerns on continent for April, the figures for which are just now available, show that these mines turned out 87,027,784 pounds of the red metal, of which Granby Consolidated was a contributor, a decrease of 3,000,000 pounds under March total.

Production of these companies for the month of November, 1918, before curtailment policy was inaugurated at the mines, amounted to 135,409,177 pounds, of which Granby had on hand and unshipped, more than 16,000,000 pounds.

A trade estimate puts the surplus of refined copper in the hands of the selling agencies and producers at 1,250,000,000 pounds with probably another 250,000,000 in process.

"It is to be regretted that this amendment was killed," says "Woman's Century," the official organ of the National Council of Women. "Only a drastic move can hope to cope with drastic conditions. Suddenly we will awaken to the fact that Canada is overrun with 'human damaged goods.' Then, through dire necessity, we shall be forced to grapple uncompromisingly with a desperate situation."
