SOLIDARITY OF CITIZENSHIP

Editor, Daily News:—
The "One Big Union," not of labor ranks only, but of the whole citizenship of Canada, male and female, is the only measure that can save the country from social, industrial and financial disaster due to a further continuance of unbalanced conditions and conflict of interests.

Soldier or civilian or employee, capitalist or laborer, the inequalities, injustice and suffering of the past and present, notwithstanding, our lives and interests, as one big family, are bound up in, and determined by, the measure of unity or division, the solidarity or instability of our citizenship. Absence of the former is wholly responsible for the conditions that have brought Canada to the present impasse.

A Choice.
We are faced with a choice of:
(a) A continuation of instability and increasing unrest, wherein part of the population, without national direction, is producing a portion only of the necessities of life, and doing such other service as carries us along in a slipshod existence, in order that the more fortunate may lead a demoralizing life of idle, wasteful luxury, until such conditions end in early and inevitable revolution.

(b) Solidarity of citizenship and national interests, the adoption, acceptance and enforcement of a safe and sane middle-class democracy, based upon a fifty-fifty of national service and of leisure and pleasure for all; of nationally directed production upon a self-supporting basis, and the stabilizing of remuneration for service with the cost of living and of value of exchange, based upon the time-cost of production and distribution, whereby a permanent balance may be established.

Problems to Solve.
We have great problems to solve, grave injustices to redress, wrongs to right, but we can never raise Canada to the coming "world standard" by hanging on to one another's throats or by roughhouse methods of any description. A united people, a true democracy, does not tolerate an autocracy of labor or of returned soldiers, or of any other form of despotic, factional or party-political control, any more than it or labor is tolerant of any autocracy of capital.

The solution depends upon combined commonsense and determined action, through constitutional methods and by peaceful means.

Time is pregnant with catastrophe, so let us lose no time in burying the dead past under a nation-wide organization of "Solidarity of Citizenship" and in raising the new standard of democracy.

Can we look to the public press of Canada to give a whole-hearted advocacy and voluntary assistance to such a movement? Can we look to existing organizations and societies of democratic tendencies to drop factional efforts and take a leading part in the practical mobilization and direction of forces, to take a leading part in the mobilization of citizenship and the orderly direction of the advance movement?

Ameliorate Conditions.
Above all, can we look, without fear or disappointment, to all who are actively or passively connected with industry, agriculture, trade or commerce, to keep the wheels turning, and to ameliorate, as far as possible, all causes for disaffection, in order to expedite the inauguration of the new system, and avert further unnecessary suffering, waste and national loss meanwhile?

There are many, including the writer, who, without remuneration are ready to devote their services and means to the work of organization and reconstruction, but we must look to the men and women of the younger generation who will constitute the brains and sinew of the "New Canada," to carry the standard.

Solidarity of Citizenship
As a practical start toward general organization I am submitting these suggestions to as many newspapers throughout Canada as possible, inviting each community, town or city to form its own preliminary "Solidarity of Citizenship" and from these evolve a Provincial Committee, representative of all interests, in numbers proportionate to population

PURITY - QUALITY - ECONOMY

With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

MAGIC BAKING POWDER

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.

Contains No Alum Made in Canada

on the basis of one for each fifty thousand.

These committees to meet at Ottawa as a provisional parliament (without interference meanwhile with existing Government) and draft the general principles which would form the basis of a new constitution, for submission to a general vote of the whole population of voting age, for acceptance or rejection. If rejected to be redrafted until accepted by a two-thirds majority.

Immediately thereafter a Dominion election would be in order and it would devolve upon the elected to put the new constitution in form of practical procedure and enforce it.

It would then be in order for the provincial governments, to be, without delay, brought in harmony with the Dominion.
