## WHEAT IS BEING CUT

Commenced on Prairies

## Threshing Soon

Further Damage to Crops-Weather Warm and Dry

WINNIPEG, Aug. 13:-Wheat threshing expected to start next week, according to the weekly crop earlier sown grains is reported. Weather generally has been warm and dry with slight rains in a few districts in Saskatchewan.

In Manitoba, wheat cutting has been general with about eighty-five percent completed. Threshing is expected to be general next week. In the Sprague subdivision the average estimated yield per acre for wheat is given as 20 bushels with 40 buhels for oats and barley. In the NANKING, China, Aug. 13:-In Portage subdivision conditions are the present political turmoil in | reported good.
