## PEACE TREATY WAS SIGNED TODAY AT VERSAILLES BY GERMANY AND THE ALLIES

PREPARATIONS HAD BEEN MADE BY FOCH TO ADVANCE AT ONCE IN CASE OF REFUSAL—BLOCKADE TO BE LIFTED AND FOOD SENT AT ONCE

(Special to The News via G. T. P. Telegraphs.)

Paris, June 28.—The Peace Treaty was signed today by the plenipotentiaries of Germany and the Allied Governments at Versailles.

For the past week or two there had been rumors that the Germans would refuse when the time came, but all these rumors proved false. Had she refused, Marshal Foch was ready to advance his forces on all sides right into the heart of the country and enforce martial law.

The blockade will now be lifted at once and the food ships that were held up in Great Britain will proceed to their destination with much needed supplies for the beleaguered nation.

### MOONSHINERS FIGHT REVENUE OFFICERS IN THE VIRGINIA HILLS

More Than One Hundred Killed in Two Months—Claim Prohibition Infringes Upon Personal Liberty.

Judge Luther E. Wunt, of Roanoke, was in New York last week and told the New York Times that war was raging in the Appalachian Mountains between moonshine whisky manufacturers and the revenue agents.

The Government officials, he said, were talking of sending airplanes over the mountains to hunt moonshiners and stills. More than 100 had been killed in one district in the last two months he said.

"My section of Virginia," said Judge Wunt, "is just like a European battlefield. There are snipers on both sides. Armed forces march along silently at night, and suddenly there will be a pitched battle.

"The natives are determined to continue making corn liquor. They declare it is being made now in the homes of the rich all over the dry states, and that it is an abridgement of personal liberty to deny them the right."

### DOLLY VARDEN TO SHIP ORE IN SIX WEEKS

Major Young on Way to Mine and New Directors to Come North Next Week.

That in about six weeks from now the Dolly Varden mine will be shipping ore to the smelter is the word brought by Major D. D. Young of the Taylor Engineering Co., the firm that has taken over the Dolly Varden Railway and mine and is now operating it.

Major Young is here today on his way to Alice Arm and he says that the directors of the new mining company are expected to arrive here next Saturday on their way to the mine to look over the property into which they have put their money.

The major is very enthusiastic over the prospects of that district. He says that his report to the people who financed the property was very conservative. It will probably be found much richer than they anticipate. Not only that but a number of other properties in the neighborhood will soon be shipping mines. His company intends to build to the famous Wolf mine and that will insure at least two shipping mines on the line of railway.

There are a number of fine prospects in the other valleys back from Alice Arm, all of which look good and as soon as the Dolly Varden commences to ship he anticipates a great increase of interest in these. Already a number of them have been bonded for large sums, something that would not have been done had not the prospects been good.

## TRANSPORTATION COMPANIES REFUSE TO REINSTATE ALL MEN WHO LEFT THEIR WORK

LONGSHOREMEN'S UNION NOT TO BE RECOGNIZED BUT ALL WHO WISH WORK WILL BE EMPLOYED—MEETINGS BEING HELD TO DECIDE ON COURSE OF ACTION

(Special to The News via G. T. P. Telegraphs.)

Vancouver, June 28.—The transportation companies yesterday decided that there would be no general reinstatement of the men who were on strike, but that most of them would be taken on. It was also decided not to recognize the Longshoremen's Union but to employ any who were willing to work.

On the union leaders approaching the C. P. R. officials with a view to arranging for a cessation of the strike following the collapse at Winnipeg they were told that the company did not need men as they had as many as they could employ at present.

Individual meetings of some of the unions are being held today and the question of returning to work is being discussed.
