GRAND TRUNK FINANCES ARE QUITE SOUND

Recent Issue of Notes at Low Rate of Interest Shows Good Condition of the Company.

It was announced yesterday from Ottawa that negotiations were about to be reopened with the Grand Trunk Pacific looking to the taking over of that road by the Dominion Government. Prior to that it was thought here that the matter was settled for the present.

The recent issue by the Grand Trunk Railway Co. of £3,000,000 three-year 6% notes in London at 99 has caused much favorable comment in financial and railway circles. This flotation shows the strength of the company and the credit it enjoys in the greatest financial markets of the world, and also shows that it does not require to depend upon Government or any other assistance to meet its obligations. The rate at which this issue has been placed is a much more favorable one than has been obtained for any other railway securities sold in Canada or the United States for some time.

From sources that can be depended upon it is learned that the Company is in excellent condition financially. It has met all its obligations in the past and with its strong London and New York banking connections, and its excellent traffic showings at present, and its prospects for the future, it holds one of the highest places in the sound corporations of the Dominion.

PTE. J. CLAPPERTON IS WOUNDED AGAIN

Gets His Fourth Lucky One in France and is Now in a Base Hospital.

"Doc" Clapperton has just received a card from his son Pte. John Clapperton to the effect that he has been wounded again and taken to a base hospital. This is the fourth time that he has been injured, his wounds on each occasion being in the head.

Pte. Clapperton joined the 48th in this city under Major McMorde and after training in Victoria went overseas with that unit. After getting three doses of shrapnel in his cranium he transferred to the Fighting Seventh with whom he was engaged when he received this last wound, details of which have not yet come to hand.

Pte. Clapperton was born at Edinburgh, Scotland, and before coming here was a member of the Cameron Highlanders. He was an electrical engineer at the drydock when war broke out and at once he decided to rejoin the army. He was made a sergeant and held that position until after he was wounded the first time, when he reverted. His wife and family lived here for a time, but returned to the old country soon after the 48th left.

Curiously enough Mrs. Clapperton has seen something of the war. She went to London from here and a bomb from an aeroplane dropped in the same street on which she was walking. She then went to Cambridge and a similar thing happened. Now she is in Edinburgh where she thinks she will be safe.

GOOD WAGES FOR SALMON TROLLER

One Fisherman Earned \$142.50 in Three Days and Another Brought Cargo of Cohoes.

A small troller brought in 1,000 lbs. of spring salmon yesterday as a result of three days' fishing. He sold the catch for 14½ cents a pound and walked ashore with a check for \$142.50 as his wages for the time he was out.

Another boat, the Lillian M., arrived yesterday with 16,000 cohoes which he sold for 65c. each. He did not catch these himself but was simply packing for the trollers outside.

TWO KINDS OF DOLLARS

"A dollar thrown away is not as bright as a dollar put away," is an old proverb. Though people no longer hoard money in old stockings, the principle is as true as it ever was. The dollar that is thrown away doesn't stay whole—some and useful. The dollar that is put away keeps its earning power and utility in time of need.

The future of Canada will depend on the dollars that are put away now. The great prosperity we are enjoying cannot last forever. You may have dollars to throw away now; but if you do you will long some day for dollars to put away. Then the dollars the other fellow has put away will look mighty bright to you. Saving the dollars is common sense, and it is patriotism too. Start putting away the bright ones.

"The food crisis is grave and urgent beyond the possibility of exaggeration."—Sir Robert Borden

Help To Feed Yourself

Are you only a "destroyer of rations" when you might be a food producer?

Every pound of food that can be grown in Canada and made available for export, will be desperately needed by those who are bearing the brunt of the fighting and the suffering.

The amount of food produced this year will be absolutely limited by the extent to which people in cities and towns become food producers—there is no other labor reserve.

WHERE DO YOU BELONG?

On the Farm?

Thousands of men are urgently needed on farms in this province to make possible increased production of food. Those who could go and yet hold back, should not forget that, unless production is greatly increased, hundreds of thousands of people will die of starvation.

In the War Garden?

By growing vegetables in home gardens or on vacant lots, and thus helping to feed themselves, city and town people can leave the farmers free to grow more food for export. All that is produced in this way is gain and a net addition to the national food supply.

War Garden service is not sufficient for the man whose rightful place is on the farm. But the War Garden does offer an opportunity for tens of thousands of people, whose circumstances oblige them to remain in the city, to have at least a small part as food producers. Interest the boys and girls in the War Garden, for they too can help to grow food.

If there is a garden or vacant lot movement in your community associate yourself with it. If no organization exists, do what you can to interest your neighbours in the War Garden campaign.

Write to your Provincial Department of Agriculture for additional information.
