Bathing Facilities To Be Improved.

Preparations are being made for a meeting of the Prince Rupert Swimming Club which takes place next Thursday night. At that meeting plans will be laid for the work of the coming season.

The most important duty for the season will be the improvement of the bathing place at the Salt Lakes. The amount of work to be done will depend very largely on the amount of money which can be raised and that will depend on the interest taken in the scheme by the public.

Very few cities have as suitable a place for bathing as has this city. All that is necessary to make it popular is to improve the facilities. Dressing rooms, platforms, diving apparatus, sandy beaches, all these are attractions.

Everyone who is interested in making this a permanently attractive residential city should join the club and attend the meeting in order that the best possible results may be obtained.

New Settlements

Near Prince Rupert.

Yesterday The News told of a number of prairie people coming to settle at the mouth of the Skeena on Smith Island. They will fish and farm and should be able to make a first rate living in a pleasant climate without having to work inordinately hard. They will be independent and will be ruled by neither capitalist nor labor union.

There must be a number of somewhat similar sites where men might take their families not far from this city and where they may be assured of a competency. Porcher Island is said to be well suited to farming and it is also well located for fishing.

The difficulty with most of the settlements is that too few people settle in one place and the result is that there is a lack of social interest and the settlements break up.

It is to get over that difficulty that the Land Settlement Board was formed. The Board has been doing some initial work as was clearly shown from the report made to the Legislature, but so far the fringe has only been touched. Much more remains to be done.

Apartments With Community Kitchen.

One of the latest proposals in regard to buildings here in order to accommodate the people who are coming is to erect an apartment with only one community kitchen. In this kitchen all the food for the tenants would be cooked and there would be one community dining-room run on a co-operative basis, the expense being shared by all and thus saving all outside profits.

It is pointed out that the saving in doing away with all kitchens and dining-rooms in connection with individual apartments would be very large. More than that the saving in labor for the women would be equally large. The plan has been tried and proved successful in other places and the same might apply here.

Tenants who took the rooms would have to eat in the dining-room, and this would hardly be suitable where there were many children, but for single people or those whose children have grown up the plan might prove very useful. The suggestion is given for what it is worth. There are no definite plans on hand in connection with it, but it is being talked about.

Building Society Under Consideration.

A number of businessmen discussing the matter of building among themselves last night all expressed their willingness to take shares in a co-operative building society provided it was run with a minimum of expenses so that the shareholders would get the benefits. The plan outlined was something like this:

Each shareholder to pay in ten dollars a month for one hundred months, and at the end of each month a drawing to take place, and the lucky man to have the right to receive the amount paid in as a loan placed as a first charge on the property to be built upon. The payments would continue until each had paid in \$1,000 and each had received a loan.

Any winner in the draw not wishing to use the money could pass it on to the next in order, or to anyone whom he might designate. The rate of interest on the loans to be set at say six per cent. This was a rough outline of the plan subject to revision. The only difficulty in carrying it out seemed to be to get someone who would be willing to undertake the work without getting any big rake-off.

The purpose of a building society is to encourage building among the members and in the community generally.
