

THERE'S NO DOUBT

that you get the maximum return for your money when you buy Zam-Buk, because Zam-Buk is all medicine—not 5% medicine and 95% animal fat as ordinary ointments are.

The herbal extracts and vegetable oils of which Zam-Buk is composed are so wonderfully blended and refined that Zam-Buk possesses unusual power of penetration. Instead of remaining on the surface skin, as ordinary ointments do (owing to the amount of coarse animal fat they contain), Zam-Buk literally soaks through until it reaches the "root" of the disease, which is always in the underlying tissues. Then it cures from the "root" up, which is the only thorough and permanent way of curing skin troubles, and is why Zam-Buk succeeds when other treatments fail.

Zam-Buk is best for eczema, pimples, blotches, psoriasis, chronic sores, blood-poisoning, teething rash, boils, piles, cuts, burns and sores. All dealers or Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

SITKA SPRUCE PROVES ASSET TO PROVINCE

Lieut. Cooper Young Gives Interview in Vancouver Before Leaving for Ireland.

Before leaving for Ireland where he has large estates Lieut. Cooper Young who was here recently gave an interview in which he is reported to have said:

"I think that you have in the province one of the greatest assets it is possible to have. It has been found indispensable in the making of machines for our flyers, machines that have stood the test and strain under all conditions and weathers and the wonder to me is that it has been so long overlooked. It was one of the luckiest things in the world that B. C. had this magnificent storage of spruce, otherwise it might have placed the old country and her allies in a somewhat difficult position.

"Yes," he replied in answer to a query as to the possibilities of using fir, "fir might have been used, and as a matter of fact it has been used in aeroplanes. But it has not the same ductility and the same strength as spruce has. I may tell you," he added, "that there was never any possibility of fir being exclusively used for this purpose if the supply of spruce had become exhausted. In no other part of the world," Lt. Young added, "is there the same high quality of spruce as is to be found in this province, and it was, as I say, a mighty lucky thing that you had it.

"But where would we have been had not your sawmill men and your logging operators stepped into the breach?" Lt Young asked. And he answered his own question by stating that the greatest credit was due to the lumbermen of the Pacific coast and to the many logging operators who had placed their plant at the disposal of the Imperial authorities to say that their efforts had resulted in a great measure in the allies winning the war."
