

KANTLEEK

It Can't Leak, Because It's Made in One Piece

EVER been scalded by a leaking hot-water bottle? This can't happen with a Kantleek.

Kantleek Hot-Water Bags can't leak. They are "one-piece" water bags—moulded from pure soft rubber into a single piece—no joints or seams. Most hot-water bottles are made in sections and cemented. Cement cracks—bag leaks!

We guarantee a Kantleek for two years—or a new bag free.

Ask to see the Kantleek. You may need it tonight.

BOYS' NAVAL BRIGADE PARADE IN UNIFORM

Capt. Roberson is Giving Instruction in Knot Tying—Regular Drills as Well.

The first uniform parade of the Boys' Naval Brigade took place last night with Instructor C. V. Exitt in charge. There were about sixty-five boys and twelve of these were wearing their uniforms on parade for the first time. Captain Roberson gave instruction in knot tying besides the regular drill. The captain will give these instructions whenever he is in port.

MOOSE OFFICERS

NORMAL BUYING IN THE SPRING

Industrial Canada says Conditions will Improve Soon, with Lumber Active

TORONTO, Feb. 4.—Canadian industry is facing the present price situation with courage and looks to the future with optimism. By the spring there should be a return to normal buying, according to the general view of Canadian manufacturers as expressed in the Canadian Products Annual Review Number of Industrial Canada, which constitutes a valuable symposium of industrial opinion. A revival of activity in the metal and iron and steel industries is anticipated by the Spring. The Vice-President of the Canadian Car and Foundry Company says that while financial conditions may delay the placing of orders for a time, it is felt that within the next two or three months these obstacles will be removed. If labor becomes settled, particularly in the building trades, the President of the Steel Company of Canada looks for a business revival shortly. The outlook of the pulp and paper industry is regarded as favorable, with the promise of largely increased production.

The President of the Laurentide Company says that all newsprint mills in the Dominion are contracted up to full capacity, and they have the assurance of the publishers that they expect to use the full amount of their contracts.

Motor Cars

In the automotive industries, T. A. Russell, President of Willys-Overland Limited, points out that 70 per cent of the cars now in use are business vehicles. "This," he says, "gives the motor car industry a confidence in its future, and manufacturers generally are looking forward to a gradually improving demand after the first of the year. There has also been a decided check on production in the last six months, and it takes so long to get under full production, when a break has been made, that quite a few keep observers expect to see an actual scarcity of motor cars during the months of March, April and May." Wm. M. Gray, Vice President of the Gray-Dort Motors, Ltd., is equally optimistic. As far as their plant is concerned, he regards the outlook for the 1921 market as "very favorable."

Shipbuilding

In the shipbuilding industry the situation is complex. With the reduction in prices of materials and the increasing efficiency of labor, prices are steadily coming down, and the managing director of Canadian Vickers, Ltd., Montreal, states that it is confidently predicted that with the further reductions, both in wages and materials, anticipated in the near future, prices will be so reduced as to enable Canada to compete in the open markets of the world, if exchange difficulties can be overcome. J. E. McLurg, of the Halifax Shipyards, however, sees no encouragement from the present situation and believes that by next July every shipbuilding plant in the country will be closed down for lack of orders.

Lumber Outlook

In the lumber industry the general opinion is that with the small production in recent months and with very much reduced stocks, the industry should experience a prosperous year. In the mining industry, while conditions on the whole are quiet, a revival of gold mining is anticipated in Ontario and British Columbia, and the Port Norman oil discoveries of the Imperial Oil Company are fraught with great significance for the country.

Nearly Crazy With Eczema

No rest day or night for those who are afflicted with that terrible skin disease, eczema, or as it is often called, salt rheum. With its unbearable burning, itching and torturing relief is gladly welcomed.

There is no remedy like Burdock Blood Bitters for giving relief to such sufferers; no remedy that has done, or can do more for those who are almost driven to distraction with the terrible torture.

Apply it externally and it takes out the stinging, itching and burning, and promotes a healthy healing.

Take it internally and it gets at the source of the disease in the blood, for eczema is a blood disease—and drives it out of the system.

Miss L. V. Bonthillier, 89 Victoria Road, Halifax, N.S., writes: "I have suffered for years from eczema. I could not rest day or night. I suffered great agony, and was nearly crazy with the itching and burning. I used all kinds of salves, but nothing seemed to help me. I saw Burdock Blood Bitters advertised, and was advised to try a bottle. I found great relief, and I really cannot recommend it highly enough for what it has done for me."

Burdock Blood Bitters has been on the market for over forty years, and during that time has been manufactured only by The T. Milburn Co., Limited, Toronto, Ont.
