**FIRE INSURANCE** is a hobby of ours. We take keen pleasure in making sure that all policies are so written that they cover your property exactly as you intend. If you entrust your fire insurance to careless, inexperienced or ignorant agents you may find, when you come to collect your fire loss, that your policies are so worded that the insurance company is not liable and so will not pay the loss. Why take chances?

### LABOR GIANT'S FEET OF CLAY

Shaw Desmond Publishes Book About the Situation in Britain Today.

LONDON, Dec. 17.—The most pungent criticism of the Labor movement usually comes from within the movement or from men who for a period have given in their enthusiastic support, says a writer in the Times. Shaw Desmond was a member of the Labor party for fourteen years, and stood as an independent Socialist against John Burns in the general election of 1910. He has now written a book, "Labor, the Giant with the Feet of Clay," in which he describes the movement as split from top to bottom by fundamentally opposed ideals, tactics and objectives.

Of the British Labor party, Mr. Desmond writes that its rise to power has been meteoric, but "comets sometimes have the property of flashing brightly for a space, and then flashing out again."

### SYNOPSIS OF LAND ACT AMENDMENTS

Minimum price of first-class and second-class is 2.50 an acre.

Free-emption now confined to "use of land only."

Records will be granted covering any and all lands for agricultural purposes and which is not timber land.

Partnership pre-emption abolished in favor of joint purchase.

Where pre-emption is applicable, a notice of 21 days must be given to the landowner, and the notice must be in writing and must be signed by the applicant.

Records without permanent application may be made, provided application is made within 12 months of the date of the notice.

Where pre-emption is applicable, a notice of 21 days must be given to the landowner, and the notice must be in writing and must be signed by the applicant.

The party, he contends, is becoming a voting machine. A stage has been reached, fraught with fate, when "success has cemented bureaucracy into one solid, stolid mass, none the less bureaucracy because in it the bureaucrat is not the leader but the led."

### RESOLUTIONS AND ACTION.

Mr. Desmond has something to say about the primness and self-satisfaction of the Labor leaders. Meeting Arthur Henderson he observes on one page was "rather like interviewing the Pope."

Mr. Desmond traces at some length the leaning towards "direct action" which was the outcome of the war, but is convinced that Bolshevism will make no progress in this country.

### FOOL'S PARADISE.

There is a chapter headed "If Labor Came into Power." The plan of the engineers of the machine state, Mr. Desmond writes, is to win over the working men by the promise of more pay for less work, the capture of the municipalities and local governing bodies, and finally the winning for democracy of the governments of the world.

### FLAVOR DOES COUNT

If there is one point we hear more of than any other in favor of Pacific Milk, it is that of flavor. People who have used it since we started our first factory at Ladner years ago tell us the only change they can see in Pacific milk is that today the flavor is perhaps slightly better, though it always was the best obtainable in canned milk.

No other milk is put up in British Columbia.
