ATLIN PEOPLE NOT SATISFIED

Object to Appointment of Liquor Vendor and Urge Cancellation Favor Soldier.

The Atlin people object to the appointment of liquor vendor in their district and the following letter and petition in connection therewith are self-explanatory:

Dear Sir,—The people of Atlin would tell the world that they think an ex-service man should have been appointed as the liquor vendor at Atlin instead of the secretary of the Liberal Association. They have embodied their sentiments in a protest to the Liquor Board signed by practically all the people of the district. A copy of this protest has been mailed to the Liquor Control Board, to Mr. Kergin and to Mr. Oliver. Enclosed you will find a copy for your newspaper.

The Liberals of Atlin desire to clear themselves of the suspicion that they approve of this slight to our returned soldiers. The contrary is in fact the truth. We regard the appointment as unjust; we join in the general protest and we have no word to say in defence of those who openly place the responsibility for this appointment upon Mr. Kergin.

J. E. MORAN,
President, Atlin Liberal Association.

The Petition.
"The Liquor Control Board of British Columbia, Victoria, B.C., We, the undersigned residents of Atlin, B. C., are aware that a number of men who served in the Canadian forces overseas made application for the position of Government liquor vendor for this place.

"We desire to express our amazement and indignation that this place should have been filled without regard to the claims of these returned soldiers and to protest in the strongest possible terms against the wrong and injustice of turning down the applications of these men, who, judged by any standard, are entirely qualified to fill that position.

"We desire to make it plain to you that we clearly understand the appointment that has been made to be an example of political patronage exercised in its most obnoxious and objectionable form; and, furthermore,

"We are united in our demand that they who are responsible for this appointment shall immediately reconsider this matter and make a selection which shall do justice to the very reasonable expectation of the returned soldiers.

CATARRH of the Stomach FOR EIGHT YEARS

The cause of this trouble is the fermentation of food in the stomach which generates a gas that is very frequently belched up. There is also a rumbling of the bowels and a discharge of gas therefrom, there is constant retching, and the meals are frequently vomited. There is a burning pain in the stomach, the appetite is feeble, the tongue coated, the breath bad, constipation is generally present and the sufferer becomes weak, nervous, depressed and exceedingly miserable.

The blame lies with a sluggish liver, as it holds back the bile which is so necessary to promote the movement of the bowels, and when the bile gets into the blood a badly disordered condition of the stomach, liver and bowels will surely follow.

Keep your liver active and you will always enjoy good health.

Mrs. Anne Dallant, Reserve Mines, N. S., writes:—I had been a great sufferer for eight years, from catarrh of the stomach. I tried several so-called catarrh remedies without relief until a friend advised me to try Milburn's Laxa-Liver Pills, which I did, and four days completely relieved me. That was six years ago, and I have had no return of my old trouble.

Price, 25¢ a vial at all dealers, or mailed direct on receipt of price by the T. Milburn Co., Limited, Toronto, Ont.

CLOSING PARTY OF MRS. CREWE'S DANCING CLASS ON SATURDAY

A children's party was given on Saturday afternoon at the St. Regis rooms by Mrs. H. O. Crewe in connection with her children's dancing classes. The junior and senior classes united for the event, and following the dancing tea was served to the children and their parents and friends. At least fifty children were present and they had a most enjoyable time.

Mrs. Crewe was assisted by Mrs. Rinton at the piano and Miss Blanche Curtin with the tea. The parents brought cakes.

GERMANS GET AFTER MOVIE FILM BUSINESS

BERLIN, Dec. 19.—German motion picture film manufacturers have perfected a co-operative organization one of the prime purposes of which is to capture the European trade held by American producers. In the effort to compete with the American film the Germans are endeavoring to develop a "screen humor," which heretofore has been lacking in their productions. Virtually all Teutonic films, until recently, have dealt only with historical, legendary and romantic subjects.

Some of the more ambitious German companies have engaged American directors and are striving to put American "heat" into their plays, to meet home consumption as well as export demands, for American films struggled into the country during the last several months when importations were forbidden.

A survey of the world film markets by interested Germans disclosed American films were more popular than any others in Italy, England, Scandinavia and the Balkans, which led to a discussion of what was wrong with the German technique. The consensus of opinion seemed to be that the American films were "better handled" and were sprinkled generally with a lively humor.

This verdict was sharply criticized, however, by a number of German producers who hold the opinion that German technique is bound to prevail over the "slap-stick comedy" and the "silly sentimental things produced to show rows of white teeth and a smile."

Too many cooks are better than no cooks.

STR. PORT SIMPSON ON WAY TO ATHABASCA

Vessel Being Transported in Knock-down Form to Northern Interior.

In connection with the moving of the stern wheel steamer Port Simpson, which was taken to pieces at this port and shipped to the interior by rail over the Canadian National Railway, the following is from the Edmonton Bulletin:

Three cars of machinery, representing engines and fittings for the H.R.C. steamer on the Athabasca service went north on Wednesday's train over the A. & G. W. system, being routed through to Waterways from which point it will be hauled to the Prairie at McMurray and there built into the new vessel. Chief Engineer Sutherland accompanied the shipment and will be in charge of the installation of the machinery, while the ship-building will be under the supervision of George Askew of Vancouver, the builder of the "D.A. Thomas" and the "Distributor."

The new H. R. C. boat will be a sister ship to the vessels mentioned, and when completed will rank as one of the largest vessels of the northern waters, in addition to which she will be a powerful craft. Her boiler develops 300 horsepower and with this drive behind her stern-wheel it is felt that she will be able to maintain the speed record of the Athabasca.

The "Port Simpson" will be a three-decker, with passenger, freight and hurricane decks. She will draw three feet, six inches in still water, and is designed for a speed of fifteen miles per hour. Electric lighting will be used throughout the vessel and she will have accommodation for 150 passengers.

The hull for the new steamer is being constructed at the coast, and will be shipped to McMurray in knock-down form, where it will be re-assembled by Mr. Askew. Captain E. B. Haight who has been on the coast in connection with the transshipment of the machinery and parts for the new vessel, also went north on Wednesday's train to Lac La Biche, but will reach McMurray in the near future.

The building site on the Prairie at McMurray is all ready for the reception of the steamer, and no difficulty is anticipated in having the boat ready for the water with the opening of navigation.
