DAILY EDITION. Wednesday, July 27, 1921.

Give Pulp Mill Every Encouragement.

The City Council has decided to pass the necessary bylaw giving the Prince Rupert Pulp and Paper Company all the unused water they require. To have done otherwise would have been to have played the dog in the manger. If we can get that industry under construction this coming winter it will help to carry the city along after the ships are completed.

The citizens generally seem anxious to see the mill built, and we cannot understand why any reasonable request of the company should not be met.

Congratulations to Winner of Medal.

The Daily News tenders its congratulations to Reid McLennan and his parents on the winning of the Governor's Medal, Reid being the best student in his grade in the northern part of the province. It is a great thing to have such success as that. It is to be hoped that it will be an incentive both to the lad and to others to study hard, to win distinction in their respective callings and to get the most possible out of life. The lads who are growing up will soon be the leaders in the community, and to them we shall have to look to give the right impetus to others.

Little Pamphlets For the Sailor.

The department of health at Ottawa has just issued some little pamphlets for the guidance of sailors and also for captains and surgeons of ships in connection with venereal diseases. We are asked by the department to mention that free copies of the leaflet may be obtained from the collector of customs at any port in Canada. We should like to add that the leaflets convey valuable advice and should be distributed by the skipper of every ship.

Daily Newspaper Advertising Best.

People have the habit of looking to the daily newspapers when they want to buy or sell anything. If a person needs a city lot, a boarding house, some second-hand furniture, a house to rent or anything else, he looks to the newspapers to provide him with the information as to where they can be purchased. In a live town it is in the newspapers they find it.

Prince Rupert is a live town, and the housewives and others look to the newspapers for their information. There are still a few business houses do not yet realize it, however. They are in the minority and are themselves the losers for their lack of business acumen. Some of the stores that advertised were full to overflowing on Saturday night. Why? Because they were selling good values and they let the people know about it through the newspaper.

As one expert puts it, "The daily newspaper is the medium of the moment, the axis of opportunity, flexible, powerful and instantaneous in its ability to create sales."

War and Divorce In Old Country.

One of the aftermaths of the war was an enormous increase in the number of divorces, especially in the Old Country, but also to a certain extent in Canada. It is somewhat difficult and expensive to get a divorce in England, yet the number of separations of this kind doubled in a few years. In 1914 the number of divorces in the United Kingdom was 1348, while for 1919, the latest figures available, it had jumped to 5763. In nearly half the cases the divorce was to a large extent the result of a childless marriage.

In these days when there is matrimonial infelicity people look to divorce as a cure, whereas in the old days they made the best of a bad job and carried on, husband and wife living a cat and dog life. It is doubtful if the divorce court record is a sign of moral decadence. It is a sign of a different attitude toward life, whether for better or for worse only time will tell.

THE TORTURES OF RHEUMATISM

Happily Stopped When He Began To Take "Fruit-a-tives"

3 OTTAWA ST., HULL, P. Q.

"For a year, I suffered with *Rheumatism*, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again.

One day while lying in bed, *I read about "Fruit-a-tives"* the great fruit medicine; and it seemed just what I needed, so I decided to try it.

The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."

LORENZO LEDUC.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

DOG ARRIVES FROM ENGLAND

Highly Bred Scotch Terrier Imported By A. Greenwood, of This City.

Sunday night's train brought in another imported dog for A. Greenwood, the local fancier. It is a one year old black-brindle Scotch terrier and was sired by Champion Albourne Bettle, who is said to be the best dog living. The latter has beaten every dog of his class in the Old Country and was sold by Mr. Cowley, of Barndene, Sussex, England, to an American dog fancier last December. He won the championship at the New York Dog Show and has beaten every Scotch terrier in the United States.

Mr. Greenwood will send his dog to Vancouver to be shown at all the Fall Fairs along with other dogs he already has there. An Airedale and Wire Fox Terrier, which were shown by Mr. Greenwood at Seattle, Vancouver and Victoria on the spring circuits, won several first prizes, three champions and never dropped lower than the reserves for that honor.

Well Looked After.

"How much does it cost to bring a dog from England?" Mr. Greenwood is now able to answer that question. It cost him $60 to bring this dog from Liverpool to Prince Rupert. The dogs are well looked after by the butchers on the boats and in his sixteen years experience in bringing dogs to this country, Mr. Greenwood has never had one arrive in poor condition. On the train journey, the dogs are well attended to by the express messengers.

SEA DOGS BOTHER FISHERMEN ON COAST OF NEW BRUNSWICK

CHATHAM, N. B., July 27.—Fishermen along the Miramichi River are complaining bitterly this season of the presence of sea dogs in large numbers in the river waters. In the early part of the year the port and shores of St. John were infested with the animals—they established a maternity home in the St. John River above the falls and many pups were born, but the pest has declined recently. In the northern waters of the Province it has, on the other hand, increased to alarming proportions.

The "dogs" like salmon in preference to all other fish. Recently a fisherman visiting his weir in the morning secured only half a dozen good fish while there were over twenty heads in the trap. As the fish are worth a couple of dollars each, the loss in this particular case was quite appreciable. Similar losses incurred by Miramichi fishermen amount in the aggregate to a considerable sum and it is likely that an appeal will be made to the Government to take some action to prevent the depredations of the seals. It has been suggested that they can best be got rid of by dynamiting the grounds where they are in the habit of sunning themselves. If they are shot in the water, they sink at once, and the whole carcass, which is poor in skin but rich in oils, is lost.

Ten Years Ago in Prince Rupert

July 27., 1911.

H. M. Lever had a chilly plunge into the waters of the harbor yesterday afternoon when his bull terrier became entangled in some seaweed at Digby Island and he swam to its rescue.

* * *

E. C. Coats, a Calcutta newspaper man, is visiting the city and today purchased the double corner at Third Avenue and First Street for $15,000. He intends to build two houses on the property.

* * *

Two months out from Glasgow, the new Grand Trunk Pacific steamer Prince John docked at Victoria this morning.

Give the preference when you buy to the merchant who advertises in the daily newspapers and buy advertised goods.

CANCELLATION OF RESERVE.

Notice is hereby given that the reserve against the acquisition of Coal under the "Coal and Petroleum Act" established by notice dated 14th of February, 1920, and published in the British Columbia Gazette on the 12th of February, 1920, is cancelled, except in so far as the same relates to the following areas:

1. All the lands lying within the boundaries of the drainage areas of the Skeena River above and including Gutt Creek, the East Fork of the Naas River, the Little Klappen River, and the Spatsizi River, above and including Kluayetz and Italian Creeks.

ALL that portion of Vancouver Island lying easterly of the following described boundaries:

Commencing at a point on the West Coast of the Island at the mouth of Muir Creek, thence following the western boundary of the Esquimalt and Nanaimo Railway Belt to the southeasterly corner of the Strathcona Park reserve, thence west following the south boundary of the said reserve to the southwest corner; thence north following the west boundary of the said reserve to its northwest corner; thence west along the south boundary of Sayward and Rupert Districts to the westerly boundary of the watershed of Nimpkish River, thence northwesterly along the westerly boundary of the watershed of said Nimpkish River, Nimpkish Lake and Keogh River to the south boundary of Township 3, Rupert District, thence west along the south boundaries of Townships 3, 4 and 15 to Marble Bay, thence northwesterly along the centre line of Marble Bay and the West Arm of Quatsino Sound to the mouth of Spruce Creek, thence along Spruce Creek to the east boundary of Township 37, Rupert District, thence north along the east boundary of said Township 37 to the northeast corner thereof, thence west along the north boundaries of Townships 37, 41 and 44 to the Pacific Ocean, and including all the foreshore and lands covered by water adjacent to the East Coast of Vancouver Island, together with all Islands lying between the Mainland of the Province south of the 51st parallel of north latitude and Vancouver Island and all the lands within the boundaries of the Districts of Otter, Goldstream, Metchosin, Esquimalt, Victoria, Lake and North and South Saanich, Sooke and Highland.

The cancellation of this reserve shall not take effect and staking for coal shall not be lawful until notice of such cancellation is published for sixty (60) days in the British Columbia Gazette and in a newspaper published or circulating in each of the Land Registration Districts of the Province of B. C.

This notice shall in no wise affect the reserve against the acquisition of Coal, Petroleum and Natural Gas in the Peace River District, established by notice in the British Columbia Gazette on the 27th of March, 1919, which reserve is still in force and effect.
