MUSKEGS OF NORTH BEING SURVEYED

EDMONTON, July 27.—With a view to finding the agricultural possibilities of the muskegs of the north, a survey will be made this summer by a party of federal departmental agricultural experts. The various districts affected will be visited and particular attention will be paid to the Sawridge district. The question of developing the large areas of muskegs will be fully investigated and following their report it is expected that experimental work will be carried on in a large scale, with a resultant benefit to Northern Alberta.

If the experiments carried out prove to be as favorable as anticipated, several rich areas will be opened to agriculturalists, and the result will undoubtedly prove of great value to the agricultural industry of Alberta as a whole, and to the farmers of northern Alberta in particular.

Mrs. Jack Barnsley sailed last night on the Camosun for Vancouver where she will spend a few weeks visiting.

SPECULATION or INVESTING

Which do you follow? In mining, oil and new industrial stocks the profits are big on paper, but you seldom get them, and generally lose your capital, with nothing to show but a nice certificate with a large seal. Your best investment is in good Government and Municipal Bonds; the return may be low, but it is sure. Your best buy today is Victory Bonds to net 6%. We also have four £100 5% bonds at \$373, par value \$486. As British exchange advances you reap the benefit. About the first we recommended C. P. R. at \$115; today it is \$128.75.
