DAILY EDITION

Friday, November 25, 1921.

Swimming Baths for the Children.

The matter of establishing swimming baths for the school children is being discussed by members of the Rotary Club and others. It is felt that in Prince Rupert we are differently situated to what other places are and that it is a great thing to have every boy and girl learn to swim as part of the school education. By installing a tank in the basement of the Booth Memorial School at a trifling cost the youngsters can be given the necessary facilities. The Rotary Club, while making no pledge, has intimated that it might be willing to raise half the amount required if the school board and city council will do the rest.

If the scheme is carried out it will put Prince Rupert in the position of being a leader in this phase of education. In no other public school in the province are there similar facilities. We in the north ought to be leaders. We have representatives in the most prominent positions in the province, and we should show the world that we can be leaders when it comes to providing for our own children.

Apart from any sentiment of being in the forefront of education, there is of course the great need for a place where the young people may learn to swim, and perhaps even more than that is the need of healthy exercise and the hygienic need. Teaching children to bathe is perhaps even more important than teaching them to swim.

Irish Situation

Cause of Alarm.

It will be a crime against civilization if the two great factions in Ireland cannot get together and the differences of the country be settled amicably instead of by the arbitrament of war. There is a peace conference in session, and yet there is a threat of war. The people of South Ireland will be ill-advised, it would seem to us here, if they do not accept the terms of Lloyd George and settle down as a separate entity within the Empire. If they were only located elsewhere there would be no need of trying to keep the island as a part of the British Empire but, placed as it is, right alongside the central point of the system, it is necessary that it remain an integral part of the commonwealth of nations, although it might well be an independent part in so far as the internal affairs of the country are concerned.

In Canada we look with interest on Irish affairs, but anything we say out here has absolutely no influence on the general situation. This is not a vital question with us, although there are many Irish people in the community, both Ulstermen and southerners, who keep in close touch with the affairs of the land that once was theirs. A settlement of the Irish question would have a good effect even here, where men would learn to forget that they once were northerners or southerners.

Fred Stork Is Gaining Strength.

Fred Stork, who returned from Anyox last evening, is much pleased with the result of his visit. He realizes that the people are not supporting him personally, but simply are going to vote for a change of government. The telegraphs yesterday brought a list of nominations for this province and Colonel Peck was there listed as an independent Conservative. There was no other way they could list him after his attitude last session.

It should be remembered that in voting for Fred Stork, as so many are going to do, they are not supporting any popular idol. Mr. Stork is just an ordinary business man, although by the way an excellent citizen, and will make a splendid representative. Most Liberals are not campaigning against Colonel Peck as a man, but against what he represents. People of Skeena are not willing to take any chances in regard to their representative. They want to be sure of him. They want a man who is pledged to certain principles of administration, and Fred Stork is that man. It is because of this he is gaining strength every day. The more people reason the matter out the more they come to see that there is only one thing to do. That thing they are about to do at this election.

Are We Satisfied or Are We Not?

Sam Watson in a letter published elsewhere puts the case very clearly. Are we satisfied or are we not? If we are satisfied to go on as we have been going, then vote for the Meighen man. If, on the other hand, there is a desire for a change, the only alternative is to vote for Stork.

BRONCHIAL ASTHMA

Choking and Gasping for Breath Relieved by "FRUIT-A-TIVES"

MRS. PENNINGTON

NEW ROCKLAND, P.Q.

"In 1919, I was taken with Bronchial Asthma and no one knows what I suffered with during the winter. I began having Choking Spells—gasping for breath and could not speak. I would have one of these bad spells in the evening, one during the night, and one in the morning. The doctor said he could do nothing for me.

"In the spring of 1920, I started taking 'Fruit-a-tives' and in a few days, the choking spells stopped, and I have had none since May 7th, 1920. I have so wanted to tell other sufferers who have the same trouble about 'Fruit-a-tives' for I know how they must suffer.

Some thought the Asthma would come back on me as winter came on but it has not, thanks to 'Fruit-a-tives' Mrs. J. M. PENNINGTON, 50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

STORK SAYS NORTH WILL DO ITS DUTY

Arrived Home Last Night and Feels Sure of Big Support at the Mines.

Fred Stork returned last night from a somewhat extended visit to Anyox and other northern mining camps, and is most emphatic that the mining camps are mostly Liberal. He says he got a good reception, was given a patient and sympathetic hearing and he feels sure that the people of the north realize the situation and will support him on this occasion.

Mr. Stork was glad to hear on his return that the cause of Liberalism looked well here. He is using his best efforts to place the issue clearly before the electors, so that if the people make a mistake they will have none but themselves to blame. He feels sure, however, that there will be no mistake this time.

The regular monthly meeting of the hospital board was held in the council chamber last night. There were present: President D. G. Stewart, D. C. McRae, Rev. W. E. Collison, Col. S. P. McMorris, E. H. Mortimer, P. J. Palmer, J. C. McLennan and Major G. E. Gibson, secretary.

Children's Coughs Quickly Relieved.

It is hard for to keep the children from taking cold; they will run out of doors not properly wrapped, or have too much clothing on and get overheated and cool off too suddenly, they get their feet wet, kick off the clothes at night; the mother cannot watch them all the time, so what is she going to do?

Mothers should never neglect the children's coughs or colds, but on the first sign should procure a bottle of

DR. WOOD'S NORWAY PINE SYRUP

It is pleasant and nice to take, and relieves the cough or cold in a very short time and thus prevents bronchitis, pneumonia, or perhaps consumption getting a foothold on their systems.

Mrs. E. Smith, 288 Victoria Avenue, North, Hamilton, Ont., writes: "I have three children who have had very bad colds, due to change of climate. I have tried different remedies, but I seem to get the best results from Dr. Wood's Norway Pine Syrup. I have no difficulty in giving it to them as they like it. I always have at least one bottle in the house."

Price, 35c and 50c a bottle at all dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

IMPROVEMENTS AT HOSPITAL

Heating and Sterilizing Systems Having Repairs—More Are Planned.

NEW NURSES' HOME

Alterations and improvements to the heating and sterilizing systems at the General Hospital are being considered. Some have already been made.

In compliance with a recommendation from Fire Chief D. H. McDonald, the gasoline stoves which have been used have been replaced with electric ones. Repairs have been made to the gasoline pipes leading to the operating room.

The Canadian Red Cross Society has made a grant to the hospital board which is to be used in putting in steam tubes and steam sterilizing appliances in the operating room. The House Committee and the Red Cross Society are considering the specifications with a view to calling for tenders.

A sum of \$235 has been turned over to the hospital from the Patriotic Fund. The House Committee and the officials of the Patriotic Fund are conferring with a view to putting this money to some special purpose.

Insurance.

At the board meeting last night, the matter of insurance was referred to the Finance Committee with a view to distributing it as evenly as possible among the local agents. The committee may also recommend that the amount of insurance on the building be raised. At the present time \$23,000 is carried on the building, \$6,000 on the fixtures and furniture and \$1,000 on stock.

President Stewart, at the meeting, said that there was a great improvement in affairs at the hospital under Miss Charlotte Black, the new lady superintendent.

Major Gibson said that lady patients on being discharged spoke feelingly of the treatment they had received and of the improvements that were evident. Miss Black had said that if the hospital was to get the proper type of pupil nurses there would have to be better accommodation for them. There should be a nurses' home.

Mr. Stewart said that this matter might be well taken up again. The government should be approached with a view to obtaining money for it, especially since such handsome profits were being made out of the liquor business. Prince Rupert, no doubt, contributed to them.

Col. McMorris thought the board should take the matter up with the government. It was his opinion that a suitable home could be built for \$15,000.

HIGH WATER DANGER AT PRINCE GEORGE

Ice Jam Formed at Junction of Nechaco and Fraser, Causing Floods.

Word has been received by the railway officials from Prince George that owing to the Fraser River freezing before the Nechaco an ice jam was formed and the water backed up, overflowing some low-lying land on the outskirts of the town and in one place covered the railway track.

Reports this morning showed that the water was dropping, it already having receded 18 inches. It is hoped that the trouble is at an end.

Ten Years Ago in Prince Rupert

November 26, 1911.

The pump for the city's auxiliary water supply from Morse Creek arrived yesterday by the Prince Rupert Ena.

The Ratepayers' Association held a meeting in Presbyterian Hall last night to discuss Mainhole 28 and the proposed Hays Creek sewer. A. W. Edge presided and among the speakers were Ald. Clayton, Ald. Newton, Ald. Hilditch, Ald. Morrissey and Ald. Douglas.

It is announced that the new Westholme Theatre will be ready for opening by January 1.
