EXHIBITING AT FAIR

One week from Tuesday next the annual fall fair opens and, as has been the case for the past two years, one of the big features will be the flower show in the main building. A number of people are preparing to place exhibits but no one can tell just how their flowers will be by then. It may happen to be their off week.

Those who are interested in the flower section of the fair are particularly anxious to make this the biggest and best exhibit on record. With this end in view they hope all who have flowers will make a point of putting in at least one exhibit and thus increase the display and the interest in the event.

It has been demonstrated that Prince Rupert can grow flowers as well as any place. The fair is the best occasion to impress this on citizens and visitors. Flowers are among the best attractions, many people going to the exhibition building for the sole purpose of looking at them, comparing notes or getting pointers on what to do in their own gardens next year. If all help this should be one of the biggest permanent fair features.

FINE FLYING TEST

Captain von Gronau and his companions are making a splendid flying demonstration. They have honored Prince Rupert by making the city a stopping-off point, the last place in Canada at which to call. Prince Rupert people wish them every success and hope they will reach their destination without accident of any kind.

We hope the visitors will enjoy their stop-off in the city. They will certainly find a friendly atmosphere here and we hope they will carry away with them happy remembrances of Canada's most westerly port.

INDIA ONCE MORE

Following the firm hand policy in India the government has given extensions of local government which should prove a step forward in the movement toward autonomy without endangering the peace of the country and possibly of the whole world.

There was a time when many people feared trouble in the Indian Empire. They saw the trouble caused by Gandhi and his followers developing into open rebellion. Then came a change of government in Britain and a consequent change in the policy of the administration in India. The discontents were made to realize that they could not foment rebellion with impunity. The policy seems to have settled the Indian question for the time being.

Spruce For Bathing Suits

All "spruced" up. Perhaps you wooden think so but Betty's bathing suit is made entirely of spruce fibre, one-eighth of an inch thick. It is estimated that 30,000 1/2 bathing suits could be made from a single log.

TELLS ABOUT OLYMPICS AT LUNCHEON

Edmonton Grads Entertained at Local Event With Mayor Orme Presiding Yesterday

Aviator Also Spoke

J. Percy Page Rather Disappointed at Showing Made By Canada at Los Angeles

A very enjoyable luncheon was held yesterday afternoon in the Commodore Cafe under the auspices of the Fair Board in honor of the Edmonton Commercial Grads with Mayor C. H. Orme presiding.

Although the attendance was not as large as was expected those who were present were able to hear a very interesting account of the impressions of the recent Olympic Games by a man who knows sports, J. Percy Page, coach and manager of the women's champion basketball team of the world.

Besides Mr. and Mrs. Page, daughter and members of the team there was present Captain von Gronau, German long distance flyer.

In his opening remarks Mayor Orme welcomed these guests and asked Capt. von Gronau to say a few words. He spoke briefly on his trip and of how much he had enjoyed crossing Canada.

Mr. Page, in speaking of the Olympic Games said that, to him, it was like a huge picture which could not be viewed in its proper perspective at first, but when he was home and had time to think about it he could say more.

The origin of the Olympic Games was many hundreds of years ago and then only the one race was run, that race would be our 200-metre race of today. But since that time it has grown until today there are many different events. In the early days these games were restricted to male athletes only but today in the International Olympics there are six events for women. Unfortunately these do not include basketball or the Grads would undoubtedly have brought another Olympic title to Canada.

The first Olympic was held at Athens and this one held at Los Angeles this year was the tenth of the modern series.

Mr. Page said that although the equipment for these games had now been standardized the surroundings and accommodation this year was much better than at the last two Olympics he had attended.

The huge stadium which took \$20,000,000 to construct was able to accommodate 165,000 people and was filled to capacity on the opening day. One had to admire the ease with which the Americans accomplished the seating of this immense crowd and the smoothness with which each event was conducted.

One of the greatest improvements over the previous Olympics was the accommodation for the athletes. For this what was called the Olympic Village was constructed where 18,000 athletes could be housed. Here everyone was treated alike with no favoritism to anyone the only thing was that the people of different nationalities had their own chefs.

Mr. Page felt a little disappointed at the showing which Canada made and also Germany and Finland but this was probably partly due to the change in climate. The Americans did very well and the British too made a fairly good showing. He thought that there was no more dogged athlete than the British who didn't seem to know the meaning of the word quit. The Japanese were also of this type.

Mr. Page thought that the games could not have been conducted more fairly and that these international sports were welding people into being more law abiding and peaceful and no one who witnessed these games could fail to feel that some good had been accomplished and that the money and time spent was well worth while.

Mayor Orme in thanking the speakers said that the people of Prince Rupert were proud of this Canadian basketball team.

Tossed Discus For New Record

Lillian Copeland, Los Angeles, has just uncorked a new women's world record discus throw here. She pushed the plate for a 133-foot 2 inch olympic mark.

Edmonton Commercial Grads Defeat Local High School Boys in Fast Hoop Contest

Girls Display Superior Combination and Shooting Ability to Capture Hard Fought Game—Leave on Today's Train—Big Crowd in Attendance

Before a packed house in the Exhibition Building last night the Edmonton Commercial Grads, world's champion ladies' basketball team, demonstrated their skill in the hoop game by taking the measure of the fast moving local High School boys' quintet by a score of 32-26. The game was well contested all the way with the girls showing superiority with their short passes and shooting.

Margaret MacBurney, champion free thrower of the world, led the scorers with 18 points while Babe Belanger found the hoop for eight points. Gladys Fry, fast centre for the Grads, played a beautiful passing game as did also Elsie Bennie.

Alex Walters led Prince Rupert's scorers with 10 points. Unger, Wingham and Thurber each collected four points. Although the latter was not allowed on the floor for long he played a nice game and might have been used to greater advantage.

The game opened with Prince Rupert having the ball most of the time but the boys appeared nervous and could not work the ball under the opposing basket. At the end of the first quarter the Grads were leading 7-2.

The game speeded up in the second period with the local players gaining confidence. Their longer reach was proving a big advantage to them in taking rebounds and they outscored the Grads 4-3 to make the half-time score 10-6 in favor of Edmonton.

In the third quarter the High School team went strong going into the lead by one basket on a couple of occasions but only holding it temporarily and the teams entered the final period with the score tied 18-18.

The Grads started scoring right from the whistle and soon had a comfortable margin which they maintained to the end.

J. Mitchell refereed the game in

a very capable manner, checked up all fouls closely. Walter Stone was scorekeeper.

The Players

Grads—Belanger (8), MacBurney (18), Fry (3), Neale, Bennie (1), Stone, E. Stone; total, 32.

High School—Unger (4), Wingham (4), Morrison, Walters (4), Vance, Thurber (4), Smith (2), bey (2); total, 26.

The Moose Legion Band, headed by Robert Greenfield donated services, which were greatly appreciated by the Fair Board. The Exhibition Building before the game and enlivened the proceedings with their playing.

Before the game started, W. Vance, secretary of the Fair Board, introduced his team to the coach and manager, who in turn introduced his team to the audience.

The Grads, accompanied by Mrs. Page and daughter, left on today's train for their home in Edmonton.

Millet seed is said to stimulate egg production when used as poultry feed.

INTERMEDIATE BASEBALL

The Intermediate baseball game between Young Sons of Canada and Young Empress has been postponed until Monday night at 6:30. The players have not been turning up at these games and if there are not full teams on hand Monday the series will be cancelled. The Sons have a good chance to win the second half and get into the play-off but they will have to give the executive more support than they have been doing in the past.
