DAILY EDITION.

Friday, July 22, 1921.

Local Firm to Be Congratulated.

The local firm of Mitchell & Currie is to be congratulated on landing the big contract for the superstructure of the new dock. It is satisfactory to see that a local firm is able to compete with outside firms and that with success. Mitchell & Currie do a lot of work in the city and they aid materially in building up the town and changing it into a modern city.

With the completion of the new dock it will be possible to handle any kind of business from this port. Not only can we co-operate with the people of Alaska in marketing their produce, but we can ship to the Orient. There is no reason why a good deal of the Alaskan product should not be landed here and shipped in big steamers both to the Orient and to the United Kingdom and other parts of Europe.

Australia Making Extensive Plans.

Australia is making extensive colonization plans. She is talking of putting a million farmers on a million farms. That is big talk, perhaps too big. Canada also has a great work ahead of her. The immense tracts of vacant land could well accommodate many thousands of settlers. What is wanted is men who will come here to work and hew out homes for themselves. Bringing in settlers will tend to make the country more prosperous, but there is more to it than that. The vacant land is here and if we do not colonize it with desirable settlers the undesirable ones will come, for we cannot play the dog-in-the-manger game. The Indians were here before us, but they did not use the land, so the white people overran the country. If now the white people will not use the land the yellow people will overrun it and turn the white people out. We want here a prosperous white country.

While there is perhaps a spirit of selfishness back of our desire to settle the country, it is also true that many thousands of people would be much better off here than in their old surroundings in Europe. Men and women who come here get a new impetus in the race of life. They see things from a different angle, and those who would never have amounted to anything there develop fast when they come here. It is the land of hope and glory, the country of opportunity. Some few fail at they would fail anywhere. The courageous man or woman never fails. All that is needed here is courage with a determination to work. Success is then assured.

Everyone Regrets Famine in Russia.

While most of us have not agreed with the Bolshevik program as worked out in Russia and a great many people prophesied all sorts of dire things, it was not anticipated that things would have been as bad as they have turned out. Any supplies of food that the people there may have had have been used up owing to the system of producing only just as much as they needed for the present. Then when the crop failure came there were no stores to fall back upon and the people are starving.

At such a time our sympathies go out to the poor deluded people who now have to suffer for the mistake of their rulers. We are sorry that the condition has arisen, although it was inevitable that some time it would come. Nature is a severe teacher. She exterminates those who do not follow the rules which she has laid down.

Canada and Treaty With Japan.

The London Times Toronto correspondent sent to that paper what it considered the Canadian point of view as follows:

"Canadians, taken as a whole, overwhelmingly oppose renewal of the Anglo-Japanese Alliance. Their antagonism to it, although embracing a number of reasons, rests upon three main grounds: (1) the attitude of British Columbians, who, faced with Japanese economic penetration of their province, dislike and suspect Japan as a nation; (2) a belief that the Japanese Alliance has served its original purpose and is no longer in harmony with the new international spirit; and (3) a fear that a renewal of the alliance will result in competition in armaments with the United States, with a consequent increasing demand upon Canada's resources for military and naval defense.

"Of these three reasons the third is the most formidable. Canadians have a deeper faith in the value of Anglo-American friendship and a more ardent detestation of expenditure of armaments than the average inhabitant of the British Isles. Living next door to the republic, trading more with its people than with the rest of the world combined, they understand American temperament and ideas, American faults and virtues, and they have become convinced that the destiny of all branches of the Anglo-Saxon-Geltic race is bound up together; that only in deeper understanding and closer co-operation between the British Empire and America lies hope of world-peace and relief from the burden of armaments.

"When, therefore, they are confronted by a proposal which, in their judgment, renders co-operation with the United States more difficult, if not impossible, and also involves heavier demands upon the Dominion's resources for naval and military defense, their opposition to the alliance becomes comprehensible. It is not that Canada is lukewarm about contributing her fair share of the Empire's common defense; it is simply that her people are of the opinion that those who formulate the Empire's foreign policy should endeavor so to direct it as to render the burden of defense as light as possible."

HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

MR. JOHN E. GUILDERSON

P. O. Box 123, Parrsboro, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance. I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back.

In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since.

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

JOHN E. GUILDERSON, Contractor and Mason.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

THE LOVE LIGHT IS MARY PICKFORD PLAY

Entirely New Cast in Film Attraction at Westholme Tonight.

Entirely new faces are to be introduced to the screen in the next Mary Pickford production, "The Love Light," which will be the attraction at the Westholme Theatre tonight and tomorrow.

This thrilling drama is laid in Italy and Miss Pickford selected the principal members of her cast while abroad and had them transported to Hollywood, where the Italian members of the organization were selected in New York and also came to Hollywood especially for this one production.

The cast is one of unusual excellence and every member is especially adapted to the character given them. Miss Pickford was aided by her director Frances Marion, who is also the author of the story.

Raymond Bloomer, Miss Pickford's leading man, although he has played many roles in America, was secured by Miss Pickford in France. Mr. Bloomer had just returned from playing an engagement in one of the leading theatres in Rome. In addition to his successes abroad Mr. Bloomer appeared on the speaking stage in America in support of John Barrymore in "Richard the Third," and also in "Fair and Warmer." He also appeared in Italy with Lina Cavalieri.

The members of the company are unusually fine artists.

SHE DANCED RIGHT INTO THE LENS OF THE CAMERA

A tiny little girl with great big laughing eyes, a retroussé nose and elfin Cupid's mouth, has come into fame through her own pluck and desire to "get there."

Scarcely more than two years ago Constance Binney was unknown to Broadway. Nobody had even heard her name. But she was determined that some day "The White Way" would sit up and take notice; they would know her and look for her.

And her expectations have been realized. Today this youthful star's name blazes in incandescent lights on Broadway. Her hour has struck. Things have happened just as she planned and hoped. Her name is a byword to the stage and screen world. And her light dancing feet are the cause of it all. While appearing in several solo dances in "Oh, Lady, Lady," in which she captivated all New York, she was persuaded to try the screen. She literally danced right into the lens of the camera—and incidentally was honored by playing opposite John Barrymore in "The Test of Honor."

The meteoric rise of this girl, still in her teens, to stage and screen stardom was the sensation of the year in amusement circles, and makes a story that reads like a veritable romance. The chief factor, however, in Miss Binney's rise to eminence is the fact that she is the most representative American girl in the public eye, simple, wholesome, unaffected, a "homey" type. To her charm, ability, intelligence, training and perseverance she adds a vitality and an independence that have made the American girl the flower of the world's best young womanhood.

She will be seen at the Empress tonight.

Ten Years Ago in Prince Rupert

July 22, 1911.

The Prince Rupert Indoor Baseball League has been organized with six teams, the Quill Drivers, Royal Blue Ribbons, Comets, Crescents, Empress Hotel and Kalen Island Club.

Citizens are complaining about the scavenging monopoly of J. G. Weston which is said to exist. No definite scale of rates has been passed by the council.

Walter Nichol, publisher of the Vancouver Province, is a visitor in Prince Rupert this week.

"Pa, what is a good talker." "A man who can talk and make you actually want to listen to him."—Detroit Free Press.

PRINCE RUPERT TIDES

Friday, July 22.
High—2:30 a.m., 19.9 feet.
15:18 p.m., 19.0 feet.
Low—8:59 a.m., 3.5 feet.
21:08 p.m., 3.9 feet.
Saturday, July 23.
High—3:05 a.m., 19.4 feet.
15:50 p.m., 18.9 feet.
Low—9:28 a.m., 4.1 feet.
21:42 p.m., 7.0 feet.
Sunday, July 24.
High—3:42 a.m., 18.7 feet.
16:24 p.m., 18.6 feet.
Low—10:00 a.m., 4.7 feet.
22:20 p.m., 7.0 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.
