Result of Strike Vote
Very Depressing.

After having watched the tide of events in the Old Country with intense but optimistic interest for the past few days, people in Canada must have received the news of the failure of strike negotiations yesterday afternoon with general disappointment. The announcement that the miners had rejected the terms of the owners and that the present deplorable state of affairs is likely to continue is indeed bad news. Just recently the situation had looked decidedly brighter and a resumption of mining operations had seemed close at hand; but now the outlook is again as black as ever it was since the beginning of the strike nearly three months ago.

World-Wide Interest
In Progress of Affairs.

The progress of affairs is being watched with world-wide interest for a national crisis is now indeed impending. The heart of the British Empire is facing a great menace and sooner or later the most distant outposts in the dominions will feel the effect. Coal is already being sent from Canada to Great Britain and much more will now be demanded. Probably Canada is feeling the first direct result of the big tump in the Old Country. Therefore, it is that, even here in Prince Rupert, such keen interest is being manifested in the situation in England.

Situation Looks as Black as Ever.

How much longer this terrible state of affairs will continue in Great Britain is now hard to predict. The miners have shown their determination to stand out although, doubtless, many thousands of them have surrendered and are still suffering great privation and hardship. Families, in many cases, must already be in dire necessity and must be lacking the ordinary requisites of living. Bit reports from the Old Country state that the workers are maintaining a very cheerful attitude and are not showing their suffering. While the miners still remain firm, the owners, on the other hand, are just as determined and it is not likely they will offer any further concessions. At the present time the whole coal strike situation in Great Britain is, apparently, in a state of deadlock, and the hope that the government can remedy it does not look very bright.

No Results in Ireland Shown Yet.

The new policy of Great Britain in handling the Irish situation does not seem to be blessed with any tangible results as yet. Matters are going from bad to worse despite the fact that an order was sent out from London last week that reprisals were to cease and that the military was to be in full charge of the policing of the troubous isle. Sinn Fein and revolutionary outrages are continuing apace, destruction and murder is going on without cessation, and the burnings and killings still are taking place in the very hearts of the largest cities. Even the activities of the opposition of the crown are being discovered near the city of London. Where this Irish trouble is going to stop seems very hard to tell. Perhaps a few more weeks under the new system of control by the military will be productive of results; even if the first week of it has not shown any change in the Irish situation.

**LOCAL EDITOR TELLS
ABOUT NORTH COUNTRY**H. F. PULLEN Visiting in Victoria
After Tour of Interior.

Northern and Central British Columbia is very prosperous in the agricultural areas, according to H. F. Pullen, editor of the Prince Rupert Daily News, who has just completed a tour of the Bulkley and Nechako country, returning by way of Prince George and the Fraser River to Quesnel and thence to Ashcroft by the old Cariboo road. Says the Victoria Times.

Everywhere in the north the farmers are clearing land and increasing the area of cultivable land. The establishment of a creamery at Vanderhoof is having the effect of turning the attention of everybody to dairying, which is now generally looked upon as the future big industry of the central portion of the Province. At present most of the farmers are raising beef, but there has been difficulty in disposing of the product and the change to milk producing is being looked to as the salvation of the farmer.

Experiments are being made with the growing of clover and alfalfa in many districts and when proper methods have been used there has always been success. Inoculation is necessary before a crop can be depended on, especially in the case of alfalfa.

Prince Rupert is prosperous at present, Mr. Pullen says. The shipbuilding is going on steadily, about 550 men being employed in the yards and the halibut fishing has been better than usual this spring. At last, after many months of waiting, the Canadian National Railways are providing fish cars to handle the product and as a result more will be shipped over the Canadian Railways instead of by way of Seattle and Ketchikan. Work has commenced on the new courthouse and several new concrete business blocks are going up. A new brick and concrete schoolhouse has just been completed and will be opened at the beginning of the school year. This school has twenty-one rooms and is modern in every respect.

Mr. Pullen is here for a holiday and will return to Prince Rupert in about a week or ten days.

KETCHIKAN WANTS STEAMERS TO CALL DURING DAY TIME

KETCHIKAN, June 18.—A number of letters have been written to F. E. Ryns, Ketchikan, agent for the Canadian Pacific Steamship line, asking that the company make arrangements to have its boats land in Ketchikan during the day, both on the north and southbound trips. The opinion is expressed, in all the letters, that such an arrangement would be more satisfactory for the tourists, giving them a chance to see the district in the daylight, and at the same time give Ketchikan the benefit of their entertainment.

All of the letters commend the C.P.R. for the splendid passenger service given and for the apparent desire of the company to accommodate their public in every way possible.

One of the heaviest shots put by Nick Gurvich, on his Seventh street contract late on Saturday afternoon, played him a nasty trick and very nearly buried Tom Dun's residence in rocks and debris. The shot blew backwards instead of forwards, and the house was shaken to its foundation and damaged more seriously than any building has ever been before by street blasting here.

PRINCE RUPERT TIDES

Friday, June 17.	11:50 a.m. 17.4 feet
	2:40 p.m. 20.4 feet
Low	5:48 a.m. 4.2 feet
	17:40 p.m. 8.0 feet
Saturday, June 18.	Midnight to midnight
High	12:35 p.m. 18.0 feet
Low	6:32 a.m. 3.6 feet
	18:25 p.m. 7.9 feet

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 8 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.
