Election May Be Almost Any Time.

While the Daily News has taken the view that an election this year is not very likely, there are increasing evidences that the Dominion Government is weakening and that there is a probability of some drastic action being taken by Premier Meighen in the near future.

The first of a series of letters defending the administration of the railroads has been received in which it compares the operating expenses of the Canadian National with those of the C. P. R. and tries to explain why the road had such a large deficit last year. Other letters, it is stated, are to follow. In spite of these explanations the people of Canada know that they have to bear an enormous taxation, amounting in all to very close on one hundred million dollars to pay operating deficits and interest on bonds of the various national railways. This is so serious that those who have to pay most of the taxes are very much worried.

Tax Reduction Was Expected.

It was expected that this year there would be a considerable reduction in taxation. The experiment in railway ownership and operation prevents this. We must all continue to pay to the full extent of our ability and often more.

This is the one thing just now that is stirring the financial interests that are backing Premier Meighen. They are feeling the pinch and to no good purpose except to see an ever bigger debt and a heavier tax next year.

It is generally understood that there is a demand for a change in the administration of the National Railways. Not only the minister of railways but possibly the president of the concern may have to give place for someone who will be expected to produce results. The number of officials and private cars will have to be cut down and their places taken by working men and producing cars.

Locally we have had a very stirring example of the inefficiency of the management of the railway. The failure to provide fish cars to handle one of the best paying departments of the road, is an indication of the general trend of affairs. While local officials are doing their utmost to make the best of a bad condition, the powers higher up, either the president of the road or the minister of railways, is showing an absolute lack of appreciation of the first principles of good business. Yet we all have to pay the bills which they are incurring through their inefficiency.

If it were not so tragical and did not touch us all so closely, the railway situation would be humorous. The department is sending out publicity material to the newspapers showing how well they are running the railways, and at the same time here we are damning them day after day, week after week, month after month for their inefficiency and failure to provide the common necessities to make the road pay its way.

Privileges for Digby Residents.

There is no provision for Digby Island residents to get to town except occasionally during the day time or when permission can be secured to use the launch. Some of them would like to attend church but they cannot cross to this side without hiring a launch or buying a boat. Several requests have been made for a service but so far without result. As there are now a number of people residing on the island at the wireless station, the marine station and the hospital, it would seem reasonable that they should be given an opportunity to cross to the city at stated times suitable to meet the social and religious engagements of the residents. This would not be a difficult matter to arrange, it would seem, and would prove a boon to the employees of the department at that place.

 Low, 3:24 a.m., 10.4 feet.
 11:59 p.m., 7.4 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

PECK ASKS MINISTER REGARDING TRIP UP THE STIKINE RIVER

In the House of Commons a few days ago Colonel Peck asked the following questions:

1. Did two employees of the Public Works Department proceed up the Stikine River and down the Dease River to the lower post on the Liard last summer?

2. If so, what was the expense of this trip, including wages of those employees during the period they were engaged in same?

3. For what purpose was the trip made?

4. Was the purpose accomplished?

Hon. Mr. McQuay replied:

1. Yes.

2. \$1,065.08.

3. Reconnaissance was made and data secured as to requirements to improve the waterway for the handling of supplies, etc., to the mining district north of Dease Lake.

4. A report has been submitted and is receiving the consideration of the Department.

H. S. MUNRO WAS AT CASSIDY MINE

Says Plant is Not Paying and Company would be Willing to Lease It

"We are not making 5 per cent on our investment at the Cassidy coal mine," said H. S. Munro, general manager of the Granby Consolidated Mining, Smelting & Power Co., recently, "and would gladly rent it to anyone offering us a reasonable return."

Mr. Munro thinks that coal prices charged the public generally are too high, but cannot see any immediate prospect of a drop. With falling production costs which are now slowly taking place the price will probably be down a dollar a ton at the pithead before the end of the year, however. Educating the consumer to use slack coal, which is quite satisfactory for domestic purposes, is a solution which he suggests.

Mr. Munro went North to Anyox last week after having been in the south visiting the Cassidy plant.

MISUNDERSTANDING OVER MRS. SMITH

VANCOUVER, Mar. 30.—En route to Ottawa Mrs. Ralph Smith reiterates her understanding that she is President of the Privy Council. Premier Oliver repeats his former statement made in the Legislature that there is a misunderstanding and that Mrs. Smith is minister without portfolio.

TERRACE

Construction on the new hotel at the Lakelse Hot Springs is to be rushed to completion this summer. Harold Johnston, the promoter of the enterprise, is in the west again consulting with J. Bruce Johnston, the local manager. Mr. Watson, a director of the company building the hotel, will make his residence here this summer.

C. A. Waite returned last week from a fortnight's business trip to the prairies. He reports that many farmers there would come to the Terrace district if they could dispose of their holdings.

The Terrace Board of Trade has passed a resolution petitioning the G. T. P. to reserve a portion of the right of way between the town and track here for use as a park.

Ten Years Ago in Prince Rupert

The first fire truck for the Prince Rupert fire department is in Toronto on its way here from Walkerville.

The building on Second Ave. recently occupied by the Prince Rupert Publishing Co. has been rented to J. H. Kugler. The Optimist is moving to its new quarters on Third Avenue.
