SELL HORSE FOR MATCHES

Various Causes for Discontent in
Russia under Soviet Regime

STOCKHOLM, Mar. 31.—Russian peasants south of Moscow gladly sell a horse for three boxes of matches or a kilo of salt, it is declared by persons in touch with conditions in the interior of the country.

Observers cite this state of affairs as the cause of the counter-revolution in March, which, they say, began to take definite form in January. Unwieldiness of the Soviet administrative machine, the differences among the Bolshevik leaders and the fuel crisis with consequent stoppage of transportation and lack of food are given as the reasons for the subversive movement.

Discontent which was prevalent throughout Russia during the war period, but concealed in the presence of the invading enemy, could no longer be repressed when the fighting men returned home to find want and distress.

Sign of Revolt

The first sign of revolt against the existing order are said to have been apparent at the Russian trades-union congress in Moscow last November. There were further evidences of dissatisfaction in the eighth All-Russian Soviet Congress which convened in Leningrad at Moscow last December. These symptoms of reaction, it is stated, were unapparent on the surface, but made themselves felt among those behind the scenes. Harmonious resolutions were adopted, but the attack came from a quarter whose importance could not be doubted.

In this Eighth Congress, the metal workers' and miners' unions

SHORT OF BREATH Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all gone feeling of depression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung, Scott's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nerve system.

Mr. Stephen Cruise, East Clifford, N. S., writes:—"I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Scott's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work on a farm and can truthfully say I feel like a different man."

led by Schliapnikoff urged the democratization of the government, which, it was charged, was military and bureaucratic. Schliapnikoff also demanded that the food administration be placed entirely in the hands of the trade unions. This was plainly an attack against the Communist executive committee and the highest Soviet authorities.

Freedom of Press

More recently the press of the country has shown signs of greater freedom and has not hesitated to attack policies of the government which, it is said, has entrenched itself by appointing thousands of petty officials.

Press controversies have revealed animosities between leaders. For instance, Trotsky and his followers are declared to be set upon a policy of nationalization of trade unions, whereas Lenin believes it wiser to maintain the independence of the unions apart from the government and, to use them as training schools for Communism. And there are numerous other groups which, it is stated, are bent upon other projects, revealing a tendency to destroy the former unity of front in Russian policy.

OPIUM IN SAUSAGES.

NEW YORK, March 31.—Detectives recently found several links of sausages filled with opium on the arrival of a steamer here, according to the police.

The Tragedy of the Uninsured

No man appreciates the value of LIFE INSURANCE so much as the man who is not insured. The plight of the horde of men in this unfortunate position must force you to realize the necessity of insurance.

It is only \$1,000 policy to start with you ought to insure that much protection to your wife and kiddies. Now, Tomorrow may be too late.

This can be done in the Mutual Life Insurance Co. of Canada.

QUEER WHAT STUFF FAIRIES ARE MADE OF

Photographs of Curious Creatures
Shown on Screen at Theosophical Lecture

Fairies photographed in Yorkshire were shown, by means of a magic lantern, in the hall of the Theosophical Society, says the London Times. They and their habits suffered, at the same time, the indignity of being lectured upon. The lecturer was a firm believer, and, as for the camera, everyone's precaution had been taken lest it should be. The fairies seemed to be the usual sort; nothing very startling about them—except, of course, their existence.

A. P. Sinnett, who presided over the demonstration, explained that to see a fairy you must be clairvoyant—which is pretty obvious. They can be photographed, only if they become, with clairvoyant aid, partially materialized. Their duties are concerned with the color, growth and shape of flowers. They have a definite task in the scheme of nature and are subject to evolution. They live on a very humble level, and are about as intelligent as a Newfoundland dog. The matter concerning a fairy's body is plastic to thought. Currents of human thought give fairies the form in which they are seen by the clairvoyant. And so on. It is all relative, as a disciple of Professor Einstein might say.
