## MARY PICKFORD IN "POLLYANNA"

Famous Screen Star Comes Here in Famous Movie Story

Critics everywhere assert that "Pollyanna" is one of the greatest picture-plays ever filmed. The reason for this is that the philosophy upon which the story is based constituted a theme which at the present time has an unusually wide appeal. This production will be the feature at the Westholme tonight.

Undoubtedly Mary Pickford, with characteristic far-sightedness, had this in mind when she chose this celebrated work.

### Big and Compelling

There is a great craving at the present time on the part of the public, according to best informed showmen, for something more than mere entertainment. Of course, diversion is always the paramount thing whenever amusement is considered, but at the same time people want something big and compelling—something that will drive home a few truths without preaching a sermon or spoiling the flavor of a show which is meant to entertain.

Such a story is "Pollyanna," with its cheerful philosophy of gladness. It is believed that this production, coming at a time when the country is upset by a period of readjustment, will have an unprecedented reception from the picture patrons.

### Might Be Worse

Miss Pickford points out in this story that even when things are bad they might be worse. This thought, planted in the minds of people who are dissatisfied with wage conditions, or who think they are not getting a fair price for their goods, will stimulate a line of mental activity which will result in stabilizing conditions.

The most progressive of the picture stars believes in choosing plays, wherever possible, which will act as a propaganda of good. It is their ambition to have each screen medium serve a definite purpose, and with this in mind, Mary Pickford decided to pictureize Eleanor H. Porter's famous book. So "Pollyanna" is a picture with a mission.
