### MOTORMAN WAS KILLED BY AN ELECTRIC WIRE

Edmonton, Sept. 30.—Alexander Wilson motorman of the Edmonton radial railway, aged thirty-nine years met instant death on the McKernan Lake carline, when electrocuted in an attempt to disengage a city lighting wire which had fallen across the trolley of street car No. 3, which he was driving.

When picked up some time later the body of Wilson was three rods ahead of the car and badly burned, the wire which had caused his death being still under his left arm. Wm. B. Lang, the only passenger of the car, in an attempt to assist the motorman, received a severe shock when he tried to help the stricken man. Thomas Davidson, also made an attempt to drag the motorman from his position and was knocked down by a severe shock but otherwise uninjured.

Two months ago, Wilson sent his wife and child to New Zealand, the home of Mrs. Wilson's parents, and had intended to follow as soon as he had disposed of his property here. A cablegram was sent to Mrs. Wilson's parents Sunday, by the city notifying them of the death.

### New Government Road at Alice Arm Complete and Now Opened for Traffic

ALICE ARM, Sept. 30.—With the completion on Wednesday of the bridge across the creek opposite the Alice Arm Hotel, the government road from the town of Alice Arm to the Dominion Government wharf site is completed and is open to traffic.

The completion of this road fills a long-felt want which is a necessity to the town, as heretofore the only access to the town from the wharves was by way of the Dolly Varden railway or by scows towed up the mud flats, taking advantage of the tides. This manner of distributing freight was both costly and inconvenient. Add to this the fact that the flats were covered with block ice in the winter and it will be found that the hotel guest who made the complaint that his baggage cost was in excess of hotel bill was merely stating fact. The new road will eliminate all these difficulties.

4000 Feet Long.

The road leaves the town at the level crossing near the Government telegraph office and parallels the railroad to the wharf on the sea side. It is 4000 feet long and has one trestle bridge 150 feet in length. The roadbed is 16 feet wide and is of rock fill and rock cut construction with a gravelled surface. The first thousand feet of the road nearest town was built by the day labor early in the spring. The day laborers were very pronounced in their heavy rock work amounting to approximately 8000 yards, was let by contract to a local syndicate of sixteen residents of the town. Work was started in June and was completed within three months.

### MACKENZIE KING IS INSPIRATION

So Says President Manitoba Lib-  
erals, Who Welcome Advent  
of the Farmers.

WINNIPEG, Sept. 30.—W. L. Mackenzie King is forging ahead as the guide and inspiration of the Liberal party in a manner worthy of his great predecessor, Sir Wilfrid Laurier, declared A. E. Hill, president of the Manitoba Liberal Association, on his return from the Ottawa. Mr. Hill is very optimistic as to the outcome of the election. He said there was a remaining 3000 feet, comprising very pronounced swing in the East toward the view that it was no longer a question of whether the Liberals would have the largest group in Parliament but whether they would have a clear majority over all parties.

Farmers Welcome.

"I am a farmer myself since I retired from business," said Mr. Hill, "and I welcome the advent of more farmer members in Parliament. There are many, many Liberals among the farmers, and they will help support real Liberal legislation. As the Liberalism of Sir Wilfrid Laurier was big enough to include all creeds and all nationalities, so the Liberalism of Mr. King is, I feel confident, big enough to include all industrial divisions.

With New Government.

"In Winnipeg you have always been expected by the people of the West to take the lead in Liberalism," continued Mr. Hill. "All indications are that a Liberal government will soon be in authority. Winnipeg citizens will, I hope, see to it that their lead is not supplanted elsewhere in the West. I am glad to find so much enthusiasm in the city, and hope you will elect representatives who will be of such character as to be able to take their part with the new government in the many problems that must be met."
