**Was Suffering from
INDIGESTION**

No Fear of Pains Now

Indigestion is one of the worst forms of stomach trouble, and many people suffer terribly after every meal they eat. The rising and sinking of the food, pains in the stomach, heartburn, water brash, belching of wind, vomiting shortly after eating, etc., are some of the symptoms.

There is no need for any person to be troubled with indigestion, dyspepsia or any other stomach trouble if they would only take Burdock Blood Bitters, which contains a combination of nature's roots, herbs, barks and berries; a combination that cannot help but put the stomach right.

Mr. H. H. Collins, Norlon, N.B., writes: "I was with the overseas forces for four years and two months, and in October, 1916, I was unfortunate enough to be wounded and taken prisoner. I was a prisoner for 2½ years, and the food they gave us was not good, at times, and after a few months I found I was suffering from indigestion. When I came home in July, 1919, I was nearly a wreck. I was told to use Burdock Blood Bitters. I did so and found great relief, and can now eat without fear of pains and sickness. I would recommend it to all who suffer from indigestion."

Burdock Blood Bitters has been on the market for over forty years, and during that time has made a reputation second to none for relieving all stomach troubles. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont. ADVL.

**SEMI-DEISEL ENGINE
ON REPUBLIC PROVES
TO BE GREAT SUCCESS**

That semi-deisel engines in fishing craft are a wonderful and successful innovation was proven by the recent trip of the schooner Republic, commanded by Captain "Billie" Hegge, says the Ketchikan Chronicle. The Republic arrived in Ketchikan from the south after discharging a trip of halibut at Vancouver.

Whereas it cost Captain Hegge \$2,100 for distillate for a trip to the westward with his old 125 horse power distillate engine, on his last trip with his new Semi-deisel engine his oil bill was only \$410 including oils for the engine. With this engine present low price of fish does not worry him at all and he is able to make profit with even the smallest trips.

**ACTED STRANGELY
BEFORE SHOOTING SELF**

Late Allan McLaren Was Buried At Rosswood Near Kitsumkalem Lake.

TERRACE, May 18.—Inquiry into the circumstances of the death of Allan McLaren showed that deceased was found shot in his cabin at Rosswood, some thirty miles from Terrace on the other side of Kitsumkalem Lake. He had lived with his partner Joe Bellwood for some ten years in the same cabin. He was a man of considerable education, but no one knew anything of his antecedents or of his relatives or where he came from.

All the witnesses agreed that he had been acting strangely for some time before the death and on one occasion he had been heard to say that if a man knew his mind was going, he ought to shoot himself. It was found that he had also been carrying poison around with him in his pocket. Burial had to be made at Rosswood, as it was impossible to bring the body to Terrace on account of the condition of the trail at this time of year. There was no suspicion of foul play and every circumstance pointed to suicide.

TERRACE

J. A. Motherwell, inspector of fisheries for the province, accompanied by Alex. C. Finlayson, of Ottawa, inspector of hatcheries for the Dominion, and C. W. Harrison, provincial inspector of hatcheries, all arrived here on Monday and were met by J. Call, manager of the Lakelse Hatchery. The whole party left immediately for Lakelse Lake where the hatchery is located, on a trip of inspection. The progress of the Atlantic salmon eggs which are being hatched out this season, for release into the Pacific waters, is being watched with considerable interest.

Harold Petersen, of Seattle, has been spending several days in the district investigating possible sites for a sawmill of 75,000 feet capacity. Mr. Petersen is interested in a mill concern in the state of Washington, where logs are so far from the millsite that the long haul makes the production of lumber too costly. With timber limits close to the railway line where a suitable site may be chosen, Mr. Petersen is convinced that lumber may be manufactured much cheaper, even allowing for the added freight on the finished product.

As the Kleanza mill at Usk may not start operations this season, John Barge is contemplating the erection of a 25,000 foot sawmill near Kitwanzar, which it is hoped will be in operation before the end of the summer.

PRINCE GEORGE

In furtherance of the promise made while here recently, Hon. T. D. Pattullo, minister of lands, has put the machinery in motion for the sale of all government lots in the city limits. Appraisers have been appointed to set values and the sale may take place within sixty days.

Hope of salvaging the stern wheeler Quesnel, which went on the rocks in Fort George Canon recently, has been practically abandoned. The freight has been taken off the wreck and the hull will be stripped.

J. Vernon McKenzie, editor of McLean's Magazine, and H. Weston Taylor and W. V. Chambers, the two illustrators, left here last week to visit the Peace River country. Arthur Stringer, novelist, returned East, where he was called by his publishers.

Fred Steacy, secretary of the Curling Club, was last week presented with a mahogany clock and stand and an address by members of the club in appreciation of his services during the past season.

Miss Eileen Rolston, of the public school staff, has handed in her resignation, to become effective at the end of the present term.
