DAILY EDITION. Friday, January 28, 1924.

### Keen Interest In Fish Cars.

Keen interest was taken last evening in the articles published in this paper regarding the need of fish cars. It was a general subject of conversation everywhere and the News came in for a round of commendation for the action it was taking in giving publicity to the cause. It is at last coming home to the people here that a sufficiency of cars is necessary to the progress of the city and something on which all efforts will be concentrated. It is to be hoped that the fishermen's organization and the labor organizations in the city will back up the Board of Trade and other organizations in their efforts to secure justice in this regard. It means so much to the city that nothing should be left undone to bring to the attention of the Railway Company and the Government the absolute necessity of providing proper equipment.

### Make Purchases In The City.

Word has been received from the acting chairman of the newly-formed purchasing committee of the Dominion Government asking us to notify the people of Prince Rupert that so far as possible all purchases for Dominion Government work in this neighborhood will be made locally. Wherever possible tenders will be called and the co-operation of local merchants is asked in order that the business may be kept here. The Commission takes over the work of the War Purchasing Commission and will provide the supplies for all branches of public work, including the payment for labor. One paragraph of the letter will be sufficient to give the idea:

"To assist in carrying out this policy, in so far as it is possible, I ask your aid. Perhaps you will be good enough to take steps to see that the business interests of your district are informed that their co-operation is essential. They should appreciate the fact that government business is good business and that their endeavors to assist will result to the development of the country and their district in accordance with the services rendered."

### Committee on Cow Bay Problem.

It is to be hoped that the committee appointed to make recommendations in regard to the settlement of the Cow Bay problem will be the last. If they complete the work and the matter is settled, there will be no need of another committee. Aldermen Dybhavn, Kerr and Perry ought to be able to make such recommendations as will be acceptable to all parties concerned. If they do this, they will have shown themselves worthy of the trust the people placed in them.

### People Looking to Mackenzie Basin.

People here are looking to the Mackenzie basin, watching with interest the developments in regard to a supply of oil for fuel purposes. It is not far away from here and there is a possibility of the big pipe line coming out this way. For that reason they were much surprised at the action of the Dominion Government in closing down prospecting in that district. To what extent they were justified it is difficult to say without a better knowledge of conditions than is available. There is a very general feeling, however, that it may be an effort to shut out the poor prospector and to give the advantage to the big concerns. If this is the case it is wrong. It is expected that the Government will soon make themselves clear in regard to this or that questions will be asked in Parliament so that people may know what to expect.

## Skin Sufferers Read -

"I had a severe attack of Eczema," says Mr. Michael Tapley of Radisson, Sask. "My body was simply covered with eruption. I had tried every salve and skin soap that money could buy before I hit upon Zam-Buk."

"Zam-Buk proved the very treatment I needed. I used Zam-Buk Medicinal Soap for bathing, and afterwards applied the Zam-Buk balm in liberal quantity. Soothing and comforting, this treatment soon brought about improvement. Persistence with Zam-Buk resulted in my skin being completely cured."

### PRINCE RUPERT TIDES

**Friday, January 28.**  
High, 1:40 a.m., 21.2 feet.  
16:56 p.m., 19.1 feet.  
Low, 10:17 a.m., 5.8 feet.  
23:3 p.m., 5.4 feet.  
**Saturday, January 29.**  
High, 5:30 a.m., 20.5 feet.  
17:53 p.m., 17.9 feet.  
Low, 11:14 a.m., 6.5 feet.  
23:52 p.m., 7.1 feet.

The time used is Pacific standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

### CERTIFICATE OF IMPROVEMENTS.

Iron Duke Mineral Claim, Lot No. 2331; Iron Duke No. 1 Mineral Claim, Lot No. 2332; Epsilon Mineral Claim, Lot No. 2336; Jerry Mineral Claim, Lot No. 2337. All adjoining mineral claims situated in Queen Charlotte Mining Division Rupert District. Where located: On Louise Island.

### CERTIFICATE OF IMPROVEMENTS.

Iron Duke No. 1 Mineral Claim, Lot No. 2331; Iron Duke No. 3 Mineral Claim, Lot No. 2334; Simeco Fraction Mineral Claim, Lot No. 2335; GARDNER Mineral Claim, Lot No. 2338. All adjoining mineral claims situated in Queen Charlotte Mining Division Rupert District. Where located: On Louise Island.

### IN PROBATE.

IN THE SUPREME COURT OF BRITISH COLUMBIA.  
IN THE MATTER OF THE ADMINISTRATION ACT

IN THE MATTER OF THE ESTATE OF GEORGE SEWMAN, DECEASED, INTEREST.

### LAND ACT.

Notice of Intention to Apply to Purchase Land.  
In Cassiar Land District, Recording District of Prince Rupert, and situated about one and one half miles east of the townsite of Alice Arm, and adjoining lots No. 24 and 34.

### CANCELLATION OF RESERVE.

NOTICE IS HEREBY GIVEN that the reserve covering Lot 1199, Cassiar District, is cancelled.

## MINES IN B. C. HAD INCREASE IN PRODUCTION

Despite the Unsettled Market Conditions, Gold was the Only Metal that Fell

Despite serious drops in the price of metals during the year 1920, the metalliferous mines of British Columbia made a total output of \$20,442,155, or an increase in production over 1919 of \$105,157, according to the preliminary estimate and review of mineral production just published by the provincial government.

The gold production of the province for the year 1920 amounted in value to \$2,707,698, a decrease from the preceding year of \$729,447. With an assured promise of lower cost of supplies and mining it seems that gold mining will again become profitable and an increased production may be looked for. In 1919 Cassiar district was the largest gold producer.

**Coal Production**  
The collieries of the province have more than held their own, having made a net production of 2,712,228 tons, valued at \$13,561,110 and 68,190 tons of coke valued at \$477,330. The net coal production for 1920 exceeds that of the previous year by 444,687 tons and as a matter of fact was only exceeded one previous year, 1914, when it was but slightly greater.

The quantity of silver produced is estimated to have been about 3,404,926 ounces worth \$3,265,324, an increase in production from 1919 of 1,807 ounces, but owing to the lower market value of silver, a decrease in value of \$327,349. The Skeena district was second to Siccan in silver production.

**Copper and Lead**  
The amount of copper estimated to have been produced in 1920 shows as compared with the previous year a slight increase in quantity, but, owing to the lower market selling price, a decrease in value. The production is estimated at 42,773,660 pounds, which is 314,321 pounds more than the 1919 output. The value for the year was \$7,485,390, which compared with \$7,939,896 made in 1919 shows a decrease of \$454,506. Skeena produced more copper than any other division in the province.

The total amount of lead produced in 1920 is estimated to have been 21,545,047 pounds, valued at \$1,540,474. This represents, as compared with the previous year, a decrease of 7,930,924 pounds in quantity, but on account of higher prices, an increase in value of \$13,616. This was the only metal that had a higher price in 1920 than in 1919. The North produced practically no lead.

**Northern Coal**  
The quantity of zinc estimated to have been produced in 1920 amounted to 70,765,268 pounds, which shows an increase of 20,027,647 pounds over 1919. The value, \$5,143,272, was \$1,602,843 greater than the preceding year. Omineca was a large producer of zinc in the year.

The Telkwa Collieries Co. was the only northern coal producer. About 1,279 tons was mined and shipped to Prince Rupert in 1920, and continued production is expected.

## DASHED TO DEATH AGAINST THE ROCKS

Thirty-six Lost Their Lives in Wreck of Schooner Felicidad

MANILA, Jan. 27. — Women with babes in arms leaped overboard and were drowned or dashed to death against the rocks on the orders of the captain of the wrecked schooner Felicidad at the mouth of the Algo River, according to statements made here. Thirty-six lives were lost. Among the survivors were the captain and four members of the crew.

## BURNS CONCERT AT TELKWA THIS WEEK

TELKWA, Jan. 28. — The Burns concert held here this week was one of the most successful affairs held in Telkwa for some time. Miss Sangster proved a favorite and other performers who pleased the audience much were Mr. Wheeler, Miss Deans and the two Maeks — McBean and McBurns. Local talent was very good.

Trust the delicate fabrics to **LUX**

Keep Baby's Garments Dainty

Baby's tender skin will not be chafed or irritated if his dainty wee garments are washed with LUX. The creamy, pure LUX suds—harmless as pure water itself—gently cleanse the delicate fabrics, and restore them to their original softness. And the LUX method is so simple and easy. Just dip the clothes into a bowl of LUX—rinse them, squeeze out the surplus water and hang them up to dry. No need to rub. Try the LUX way. You will be delighted.

On sale at all grocers, departmental stores, etc.

Send for our free recipe book, "The Care of Dainty Clothes."
