SOUTH CHINA VERSUS NORTH

Sun Yat Sen May Yet be President of Great Country

PEKING, Jan. 28.—Sun Yat-sen, Dr. Wu Ting-fang, Tang Shao-yi and others, leaders of what is called the "Constitutionalist" faction, until recently entrenched in Shanghai, have gone to Canton and are busy with the organization of a new government to supersede or rejuvenate the defunct "Canton Military Government."

They propose, it is understood here, to call theirs an "extraordinary" government, and its purpose is to call an "extraordinary" parliament and elect an "extraordinary" president in the person of Sun Yat-sen. After union with the North has been effected they propose to drop the term "extraordinary" and become the government for all of China.

Dr. Sun is said to have issued a call to each of the 96 districts in the province of Kwantung to contribute \$30,000, to be employed in the organization of the new government and in the training of troops, including 30,000 for a special bodyguard. He is further alleged to have in mind a union of the southern and south-western provinces into a "constitution preserving league" with the object of presenting a united front against the north.

In the Letter Box

BALLANTYNE'S REQUEST.

Editor Daily News.—

Every Canadian should be interested in the development of our natural resources. Of these our fisheries are among the greatest, and every Canadian has a share in this great natural property and indirectly draws his dividends. His interest in seeing the markets for our fish develop should be just as intense as it would be were he an actual subscriber of capital and drawing profits in actual cash.

Of all the markets offered for Canadian fish the home market is the best. That puts each one of us in a position to assist in the expansion of this outlet.

All Eat Fish.

February 9 is Fisherman's Day—National Fish Day, designed to commemorate the thousands of brave fishermen who daily risk their lives to furnish us with food, and also to develop greater respect for the nutritive and economic value of fish as an item in one's diet.

Let everyone, whether in the habit of eating fish or not, give it the premier place in the National Fish Day meals. If we are to develop a broader local market, each citizen—each shareholder in the industry—must assist in the project.

G. C. BALLANTYNE, Minister of Marine and Fisheries.

Those Nasty Little Pimples

That come on the Face

Are Caused by Bad Blood

Many an otherwise beautiful and attractive face is sadly marred by the unsightly pimples and various other skin troubles, caused wholly by bad blood.

Many a cheek and brow cast in the month of beauty have been sadly defaced, their attractiveness lost, and the possession of the "pimply face" rendered unhappy for years.

Their presence is a source of embarrassment to those afflicted as well as pain and regret to their friends.

There is an effective remedy for these facial defects and that is Burdock Blood Purifiers, the old reliable medicine that has been on the market for over 40 years.

It drives out all the impurities from the blood, and leaves the complexion clear and healthy.

Mrs. James Williams, Waterloo, Ont., writes:—My face was covered with pimples for nearly a year. I used different kinds of remedies to get rid of them and finally thought there was no relief. A friend told me to try Burdock Blood Purifiers. I did so and used three bottles, and found the pimples were all disappearing from my face, and now I have a clear complexion again.
