ORDERS TAKEN FOR COAL AND WOOD

MUCH LOOTING FROM LIQUOR ON STEAMERS

C.P.R. Find it Impossible to Stop
Stuff Vanishing

ST. JOHN, N.B., Feb. 21.—Hands that reach out from the semi-darkness of 'tween decks on the Canadian Pacific freight boats landing cargoes of liquor here and relieve cargo slings of whole cases of 'becker' while they swing in mid-air have been causing Canadian Pacific special police considerable worry and a great deal of work. If a "special" persists in looking up the hatch while a sling is passing upward with its load, a wrench or a lump of coal or anything else that is loose may "accidentally" fall from the deck above. Constables have had to do some smart dodging.

When the cargo is finally "safe" in the sheds on the wharf, the policeman's troubles are not at an end and the lot of him who stands guard over the baggage "is not a happy one." Groups of the thirsty congregate before and behind the mountain of wet goods. While the officer prevents a congested drive from the enemy in front, some enterprising spirit leads a sudden attack from the rear and in the excitement a case or two of good liquor vanishes. This sort of thing happens regularly.

One cargo of liquor was successfully carried from the hold of a Canadian Government Merchant Marine boat to the cars without losing a bottle by the simple expedient of keeping strict silence as to the nature of the contents of the boxes being unloaded.

OPENINGS FOR DOCTORS

Medical Men Needed at Massett
and Skidegate, Queen
Charlottes

There are two openings for medical men to take up residence and practice among the white residents and Indians of the Queen Charlotte Islands. One of these is at or near Massett on the northern end of Graham Island, the other at or near Skidegate on the southern end of the same island.

W. E. Ditchburn, Chief Inspector of Indian Agencies for the Province, states that the Department of Indian Affairs will pay a salary of \$750 per annum to physicians who will locate near enough to the two above-mentioned points to permit of reasonable medical attention being given to the Massett and Skidegate Indians. It is understood that the Provincial Government will also pay a grant of \$100 or \$500 per year to the resident doctors in the before-mentioned districts. Combined with these two grants it is believed that there is a good practice among the white residents of the islands sufficient to warrant a fair income.

Another Epidemic of the Spanish Influenza

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many deaths in its wake, and those who did survive were left in a great many cases with some serious after effect such as weak heart, shattered nerves, impoverished blood and a general weakened and exhausted condition of the system.

If you are run down, heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify your system against this terrible plague.

If you had the "flu" before and it left you with any bad after effect Milburn's Heart and Nerve Pills will bring you back to health and strength.

Mrs. C. C. Palmer, Keppel, Sask., writes:—
"I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. Adv.

BLUENOSE EXPECTED TO RACE FOR CUP

Schooner Now Nearing Completion
in Halifax Shipyard

HALIFAX, Feb. 21.—"Bluenose" is the name which has been selected for the schooner, now nearing completion in the yards of Smith & Rhuland of Lunenburg, with which Captain Angus Walters, formerly master of the fleet "Gilbert B. Walters," and his associates hope to earn the honor of being the Canadian contenders in the second series of international schooner races to be held off Halifax this fall for the Halifax Herald Trophy.

"Bluenose" represents a marked departure from the type of schooner which has found most favor in Nova Scotia yards during the past few years, but fishermen are agreed that this departure is all in favor of the vessel's efficiency as a fishing machine. That it will also add speed is a matter they are taking for granted for the time being, reserving their considered judgment against the time that the fleet makes an actual start for the fishing banks in the spring.

SMOKING DURING BUSINESS HOURS

An experiment of a big English firm in allowing its employees to smoke for stated periods during the day should give some of the well known efficiency experts on his side of the water something to think about. Smoking is generally strictly prohibited in factories, especially those in which the nature of the work calls for steady labor, in the belief that time is saved.

A firm in Preston, England, which has been experimenting in allowing employees to smoke while at work, found the results so noticeable in making for increased output, that the scheme has developed, and the workers are now allowed to smoke for an hour and a half morning and afternoon. This concession has resulted in a bigger factory production and greater contentment among the workers. Other factories are adopting similar rules.

PRINCE GEORGE

H. G. Perry, M.L.A., is proving a great booster for the district and has already received a good deal of publicity since going to Victoria.

L. D. Vibbard has taken a year's leave on the Ritz Keifer Hall.

A good many of the Indian trappers are cutting ties this winter on account of the low price of pelts. The result is that fewer furs are being taken about here.

The eastbound way freight has been taken off on Thursdays, but will continue to run on Tuesdays and Saturdays.

There may be something you want. See the classified column.
