BEER TO BE SOLD IN BOTTLES, NOT ON DRAUGHT RERAR SAYS WILL VOTE WITH MACKENZIE KING ON WANT OF CONFIDENCE

Progressives Will Support Mackenzie King Amendment

ar Following Swinging in with Liberals at Ottawa;
United Opposition to Government on Present
Leech Policy

OTTAWA, February 21.—T. A. Grerar, leader of the Progressives or farmers' party here, says he will support the want of confidence motion introduced into the House of Commons by Mackenzie King in connection with the debate on the throne.

It is expected that all progressives will follow their leader in opposition to the present Government and it is possible that some of the Liberal Unionists will bolt and vote for the opposition to the tariff announcement of Premier Meighen. This policy is contrary to the Liberal policy which they have always supported during the war and reconstruction period was allowed to remain in force. Its resurrection now by Mr. Meighen is looked upon as a breach of faith and the Government majority if not wiped out in the House will certainly be reduced very considerably.

The King amendment will be a test vote of the strength of the government.

West Bound Train Goes Off Track at Bissell

Passengers had narrow escape; but Only Two Badly Injured; Prince Rupert Train was Ahead and Passed Safely

MONTON, February 21.—Hundreds of passengers had a narrow escape from death when seven coaches were derailed on Canadian National Railway near Bissell. Two coaches were turned and as a result one man had an arm broken and another a broken leg.

N. Walton, general superintendent of western lines, asked that this despatch said it happened about ten miles this side of Bissell when the eastbound train from Vancouver ran off. The westbound train had been on time and, finding the other train had proceeded to Edmonton, arriving there safely on time, the trouble is on the G. T. P. section of the line. While the reparation being made the old G. N. R. line will be used so that there will be no delay with the westbound trains.

WESTMINSTER TEACHERS WIN CALL ON CITY PROVIDE WAGES

Association is Recognized Central Labor Council Dealt with Unemployment Question at Forum Meeting.

WESTMINSTER, Feb. 21.—The unemployment situation school teachers strike has been the subject at the open forum after being in effect a week, meeting of the Central Labor Council last night. W. S. Rogers was in the chair and a report was read by C. M. Smith stating that the city would be starting its playground construction at the corner of Sixth Avenue and McBride Street soon and that it was likely the shipyard activities would commence. A resolution calling on the city council to provide an existing wage for the unemployed whether work could be supplied or not was then passed.

Following the reading of the report there was a discussion of the unemployment conditions and their causes, J. H. Burrough being the chief speaker. G. M. Smith also made some remarks on the question.

NEWPORT NEWS WHERE ORDER IS TO WORK OR GET OUT.

Union men, such as the \$10 a day man who recently refused an offer of work at \$6 a day and later was found to have sent his under-nourished wife to the poorhouse, will now have to go to work or go to jail or go away from Newport News. The scores of unemployed from the great industrial plants will be put to work on sewer repairs and extensions, which the city badly needs but for which it has deferred borrowing the money. Wages will be lower than the union scale paid during the last few years of plenty, and it is expected, therefore, that the programme will be bitterly condemned by the jobless. City officials assert, however, that as soon as employment is provided the bread line for the stubborn will be suspended and arrests for vagrancy will commence.

Fish Auction Deadlock Broken by Settlement at Exchange Here Yesterday

Sale Held Up for Two Hours while Weighing Problem was Discussed; Five Car Loads Shipped East This Morning worth here \$15,450

When the usual Sunday fish auction was due to have commenced yesterday morning at eleven o'clock there were five car loads of halibut offering but the buyers were silent. There were no bids. After sitting for half an hour waiting for business to start, one of the buyers drew attention to a notice which had been posted by the secretary of the Deep Sea Fishermen's Union stating that all fish sold would have to be weighed in four hundred pound lots. Beneath that notice was another signed by all the dealers stating that all fish they bought would have to be weighed as usual in two hundred pound lots. These notices caused a deadlock which it took nearly two hours of discussion to break. The fishermen then agreed to weighing in two hundred pound lots but stipulated that an extra man must be provided in discharging the smaller boats so that the fishermen might be able to watch the weights.

Thirteen catches of fish, amounting in all to 127,000 lbs., was then sold at an average price of 15c. for first grade and 6c. for seconds, the total fetching \$15,450. There was 40,000 lbs. of second grade. It was shipped this morning on the passenger train and will go to Chicago for distribution. Most of the fish was caught in Heceta Straits and the west coast of Queen Charlotte Islands.

In discussing the new proposal made by the fishermen, Harry Meagher, secretary of the Deep Sea Fishermen's Union, explained that in weighing the fish in small lots there was a distinct loss to the fishermen. It always took a few pounds to turn the scale, sometimes as much as eight or ten pounds because of difficulty in getting a fish the right size to make weight. In Seattle they weighed 400 pound lots and he thought they should do the same here. The fishermen had met in their union with something like forty present and had instructed him to post the notice, which he had done.

Two Handlings.
Several of the buyers spoke

and he found that he was always short on a shipment. The other day he had been short 180 pounds on a car load, through having the weighing done in 200 pound lots. The discussion lasted a long time with the decision being that the buyers must pay for an extra man at the net when small boats were being unloaded so that the captain or one of the men might watch the scales.

Among the boats was the Cedric, recently purchased by Capt. Wm. J. Selig. This is her first trip and as a result the crew got something like \$280 each. The Agnes B. it was reported had left out two skates of gear off Dundas Island. The wind was blowing strong from Portland Canal and her engine was running hot so that she could not beat up against the heavy seas and recover the lines. They may get them when they go out today. The fish sold yesterday were as follows:

Yukatuk, 25,000; Royal Fish Co. at 13.70 and 6.
Doreen, 6,000; Agnes B., 1,200; Alli, 18,000, to Cold Storage at 15.10 and 6.
Cedric, 11,000; Minnie V., 8,000; Normen, 4,500; Cold Storage at 15.20 and 6.

Lincoln, 13,000; Cape Clear, on both sides. It took time and 14,000; Pacific Fisheries at 14.90 money to weigh the fish over again and 6.

No Beer Clause in Liquor Measure

Draft will Provide Only for Sale in Sealed Packages; Left to Non-Party Vote to Make Change

VICTORIA, February 21.—There will be no beer clause in the moderation bill when the draft comes before the Legislature at the end of this week. A beer clause may be introduced by private members, however, and its fate will depend on the non-party vote of the House.

The Government has decided it is its duty to stick as closely as possible to the liquor control terms implied in the plebiscite. That is the reason there is no beer clause in the Government draft. According to it the only beer selling to be allowed will be in bottles in sealed packages.

ASQUITH MAKES ATTACK ON THE IRISH POLICY

Also Declares Reparation Demands Impossible of Fulfilment.

LONDON, Feb. 21.—Former Premier Asquith in a speech here attacked the Government's Irish policy. He declared the hideous blunders and crimes committed during the last six months the "blackest in the annals of England's relations with Ireland."

Mr. Asquith also criticized the policy of Premier Lloyd George and the allied leaders in regard to reparations, declaring that the demands made at the Paris conference were impossible of fulfilment.
