Two Big Camps In Northern B. C.

There will be two important mining camps in northern British Columbia in the very near future, Alice Arm and Stewart. That seems assured. The recent reports from the Premier mine are most encouraging.

Reports from the Spider group in the same neighborhood are that ore shipments will be made before spring. Other developments are going on in that district, all of which point to a rich camp.

At Alice Arm the Dolly Varden is temporarily shut down, but a number of important ore strikes have been made within the last few months which go to show that both on the Kitsault and on the Illiance rivers there will be good producing mines.

Making First Move Toward Good Exhibition.

The first move was made last night toward the holding of a bigger and better fair this year than has ever been held here before. Attempts are to be made to get the districts to cooperate. Already the natives have expressed their intention of competing with each other for suitable prizes and it is to be hoped that the farmers of the interior will be induced to join in making the event a notable one.

Non Voters Must Register Again.

Those who did not vote at the last provincial election must register in order to get their names again on the list of voters. Automatically their names were struck off because they failed to exercise their franchise. They will find themselves without a vote unless they take steps to again get their names on the list.

In order to register it is necessary to call on the government agent or a commissioner authorized to do the work, and there fill out the form and make the necessary affidavit. It will take but a few minutes and should not be neglected. No one can tell what may happen. There may be a plebiscite and there may be a Dominion election.

Churchill Boom Unaccountable.

There seems to be a Churchill boom in the Old Country. These booms are unaccountable. Sometimes they are manipulated, but it is difficult to do it in the case of a political leader such as the one in question. It is a psychological phase that seems to sweep through a country and move the people to a certain line of action. It is now suggested that Churchill may soon be premier. Perhaps he may. Most unexpected things often happen.

Fish Cars Are Conversation Topic.

Since the publication of the news recently in connection with activities with a view to securing fish cars to serve this port, the subject of fish cars has been the principal subject of conversation in and around the city. Its importance is fully realized and it is to be hoped that nothing will be left undone which might in any way affect the issue.

OWES HER LIFE TO "FRUIT-A-TIVES"

After Years of Suffering with Dyspepsia, this Fruit Medicine Gave Relief

Mlle ANTOINETTE BOUCHER 917 Dorion St., Montreal.

"I am writing to tell you that I owe my life to 'Fruit-a-tives' for this remedy relieved me when I had abandoned all hope of ever recovering my health.

I suffered terribly with Dyspepsia. I had it for years and all the medicines I took did not do me any good.

I read something about 'Fruit-a-tives' being good for all Stomach Troubles and Disorders of Digestion so I tried them. After finishing a few boxes, I was entirely relieved of the Dyspepsia and my general health was restored.

I thank the great fruit medicine, 'Fruit-a-tives', for this wonderful relief."

PRINCE RUPERT TIDES

Saturday, January 29.

High, 5:30 a.m., 20.5 feet. 17:53 p.m., 17.9 feet. Low, 11:14 a.m., 6.5 feet. 23:52 p.m., 7.4 feet.

Sunday, January 30.

High, 6:23 a.m., 19.6 feet. 18:59 p.m., 16.6 feet. Low, 12:51 p.m., 7.4 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

MASQUERADE PICTURESQUE

Variety of Costumes Worn by Little People in Gaily Decorated Hall.

REGULAR DANCE LATER IN EVENING

The masquerade ball for children given by the Girl Guides Chapter of the Daughters of the Empire in St. Andrew's hall last night proved successful beyond expectations. The little folks were most picturesque in their varied masques and they danced wonderfully well. The tasteful decorations both in the hall and the supper room added very much to the general effect. Great credit is due to the girls of the chapter and especially to Mrs. Roberson, the regent, for the manner in which all the arrangements were carried out.

Before seven the young people began to arrive, escorted in many cases by their mothers and sisters. Arthur's band provided excellent music and as the children danced there was much speculation as to who was who and which costume was likely to prove the prize winner.

At ten o'clock the youthful masquers adjourned to the supper room and a plentiful supply of lemonade and cake having been disposed of, left for their respective homes, their places being taken by the older folks. Some of the children and their parents remained to watch the dance and a few took part.

The Westholme orchestra came after the theatre was out and the hall was well filled with dancers until about two. A dainty supper was served at midnight, three sittings being necessary to accommodate the crowd.

The prize winners in the masquerade were: Best boy's costume, Alice Pillsbury, as a Louis XV court gentleman.

Best girl's costume, Winnie Thomson as a fairy. Most original, Alice Smith, as a cigarette girl, and Bobbie Parker, evening dress.

The gross proceeds amounted to \$236.10.

The decorations of the hall and supper room were the work of the girls of the chapter led by Miss Bernice Palmer.

CUTTING LOGS AT PITMAN MILL IN WINTER MONTHS

R. E. Allen Says His Mill Could Resume Operations at Any Time But Depends on Market.

R. E. Allen, manager of the Royal Mill at Pitman Spur, returned to the interior on this morning's train. Mr. Allen reports that his mill is still busy getting out logs to fill the yard of the mill. There is four feet of snow about Pitman but this is advantageous for the snow facilitates the taking of the logs.

There is no immediate prospect of the mill resuming cutting but it will reopen in the spring. The extent of the operations will depend largely on the lumber market. Cheaper lumber is expected in a few months but the costs of production will have to drop to make this possible. There is a lot of lumber still in the yards at Pitman and with plenty of logs the yard's operations could be resumed at any time.

CAR LICENSES

WATER NOTICE.

USE AND STORAGE.

TAKE NOTICE that Kitimat Pulp and Paper Company, whose address is 791-5 Vancouver Block, Vancouver, B. C., will apply for a licence to take and use one thousand second feet and to store five hundred second feet of water out of Lowe Inlet River, Lowe Inlet, B. C., also known as Verney Falls, which flows westerly and drains into Lowe Inlet about at its head.

The storage-dam will be located at (1) Lowe Inlet; (2) Upper Lake; (3) Simpson Lake. The capacity of the reservoir to be created is about 25,000 acre feet and it will flood about 1,000 acres of land. The water will be diverted from the stream at a point about at the head of Lowe Inlet and will be used for power purpose upon the land described as Kunito-Wadai Indian Reserve No. 3 and crown lands.

A copy of this notice was posted on the ground on the 23rd day of November, 1920. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert.

Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

Lowe Inlet, Lowe Inlet River, First, Second and Third Lakes, Simpson Lake, Upper Simpson Lake, and the watershed of the river flowing into Lowe Inlet being approximately 150 square miles between Greenwell Channel and Bouzias Channel on the Mainland Coast of British Columbia, in Range 4, Code 1.
