Policy on The Pacific.

The policy towards each other of the nations which border on the great Pacific will be discussed during the coming autumn at a conference of all the nations particularly interested. There will doubtless be many matters brought up, and one will be the rights of citizens of one country to visit another or to travel in it or to settle in it. The right of Canadians in China may be challenged and of Japanese in Canada and the United States. The discussion will have to be carried on in a broad spirit of toleration and good will, but at the same time there must be no yielding on vital points. When the Japanese and Chinese adopt our standard of living and civilization there will be no very good reason for keeping them out, but for the present it looks as if it would be better for all concerned for the Oriental to remain in the Orient and the white man in the Occident. Travel and business should be allowed and students should have some rights, but any right to settle here indiscriminately on the part of either Chinese or Japanese should not at present be tolerated. We are in the formative period of our national life and we cannot afford to take any chances in regard to the building up of a nation with ideals and standards of living different from our own.

Another Election On the Prairies.

There is to be another election on the prairies on Monday next. There was one candidate chosen by acclamation and he was the leader of the Liberal party. Almost every seat is being contested by a Liberal, and it is pretty good betting that the Liberals and farmers will be at the head of the polls when the count is taken. Whether or not the Liberals will have enough to carry on alone is not certain, but quite possible. The election of the leader by acclamation is a guide to what the people of Alberta take of the Stewart Government.

All Eyes on London Tomorrow.

All eyes will be on London tomorrow when the Irish and British leaders meet to discuss the possibility of settling outstanding differences without resort to violence. All English-speaking people will have regretted the conditions which have obtained in Ireland during the past few years and especially during the past few months. It is the wish of everyone in Canada, we feel sure, that a settlement will be arrived at which will prevent a continuance of the unsatisfactory state of affairs which have existed there and that all bitterness will be wiped out in the future.

Protests at Lloyd George.

Several protests have been made against Lloyd George's attempt to warn the church off politics. The Bishop of Ghent, says the bishop, has nothing to do with party politics, but it has everything to do with politics. The world was in its present state because of the divorce between politics and religion. The church had a right to speak on behalf of the downtrodden, the overcrowded, the sweating, the men and women huddled together almost like beasts and existing on a mere pittance. It was the duty of Christian people to see that the miners had fair play and were justly treated.

The province of the church was to proclaim the principles upon which political programs were based, and when those principles were violated by the government of the nation they could not remain silent. During the Boer War, when the British were burning the farmhouses in the Transvaal, and when Lloyd George was speaking at Limehouse, his great cry was that the church was too apathetic.

It was because the church wanted to create the right atmosphere in Ireland that they denounced the policy of reprisals, which was poisoning the atmosphere. The Prime Minister called upon them to denounce the work of the Sinn Feiners, and at the same time to cease to denounce the reprisals. "We cannot bow to his rulings," said the bishop, "because every Sinn Fein murder and every active reprisal only helps to widen the gulf which is separating the two nations."

GOLD FOUND ON CARIBOO ISLAND GREAT SLAVE LAKE

EDMONTON, June 13.—A heavy strike of gold has been made on Cariboo Island, on the north shore of the Great Slave, by the Aurous Gold Mining Company.

Officials of the company here are jubilant respecting the news especially as the main body of operatives and the mining machinery are now on the way to the island, and the gold found is the result of the work of only three men who were left on the company's claim since last fall.

These men had been engaged in sinking a water shaft for the boilers and it is thought that they struck a rich vein while doing so. This news indicates that when the miners and machinery arrive at the scene of operations that discoveries of the precious ore will be made which will more than justify the optimism displayed by the Aurous company in conducting operations on a large scale at such a great distance from civilization.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.
