After the "Flu" Four Children Had Whooping Cough

Whooping Cough, although a disease of childhood is by no means confined to that period, but may occur at any time of life. It is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in females than in male children.

Whooping Cough starts with sneezing, watering of the eyes, irritation of the throat, feverishness, and cough.

Dr. Wood's Norway Pine Syrup is highly recommended by mothers everywhere for the relief of this trouble as it helps to clear the clogged-up air passages of the mucous and phlegm that has collected, and in this way bring on the "whoops" which brings the so-much-sought-for relief and heals and soothes the lungs.

Mrs. J. M. House, Imperial, Sask., writes: "After the 'flu,' last fall, my four children took whooping cough and one of them developed bronchitis. After using two or three bottles of Dr. Wood's Norway Pine Syrup they were greatly relieved of their nasty coughs. It is an especially good remedy for children, and is so nice they take it readily, and ask for more."

Dr. Wood's Norway Pine Syrup is 35c, and 60c, a bottle at all dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

MUCH SUICIDE IN HUNGARY TODAY

Over Five Thousand Ended Own Lives Last Year and Ten Thousand Attempted

BUDAPEST, Feb. 16.—Thirty-two hundred women and 2,400 men committed suicide in Hungary during 1920, police reports for the year show. In addition, there were more than 10,000 unsuccessful attempts at suicide.

The tremendous increase is causing much worry, inasmuch as the pre-war figures were from 50 to 60 suicides yearly. The situation is attributed to the gradual deterioration in living conditions and the fact that the war had the effect of making human life much cheaper.

Government, society and church circles, realizing the grave danger to the country, have begun a campaign against self-destruction. Sermons on the subject are being preached in all the churches and a special police force has been organized to keep strict watch and prevent suicides. In a number of cases where the police intervened in time the persons attempting suicide protested against what they termed the tyrannous oppression of the authorities.
