ASSEMBLY DANCE WAS HELD LAST EVENING

Proved Very Enjoyable Affair and About Seventy-Five Couples Attended.

There were about 75 couples present last night at the first of the dances to be given by the Prince Rupert Assemblies which was held in the St. Andrew's hall. The dance was informal and was thoroughly enjoyed by all. These dances are to be held at irregular intervals at times when there are few other dances on. A feature will be that the invitations will be strictly adhered to and none will be admitted who do not have them at the door.

The music last night was provided by Howard White's Orchestra consisting of Howard White, drums; Miss Grace Curtin, piano; Robert Arthur, Jr., violin, and H. C. Peyton, cornet. Catering was in the hands of the St. Regis cafe and refreshments of a high order were served. A. E. Bazzett-Jones was master of ceremonies and S. J. Winsby was on the door. The committee in charge comprised A. E. Bazzett-Jones, S. E. Parker, Douglas Sutherland, E. R. Tabrum and S. J. Winsby.

HEMMINGS BEAT DAVIE BILLIARDS LAST NIGHT

Tournament Between St. Andrew's and War Veterans Close and Alters Standing but Little.

In the final game of the billiard tournament in the Trail Shield series between the St. Andrew's Society and the Great War Veterans, W. J. Hemmings, of the latter team, was successful in defeating R. Davie, St. Andrew's, by a score of 200 to 178 which makes the totals for the tournament 1123 to 1043 in favor of the St. Andrew's. The game was played at the Trail Club. The result of the tournament alters the standing of both clubs very slightly.

EVERYONE wants to see the city more beautiful. Then why not induce the skinny girls to wear dresses higher at the neck.

MORE SUNSHINE AT NORTH POLE THAN AT THE EQUATOR

TORONTO, March 12.—"The sun shines longer on the North Pole than any other place in the world," stated Horace L. Seymour, town planning engineer, who delivered a lecture here recently.

From figures kindly furnished by Mr. Connor of the Meteorological office the speaker said he was able to state that the North Pole enjoyed about a week's more sunshine than the equator, and that in the latitude of Toronto it was possible to receive some thirty or forty more hours of sunshine out of the year than at the equator.
