The Premier went at length into the P.G.E. railway history and replied to Mr. Bowser's allegations. Liquor Act Debated In Legislature; No Beer in Restaurants

VICTORIA, March 12.—Whether the commissioners to be appointed under the new liquor act will be named by the Legislature or by the Government and whether their salaries should be fixed by the Legislature or by the Government was debated on Thursday in the Legislature.

The act as it stands provides for the appointment by the Lieutenant-Governor in Council and that they be paid such salary as the cabinet may fix.

The attorney-general declared that "unless the House is prepared to express want of confidence in the Government" that section must be allowed to stand without any change.

At the suggestion of Canon Hinchcliffe it was agreed that a clause be inserted whereby a man arrested for intoxication and compelled to tell where he got the liquor should not be prosecuted.

The Conservatives supported the stand taken by the leader of the opposition that no application of this nature was necessary and that the object sought could be accomplished under Dominion legislation already existing.

The House resolved itself into committee on the liquor bill, during which Mr. Whiteside inquired who would have to bear the expense of maintaining prisoners prosecuted under the act. Hitherto municipalities had to bear the cost.
