HOW AMERICAN LEAGUE LOOKS

Cleveland Confident Can Repeat—New York Yankees Have Bright Prospects.

CHICAGO, April 15.—American League clubs this year are, almost every one, resting their hopes for pennant honors with the efficiency of their pitching staffs.

The Cleveland Americans, the world's champion team, has started the season with the same line-up that won last year's baseball classic, Manager Tris Speaker figuring that the same team that captured the big honors will be able to repeat this season. All the members of last year's team believe the Indians will win the pennant again this year, basing their claim on the judgment that the tribe has the best balanced baseball club in the country.

Torn to Pieces.

Building a pennant contender from the wreckage of one of the greatest teams ever assembled is the task that faced "Kid" Gleason, manager of the Chicago White Sox, this season. The team was torn to pieces last fall as a result of the grand jury indictments charging seven players with participation in the big 1919 scandal. However, the members of the wrecked team who came through clean are all confident that the 1921 White Sox will spring a big surprise built up as they are with Eddie Collins, Faber, Kerr, Ray Shalk, Anos Etrunk and Harry Hooper as a nucleus to a bunch of recruits.

Connie Mack rests his hopes for the Philadelphia Athletics' honor this year on his pitching staff. The pitching and general morale of the team is better according to critics but there are signs that aggressiveness is lacking.

Wealth of Material.

With the wealth of playing material at his disposal, Manager Miller Huggins, of the New York Yankees, has found it difficult to properly place his various players. Not since their debut in the junior league have the New Yorkers started the season with brighter prospects than those that prevail for them now. The team will also be one of the big drawing cards with "Babe" Ruth still on deck.

Manager Lee Fohl, of the St. Louis Americans, has not indulged in any prediction but his team led the American League in batting last season with an average of .308 and ranked with the leaders in the number of runs made. It is expected that the pitchers will better the standing of the team which finished last season in fourth place.

Like the National League in the same city, the Boston Americans will scarcely look the same team with so many changes that have taken place since last fall. The team is a melange that is regarded as dependent for their strength in the pennant competition on two members, Stuffy McGinnis and Derrill Pratt.

Ty Cobb Manager.

With but one or two exceptions, familiar faces appear in the Detroit lineup. The development of the Tiger team will be watched with considerable interest, speculation centering around the managerial ability of Ty Cobb, who makes his debut in this capacity. Although reports tell of utmost harmony among the players and perfect team work in the field, Ty has made the statement that he would not be disappointed if his team finished in sixth place.

The officials of the Washington team claim that they have gotten together a well-balanced machine and if the pitching staff lives up to expectations they should be near the top of the race. Their great hope is still pinned on the veteran, Walter Johnson, and the only position giving concern is third, there being no definite selection for the permanent man as yet.

BASEBALL WORKOUT.

The Elks had a baseball workout at the Acropolis Hill grounds last evening. There were about fifteen prospective players out and some very promising material was displayed.

A letter from M. M. Stephens was read at the hospital board meeting last night recommending that the Department of Indian Affairs be approached in regard to donating an ambulance to the hospital. The letter was referred to the house committee.

Figure It Out For Yourself

Honestly now! Could you get for 50c. any other prescription which would give you same all-round service and satisfaction as a box of Zam-Buk does?

Zam-Buk is a combination of powerful, acting, herbal extracts, so refined and compounded that wherever there is any kind of soreness of the flesh, or diseased tissue or abnormal condition, (such as inflammation, festering or blood poisoning) it stops immediately soothes and heals. It stops bleeding. It is highly antiseptic—kills disease germs. It is suitable alike for the hardened skin of the worker or the tender sensitive skin of a child.

Zam-Buk is 100% pure herbal medicine. It contains no animal fat nor mineral impurity. It cannot go rancid.

"For seven years we have used Zam-Buk in our home," writes L. B. Anderson, of 1407, E. 22nd, St., Minneapolis. "We simply could not get along without it. Whenever any of the children, my wife or I, happen an accident, we promptly apply Zam-Buk. It's a many a doctor's bill."

Sport Chat

With three baseball leagues, City, Junior and Juvenile, and two football leagues, senior and junior, proposed now it can be plainly seen where a problem is going to arise in finding ground accommodation for all the leagues to play games that will be necessary if each is to carry out a schedule. Last year the intermediate baseballers and the senior football teams had two games a week which took up the grounds for four evenings. It is likely that work on the erection of the new court house will eliminate the use of the market place for the young baseball players, so that there will be but two open evenings at the Acropolis left to divide between three leagues and one is likely to be left out altogether as far as the Acropolis Grounds are concerned and it is hard to say if the remaining two would be satisfied with but one night a week.

The only solution would be the finding of new grounds or the playing of some of the games in the afternoon. On Saturday afternoons the grounds could be devoted to the junior football games or the juvenile baseball games, these two leagues consisting mainly of school boys who would possibly be free at this time. But even if some arrangement were made to this effect it could not prove satisfactory altogether, for it is almost impossible for all the players in any league to be free in the afternoon and even if they were the time would be cramped. There is nothing for it then, it would seem, but that some other ground be provided and the Sixth Avenue and McBride Park seems to be the only place in sight. It would be money well spent if the city carries on with its work there and puts the place in shape for the playing of games. It would certainly relieve the congestion that is bound to be felt at the Acropolis.

With this week's meetings organization work in both the football associations is now well under way. The first games in both lines of sport will be played soon after May 1 and, in the meantime, the players for each club in all the leagues will have to be registered with the baseball and football secretaries. The various clubs have been busy for some time signing up their men and the players have been pretty well allocated. However their places will not be official until they have been submitted to and been passed by the associations. There is a plenitude of material here this year and enthusiasm promises to be keen, so the various series should be keenly interesting and successful in every way.

The finance committee of the General Hospital has again written to Hon. T. D. Pattullo asking him what assistance could be expected from the provincial government this year.

SMITHERS TO HAVE STRONG BALL TEAM INCLUDING WALLACE

With a continuance of the present fine weather, another two weeks will see the Smithers baseball team in training at the Polo grounds, says the Interior News. Considerably more interest is being manifested by the fans than has been the case in past years and it is hoped that the game will enjoy a most successful season during the summer months.

Practically the same team that represented this town last year will be lined up again. Wallace, the star hurler of the Telkwa team, will wear a Smithers uniform this year, and with Raymond or McKay on the receiving end, the locals will have a battery second to none in the North. Several recruits will be given a try out, under the eyes of the management, when the season opens early next month.

The hospital staff now consists of seven graduate nurses, nine pupil nurses and one probationer. Two new probationers will enter the institution on May 2, according to the report of the matron at last night's meeting of the hospital board.
