Fishermen Need Place to Dock.

The fishermen of this city need a place where they can tie their boats during the winter and overhaul their gear and feel that if they leave the boat for a few hours or a few days it will be all right. Attention has on a good many occasions been drawn to the lack of facilities here. The only attempt that has been made to do anything has been by the Provincial Government when it built the floats at Cow Bay.

About two years ago the Dominion Government was going to take action with a view to remedying the situation. Mr. Hull, the Dominion Government engineer, went to a lot of trouble and prepared plans, but everything was dropped when it was decided not to have an election. Now nothing is heard of it. No one seems to take an interest in the fishermen, although it is plainly seen that they are the very life of the community.

For the amount of production at Prince Rupert the city should be twice its present size. It is largely neglect that allows the fishermen to go elsewhere for their supplies and that allows them to winter in the south, for no encouragement is given them to remain here. All sorts of money is spent at some of the small places in providing floats. Here nothing has been done so far, and if the present Government remains in power nothing will be done.

King is Winning Everywhere.

Mackenzie King is winning out all along the line. That is plain from the reports that are coming through. In the despatch that was sent out from Ottawa yesterday only six wins are given the Liberals in this province. That is clearly an error of judgment. Nine or ten ought to be nearer the mark. It must be remembered that the Progressive candidate for Comox-Alberni, who is conceded will beat Clements, is endorsed by the Liberals and will support the Liberal party if elected. Saskatchewan has at present a Liberal government in power in the province and the cities have always gone Liberal. It is reasonable to suppose then that there will be more than five Liberals elected there. As a matter of fact the forecast sent out was too careful.

Prevent Making of Huge Fortunes.

The whole trend of the day is against allowing men to make huge fortunes such as did Lord Mount Stephen, whose death was recorded yesterday. He was once a barefoot boy and he made so many millions that he did not know what to do with them. Today the graduated income tax would absorb a great deal of it. The whole modern trend should be against the accumulation of such vast wealth in the hands of one person, for when one has more than his share another must have less. The Liberal doctrine is that the one who is under shall be encouraged and protected and the accumulation of great riches shall be discouraged. Some day it will be absolutely prohibited. There is no objection to every man getting all he can earn. That is just. The objection is to one man being in a position to manipulate the commodities of life in such a way as to make profit for the ones who do it. No man earns a million dollars and lives at the same time in a style in any way commensurate with his earnings. It is by taking advantage of improper economic conditions that he is enabled to add to his riches at such a great rate.

Many Insane in this Province.

Hon. J. D. McLean announced in the Legislature that there were more insane people in this province than in any other in Canada. That was a serious indictment and is the result of fast living and improper social standards. It is not a sign of any climatic difficulty or inherent weakness. It is the result of social degradation.

Insanity comes from many causes. Loneliness is apt to induce it, for man is a social animal and is not meant to live alone. Possibly the presence of so many single men and women in this new province is one of the basic reasons leading to social diseases, which is one of the primary causes of insanity.

The Way to Save

It is the systematic regularity with which you make small deposits, rather than the occasional banking of a considerable amount, that steadily builds up a substantial financial backing.

Get the habit of definitely depositing. Three dollars saved every week, with interest at 3% compounded semi-annually, in five years will amount to \$841.02.

"Fruit-a-tives" Cleared Her Skin

POINTE ST. PIERRE, P.Q.

"I suffered for three years with terrible Eczema. I consulted several doctors and they did not do me any good.

Then, I used one box of "Sootha-Salva" and two boxes of "Fruit-a-tives" and my hands are now clear. The pain is gone and there has been no return.

I think it is marvellous because no other medicine did me any good until I used "Sootha-Salva" and "Fruit-a-tives", the wonderful medicine made from fruit.
