DAILY EDITION. Thursday, January 6, 1921.

Nickerson's Position Clearly Stated.

Yesterday George Nickerson, one of the mayoralty candidates, issued a statement of his position on public questions which concern the civic government. It is an interesting document and one worthy of careful perusal. It deals frankly and clearly with a good many phases of civic life which have, up to this time, been allowed to remain in abeyance.

Possibly one of the most interesting matters dealt with is that of power. We must have power, not only for our own use but to sell. We want industries here and there is no better method of securing them than by preparing to give them power when they come. There is in the community too much of a tendency to attend to the small things and let the big ones go. To attend to the small things is important, but after all it is the big things that will make Prince Rupert an important city. Everyone should read Mr. Nickerson's short manifesto.

Playgrounds are Very Important.

During the past two or three years the Daily News has from time to time urged the importance of playgrounds to the community. Just now there is a movement afoot to secure grounds for the use of the young people of the city. The Market Place will be destroyed as a playing field by the erection of the new government buildings. There must be some other playground to take its place. Whether that ground should be on Acropolis Hill or elsewhere is for the people to decide.

It has been suggested that a playground should be made in the low land near the city park on Hays Creek. Others again are of opinion there should be a playground near the new school where it is possible the high school may be located in the near future.

It would be a very desirable move to get rid of the big rock on Acropolis Hill, if the cost is not excessive. At any rate it could be done a little at a time. The great thing is to lay down a policy of playground improvement which will move forward constantly. Mayor McClymont had such a policy in the improvement of the city park, known as McClymont Park. This work can with advantage be extended, but just now the pressing need is for a ground for sports and games.

Shipyard to Reopen Soon.

The letting of the contract for the completion of the two steel ships here is of great importance to the people of this city. It does away with the possibility of tying up the yards indefinitely and will provide work for those needing it just at a time when the demand for such employment is very great. When the ships are completed there is a possibility of other work being done here, and in any event, other developments of benefit to the city will arise in the meantime and there should be no check to the growth of the place as a result of the contracts being completed.

Ground Hog Again Being Discussed.

The Ground Hog coal fields are the centre of attention in certain circles. There is a general impression that something will be heard from there soon. The coal fields are so extensive and development work in that direction is likely to be of so important a nature that the whole north coast will feel the influence.

It is possible that Prince Rupert will not be in the direct line of the Ground Hog development. The city cannot, however, fail to benefit from any move in the northern part of the province.

It Is Not Enough

to have the bowels move. It is more important to persuade liver, kidneys, skin, and bowels to act in harmony and against self-poisoning. BEECHAM'S PILLS act favorably upon all organs concerned in food-digestion and waste-elimination; they remove causes as well as relieve symptoms.

BEECHAM'S PILLS

Worth a Guinea a box.

Sold everywhere in Canada.

In boxes, 25c., 50c.

"Fruit-a-lives" Restored Her To Perfect Health

153 PARINAEU AVE., MONTREAL.
 "For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist who said I must undergo an operation. I refused."

"I heard about 'Fruit-a-lives' so decided to try it.
 The first box gave great relief, and I continued the treatment. Now my health is excellent—I am free of pain—and I give 'Fruit-a-lives' my warmest thanks."

Mme. F. GAREAU.
 50c. a box, 6 for \$2.50, trial size 25c.
 At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

PRINCE RUPERT TIDES

Wednesday, January 5.

High, 10:48 a.m., 20 feet.

23:58 p.m., 17.7 feet.

Low, 4:53 a.m., 9.8 feet.

17:51 p.m., 5.5 feet.

Thursday, January 6

High, 11:36 a.m., 20.3 feet.

Low, 5:15 a.m., 9.6 feet.

18:34 p.m., 1.8 feet.

The time used is Pacific Standard, for the 120th Meridian west.

It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

The time used is Pacific Standard, for the 120th Meridian west.

It is counted from 0 to 24 hours from midnight to midnight.

ILLIANCE RIVER PROPERTY IS SHOWING WELL

Prospect Banded from Dr. Kergin Promises to Become Big Mine

G. W. Cathoun, the mining man who passed through the city yesterday en route to Alice Arm, in conversation with a Daily News representative showed much enthusiasm over the prospects of the Bellevue group on the Illiance River, Alice Arm, in which he is interested.

The property has recently been reported on by P. W. Racey, the well known mining engineer, who characterizes the property as very promising. There is a vein of 23.05 oz. to the ton of silver, and of gold .47 oz. lead 3.4 per cent and 5.4 per cent.

Mr. Racey says that the big vein is traceable for a mile and contains considerable high grade ore which it will pay to ship out by pack train.

It is planned to put in a concentrator in the near future.

When the syndicate that now controls the property took it over last summer from Dr. Kergin of this city, there was nothing on the surface to indicate its value and the showing made in six months is phenomenal. Winter supplies have been taken in and the development work is proceeding. Several men were taken North yesterday by Mr. Cathoun.

HOW VARIOUS PLACES VOTED

Returning Officer Mortimer Gives Detailed Result Each Place

Following is a complete list of votes cast in the recent provincial election as handed out by Returning Officer Mortimer yesterday afternoon:
