Port Of Petrograd Reported Leased ANN FEIN WOULD PLACE RESTRAINING HAND ON GREAT BRITAIN

Ver's Speech Distorted by Opposition Press to Injure Him Politically; Makes Statement

TORONTO, August 20.—Attempts are being made by the press to twist the words of Premier Oliver in order to stand in badly with the labor people of the province. One of the recent unemployment conference he spoke at not offensively, stating the case for the government so that there might be no mistaken idea of what it was possible to do.

Now you are not going to agree with some of the things I have to say.

I do not deprecate the idea of employment. It is going to be a long time before we can get back to the normal condition. The question is, how long it will take. The government is not going to be able to do anything more than to keep the situation as it is. The government is not going to be able to do anything more than to keep the situation as it is.

We are loaded up with public debt which has largely been incurred by the government. The government is not going to be able to do anything more than to keep the situation as it is. The government is not going to be able to do anything more than to keep the situation as it is.

Safer Than Industry
The reason for the failure of the funds is that the man who does not see his money in enterprises under conditions when he is in government service and secure interest, can invest it in industry and products of which he can dispose of.

There is a limit to the credit of the province. I don't know how much the breaking of the bank will reach. I can tell you that in the future, money will be higher than it is at any time since the war.

Gave Quarter Value.
I tell you you don't want relief work. You can get any kind of work you like if you are coming to the government.

DROWNING AT OCEAN FALLS

Frank A. Wardle Lost Life
While Bathing at Wearing Point.

OCEAN FALLS, Aug. 20.—A sad drowning accident occurred here on Sunday when Frank A. Wardle, aged 20, lost his life while bathing.

The whole family with a few friends went down to the beach at Wearing Point, five miles below Ocean Falls, intending to stay a few hours before returning in time for church service. Two or three members of the party prepared to bathe and the deceased entered first. He was observed swimming on the surface for a minute, and before the others entered he was missing. Inside of two minutes he was lying in 8 feet of water 3 yards from the shore. Artificial respiration was at once applied on the beach and continued for half an hour, when he was placed in Mr. Wright's gas boat and treatment continued till Ocean Falls was reached, where the local medical man—Dr. Christie, took him in charge, and with his hospital attendant, worked for half an hour, when life was pronounced to be extinct.

From Edmonton.
The deceased was the eldest son of Frank A. Wardle late of 11516 96th Street, Edmonton, and now of Ocean Falls. He was born at Longton, Staffordshire, England in 1901, and with his family came to Edmonton, Alta., in 1913, leaving for Ocean Falls in 1918.

The funeral service was held on August 16 at the Union Church, and he was interred at Ocean Falls cemetery. A large number of wreaths, etc. were sent, and the whole family extended their deepest sympathy to Mr. and Mrs. Wardle and to the surviving daughter and younger son.

The deceased was qualifying as a steam electrical engineer in the boiler house of the Pacific Mills, Limited, Ocean Falls, B.C., for which company his father is acting as timekeeper since his demobilization from the Edmonton 63rd Battalion.

The meeting of the Labor Day Celebration Committee will be held at 7:30 tomorrow (Sunday) night and not at 2:30 in the afternoon as formerly announced.

Ireland's Latest Demand Is An International Guarantee Against English Aggression

NEW GOVERNOR AND THE NEWSPAPERS

The attitude of the new Governor-General, Baron Byng, toward the newspapers is shown in the account of his reception on the arrival of the ship at Quebec. An eastern exchange says:

"Immediately the boat docked, a crowd of newspapermen and moving picture operators flocked on board. His Lordship readily agreed to talk with the reporters and faced the cameras stoically. After his ordeal before the cameras he said to one lay scribe who was smiling: 'It is all right for you to laugh. How would you like to do it when ordered to?'"
