**It Can't Leak, Because It's Made in One Piece**

EVER been scalded by a leaking hot-water bottle? This can't happen with a Kantleek.

Kantleek Hot-Water Bags can't leak. They are "one piece" water bags—moulded from pure soft rubber into a single piece—no joints or seams. Most hot-water bottles are made in sections and cemented. Cement cracks—bag leaks!

We guarantee a Kantleek for two years—or a new bag free.

Ask to see the Kantleek. You may need it tonight.

### CATHOLIC CHURCH AT EDMONTON WAS FINELY DECORATED

EDMONTON, Feb. 2.—Fire was responsible recently for the destruction of the second oldest ecclesiastical institution in this part of the province, when the forty-year-old Catholic church at St. Albert was destroyed.

The church, which was the cathedral for many years, was one of the historical landmarks of the Edmonton district. It was built by the priests and reverend brothers entirely. Some of the finest paintings and carvings that could be seen anywhere were in this old church. For a long time it served the needs of the Catholic people of the whole district.

The paintings around the church and around the altar were particularly beautiful and the two angels, one each side of the high altar, are stated to equal anything in the churches of the old land; all were done by the Christian brothers, who, coming from Brittany, France, and Belgium, were many of them master craftsmen.

### TIMBER SALE X 2317.

## INCREASE IN PRODUCTION

British Miners are Speeding Up with View to Higher Wages

LONDON, Feb. 2.—Put on their mettle by the prospects of sliding scale bonuses for increased production, the coal miners of Britain have put their backs into the work and achieved a record post-war output of 5,307,000 tons for one week. As a result their pay will be increased by about \$250,000,000 in the coming year.

Five weeks were selected by the government as a test period as part of the recent coal strike settlement. The miners were told that if they produced between 258,000,000 and 262,000,000 tons in a year of 50 weeks they would get an extra three shillings and sixpence a day (normally equivalent to about 87 cents) from January 3, 1921, and that when their output reached 266,000,000 tons they would get four shillings—nominally about a dollar, extra.

At their latest rate, they are producing at the rate of 265,350,000 tons a year; just under the four shilling mark.

In 1913, Britain's coal output was 287,000,000 tons, but during the war this figure was reduced by over 50,000,000 tons.

### TORONTO'S CHIEF OF POLICE ACTIVE

When He Took Office Few Months Ago He Tightened Grip on Offenders

TORONTO, Feb. 2.—When Samuel J. Dickson, Toronto's new Chief of Police, took charge of the department, a new broom began to sweep out criminals and crooks lurking in various parts of the city. From the moment he seated himself at his desk some months ago the law tightened in its hand upon the whole tribe of offenders against the criminal code throughout the city.

Wholesale raids for law-breakers have been conducted since he assumed his new position and in addition to the criminals punished, property worth thousands of dollars, stolen during the past year, has been recovered.

In the downtown section robberies were very frequent a few months ago and in a short time eight men were apprehended and sentenced to long terms for stealing both goods and money. Cigar stores were entered, the thieves decamping with safes which they drove to the outskirts of the city, rilling them there. There are now in custody six men awaiting trial in connection with these thefts and since their arrest the police have not had one complaint of a safe being stolen.

### AFTER LONG VIGIL STANLEY GETS LAND

CALGARY, Feb. 2.—After a vigil of seventeen days outside the Dominion land office, assisted by two returned veterans in his employ as sentinels, C. H. Stanley, secretary-treasurer of the Elgin Coal Company, of Drumheller, succeeded in landing two valuable pieces of land, a coal lease at Drumheller and an oil lease at Czar.

The period of seventeen days was put in shifts of four hours on and eight hours off. "I erected a small hut of beaver board," said Mr. Stanley, "and with the aid of rugs and blankets, managed to hold the fort against all-comers." Attempts were made to get his henchmen to leave him, but despite offers of \$800 at one time and \$200 another, they stuck to the job.

### CHAMPAGNE KILLED ONE MAN AND SENT OTHERS TO HOSPITAL

LIVERPOOL, Feb. 2.—Eleven firemen of the Canadian Pacific steamship Victorian were charged recently with stealing a case of champagne and one of gin from the cargo. It was stated that the second engineer found a number of firemen drunk and fighting. Many of them were unable to work for three watches and one of them was off duty for six days. Another died at sea and three deserted at St. John. Six of the men were sentenced to a month's imprisonment and five went to the hospital for six weeks.

## BOILS SO BAD

HAD TO GIVE UP WORK

From the days of Job, up to the present time, boils have been one of the afflictions of the human race.

All the poultices and tanning you may do will not prevent them from breaking out again.

Boils are simply caused by the bad blood bursting out; and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters, which has been on the market for over forty years, is well known as the greatest blood medicine preparation.

It purifies the blood by removing every particle of foul matter from the system, and when this is done the boils vanish, and you should never be troubled again.

Mr. James A. Newport Island, Que., writes: "I was troubled with boils on my back and neck, so bad that I was obliged to give up work. I tried several remedies, but got no relief. Finally I went to a doctor, and he treated me for several weeks, and all without benefit. At last a friend told me of Burdock blood bitters, so I decided to give it a trial. I got three bottles, but before I had taken two the boils were all gone. It is eight months now, and I have had no return of the old trouble, and have never felt so well."

B. B. B. is put up only by The T. Milburn Co., Limited, Toronto, Ont.

### WATER NOTICE.

USE AND STORAGE.

TAKE NOTICE that Kitimat Pulp and Paper Company, whose address is 701-5 Vancouver Block, Vancouver, B. C., will apply for a license to take and use one thousand second feet of water out of Lowe Inlet River, Lowe Inlet, B. C., also known as Verney Falls, which flows westerly and drains into Lowe Inlet about at its head. The storage dam will be located at (1) Lowe Inlet, (2) Upper Lake, (3) Simpson Lake. The capacity of the reservoir to be created is about 250,000 acre feet and it will flood about 4,000 acres of land. The water will be diverted from the stream at a point about at the head of Lowe Inlet and will be used for power purpose upon the land described as kum-owa-dah Indian Reserve No. 3 and Crown lands.

This notice was posted on the ground on the 23rd day of November, 1920. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Prince Rupert.

Objections to the application may be filed with the said Water Recorder or with the Commissioner of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper.

Lowe Inlet, River, First, Second and Third Lakes, Simpson Lake, Upper Simpson Lake, and the watershed of the river flowing into Lowe Inlet, being approximately 150 square miles between Greenvale Channel and Douglas Channel on the Mainland Coast of British Columbia, in Range 4, Coast District.
