

G. H. ARNOLD, Notary Public

FIRE INSURANCE is a hobby of ours. We take keen pleasure in making sure that all policies are so written that they cover your property exactly as you intend. If you entrust your fire insurance to careless, inexperienced or ignorant agents you may find, when you come to collect your fire loss, that your policies are so worded that the insurance company is not liable and so will not pay the loss. Why take chances?

Two years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B. C., or District Forester, Prince Rupert, B. C.

Why it is Good

Quite often we are asked why Pacific Milk has a flavor so much like fresh, sweet cream. Partly, it is because of our improved processes, but much is due to the milk itself which comes from the famous dairy herds of the Fraser Valley. The quality of Pacific Milk remains high, because the dairymen's standards are high, and under no conditions would we try to change this quality.

WINNIPEG MEN NOT ANXIOUS FOR WORK

Fifty Jobs Offered at City Wood Camp and 13 Want Them.

WINNIPEG, Dec. 13.—Only 13 men could be obtained to fill 50 places at the city wood camp out of 324 single men then employed at the wood yard in the city, and two men who had promised to go and who failed to turn up at the train, after receiving new clothing, will be prosecuted for obtaining the clothing by false pretences.

This statement was made by Mayor Parnell, chairman of the special committee dealing with unemployment. He said he had been instructed to have these two men prosecuted and he had issued the necessary instructions.

J. W. McKinley, superintendent of the city wood camp, asked the committee for 50 men to work at the Greater Winnipeg water district line at a rate of pay satisfactory to the 85 already there, and he, with J. Nish of the Dominion employment bureau and the superintendent of the wood yard, were told to select the men. All but 13 claimed they were physically unfit for the work. The 13 were taken to the baths, given new clothes and otherwise outfitted for their camp work. Only 14 turned up at the train, and the missing two will be prosecuted.

Mayor Parnell said all men working at the yard will be medically examined as to their physical fitness to do camp work, and if they are proved to be unfit and refuse to go the consequences will be unpleasant for them.

SUICIDE AND MURDER ARE SUSPECTED WHEN TWO BODIES FOUND

EDMONTON, Dec. 13.—The dead bodies of James McGready and James McDonald who are both believed to have been the victims of strychnine poisoning in the Empress Hotel Friday night were removed to the undertaking parlors of Howard & McBride. A post mortem examination is to be made and afterwards an inquest held.

Investigations of the police into the circumstances surrounding what they believe to be the murder and suicide discloses the fact that some days ago McGready purchased a quantity of strychnine from a local drug store and got it under the pretext that he was going into the north country on a trapping expedition and that he wanted the poison to kill animals. At the time he secured a bottle of Scotch whiskey from the druggist.

The half empty bottle of the poison was found in the room of the deceased by Detective John Watson.

The deceased men were not very well known in the city and as far as can be ascertained at present have no relatives in this country. They were employed at the Clover Bar mines.

REDUCED RATES FOR SEED GRAIN SHIPMENT

Manitoba Successful in Securing Privilege for Farmers.

WINNIPEG, Dec. 13.—Canadian railways have consented to reduced rates for shipment of seed grain in Western Canada, according to communications received by Hon. George H. Macdonald, minister of agriculture. Representations were made to the railways a short time ago by the Manitoba Government to consent to the reduced rates. The new rates became effective Dec. 1 and will remain in effect until June 15, 1922. The rates affect barley, wheat, flaxseed, rye, oats, corn, speltz, clover seed, grass seed.

The new rates on wheat based on mileage plus 2 cents extra per hundred pounds for special terminal service, run upwards in ratio from 10 cents per 100 for wheat, barley, oats, rye, corn, for ten-mile carriage, to 29½ cents for 100 miles; 29 cents for 200 miles; 37 cents for 300; 46 cents for 400; 52½ cents for 500, for less than carload rates.

On carloads the rate runs from 6½ cents less for the first ten miles to 29½ cents less for the 500-mile carriage, the ratio of decrease increasing as the distance is greater.

SYDNEY, N. S., Dec. 13.—Wreckage washed ashore here shows that the schooner Viola with coal for Newfoundland has gone down with a complement of nine men.

ROUGHHOUSE BURNS KNOCKS OUT MILLER IN SECOND ROUND

NELSON, Dec. 13.—Last night Roughhouse Burns, lightweight champion of British Columbia, knocked out Driver Miller of Vancouver, former lightweight champion of Canada, in the second round.

One way to keep others off your toes is to be on them yourself.

PROHIBITION AND FARMER MEMBERS OF DOMINION COMMONS

EDMONTON, Dec. 13.—H. H. Hull, general secretary of the Social Service Council of Alberta reports practically all of the newly elected candidates for the Dominion House in the province of Alberta gave a favorable answer to the questionnaire regarding their position on prohibition.

The questionnaire sent out read as follows: "Are you in favor of the prohibition of the liquor traffic for beverage purposes, and if elected, do you promise to do all in your power to secure such federal legislation to the end that every possible facility be given to carry out the will of the people in the complete suppression of the liquor traffic?"

"Are you in favor of legislation which will create a single standard of morals?"

One candidate answers, "Yes, emphatically," to the first question, and "Yes, and for rich and poor alike" to the second question.

Other candidates say they stand by the farmers' platform of which one plank is "prohibition of the manufacture, importation, and sale of intoxicating liquors as beverages in Canada."

A labor farmer candidate says, "I am opposed to the drink traffic, and believe that the question must be tackled by the Dominion parliament, and will work towards this end."

Another says, "I have always fought for prohibition and have backed up my opinion at the polls, and I am a total abstainer."

Another candidate strongly scores the doctor and drug store system and says he will do all in his power to eliminate this abuse.

MANITOBA PRODUCES 1,000,000 LBS. OF HONEY

Much Larger Average per Hive Than This Province, Says Deputy Minister.

WINNIPEG, Dec. 13.—Honey produced in Manitoba bee colonies this year approximates 1,000,000 pounds, according to a report placed before J. H. Evans, deputy minister of agriculture. Mr. Evans said the number of hives in the province had doubled since the spring of the year and beekeepers have had an exceptionally successful season.

Manitoba now has 14,721 colonies of bees. Last spring the number was 7593. An average of 118 pounds of honey was produced in each hive, bringing the production up to 903,000 pounds.

Mr. Evans compared the production in Manitoba with that in British Columbia. That province produced an average of 30 pounds per hive and 309,074 pounds from 10,329 colonies. The deputy minister pointed out that this is the first year Manitoba has been engaged in beekeeping to any great extent, and he was well pleased with the results.

PIMPLES ON FACE DIDN'T LIKE TO GO OUT

Those nasty little pimples that break out on the face and other parts of the body are simply indications that the blood is out of order and requires purifying.

There is only one way to get rid of this obnoxious skin trouble, and that is by giving the blood a thorough cleansing which can best be done by that old reliable blood medicine.

BURDOCK BLOOD BITTERS

and when the blood is purified the pimples will vanish and you will have a clear, healthy complexion.

Miss Mary E. Flanagan, R. R. No. 3, Stella, Ont., writes:—"I suffered for about two years with pimples and blotches breaking out on my face. The doctor said it was caused by bad blood. My face was so bad that I didn't like to go out among a crowd of people. One day I was talking to a friend, and she advised me to get a bottle of Burdock Blood Bitters and try it. I just took three bottles, and there was not a blotch or pimple of any kind left. Some of my friends asked me what I had used and I said, 'Burdock Blood Bitters chased them'."

B. B. B. has been on the market for the past 45 years, so you are not experimenting with some new and untried remedy.
