

FUEL SHORTAGE CAUSES CRIME

People of Budapest Steal Coal or
Wood Whenever Possible

BUDAPEST, Feb. 7.—Many of the poor people of this city are being driven to wholesale thievery by the fuel shortage. The recent theft of 25 cartloads of wood from one train of 100 carloads as it entered the city shows the extent to which the stealing is going on. Wood is so scarce that when a woodload is driven through the streets people stop and gaze after it until it is out of sight. During small hours are even on the alert for a stick of wood or anything that will give heat at home. They scamp after every passing wood wagon, but are soon frightened away by long whips in the hands of two women who sit on guard astride the load.

Pathetic Picture

The operation of unloading a ton of Hungary's inferior brown coal before a house attracts many neighbors, who make a pathetic picture as they watch basketful after basketful disappear into the coal bin of the more fortunate one.

Because of the urgency to obtain fuel by dishonest means, if honest ones are of no avail, the juvenile courts were never so crowded with youthful offenders.

The scarcity of fuel grows more acute daily as winter advances. The street railway service has been sharply curtailed and people wait for hours exposed to the bitter cold. The worst operated American street car never tolerated such crowding.

Bath Once a Week

Gas factories are provided with coal for only 24 hours at a time and the gas is turned on now only at noon and after six o'clock. Only one light is permitted in a room and not more than three rooms in a house or single apartment may be lighted at the same time. Even at the most expensive hotels. There is no running hot water. Saturday is bathing day. On other days baths can only be had at the public baths for which Budapest is famous.

CALGARY'S OIL WELL SOLD TO IMPERIAL

Has Production of Only Five or
Six Barrels a Day, but High
Grade

CALGARY, Feb. 7.—The Dingman oil well, the pioneer in the Calgary oil field, has been taken over by the Royalite Oil Co., and subsidiary to the Imperial Oil Co., together with the associated leases and property. Oil was struck in the Dingman well in 1913 and an oil boom throughout Southern Alberta was started. The well had a small production of five or six barrels a day of very high grade oil. It was being operated by the Calgary Petroleum Products Company until taken over by the Royalite. The Royalite Co. will rebuild the absorption and operate the works on a larger scale than before.

The gasoline extraction plant of the Petroleum Products Co. was burned down in October last. The Royalite Co. will enter upon an active development policy and will drill new wells to thoroughly test the field.

The Milk is of the West

Some things may appear to be made in British Columbia when they are not. In the matter of milk there is only one brand put up in the Province, that is Pacific Milk. If you insist upon this being delivered you are quite sure that you are helping to build a Western owned and controlled industry. No matter how a label on a can of milk may read, unless it says Pacific, it is not put up in our Province.

The Man in the Moon SAYS—

THE heaven never complains of hard luck. He works and exercises a reasonable amount of good heaven sense.

IT is wonderful what a curious specimen of humanity a woman will choose when she has the choice of any man of the bunch.

ONCE there was an absolutely unbreakable fountain pen. It was a fairy tale.

THE danger of being left alone is particularly noticeable in the case of cider. Put some new cider in a barrel and leave it alone and it soon gets a kick strong enough to knock a strong man over.

GOLDEN hair is what the girl has before you marry her or perhaps it's auburn. After marriage it's red or possibly carotyl.

MORE than 100 residents of Windsor, Ontario, were recently afflicted with hicoughs. The disease is puzzling the medical profession. The thought of 100 cases of hicoughs is quite staggering.

The kissing craze is a disease that seems to be spreading. Mayor Porter kissed one of the city hall employees when presenting her with a wedding gift on behalf of the staff. The rest of the men present were jealous and followed suit.

AMONG the things that won't get you anywhere is discussing the fish car situation.

WE don't mind fish stories at the luncheon on Wednesday, but fishy stories will not be tolerated.

NEGRO HONORED

SAVANNAH, Ga., Feb. 7.—For the first time in the history of the Savannah cotton exchange its flag was flown at half-mast the other day in honor of a negro man. He was Philip L. Smith, for forty years porter at the exchange.

CHARLES RAY IS AN AUTO SALESMAN IN "ALARM CLOCK ANDY"

Charles Ray is again the bashful youth who develops into a world-heater in his new screen comedy, "Alarm Clock Andy," which is to be at the Westholme tonight. This time the star is Andy Gray, shy, stuttering salesman for an auto truck concern. Anxious to forge ahead in business, he strives to overcome his shortcomings by patterning after the firm's star salesman, Blinker, who is really a fourflusher. Andy comes in contact by chance with Dodge, a big buyer of trucks. The latter is impressed with the boy's determination.

A lucky accident puts Andy "in soft" with the boss's pretty daughter and he follows her on his vacation to a summer resort. All the time he is masquerading under the name of Blinker, and when he again encounters Dodge and closes a big order with him, complications result thick and fast. Needless to say they are straightened out happily and Blinker meets his due reward. So does Andy.

CANADA'S NATIONAL FISH DAY

Wednesday, Feby. 9, 1921

IF EVERY CANADIAN ATE FISH once a day, just think what a quantity would be consumed in this Dominion! Think how many more fishermen would have their homes here! Think how much more business there would be in Prince Rupert.

SUPPORT HOME INDUSTRIES by getting the habit of eating Fish frequently. It is a wholesome food ---easy to digest---feeds the brain and nerves ---and its variety appeals to every taste.

EAT MORE FISH IS GOOD advice from Prince Rupert to all Canadians. Prince Rupert is the Fish City of the Pacific and her citizens are urged to set the example by making Ash Wednesday a real Fish Festival.

FISH ALWAYS COMES BEFORE meat courses at dinner. Let it be first and last on Ash Wednesday and always to the fore on Prince Rupert menus. No better advice for Prince Rupert citizens, individually and collectively, can be given the year round than

EAT MORE FISH!
