Like a Tidal Wave Heart Disease and Nerve Troubles Sweep the Country.

Probably at no period in the world's history have heart and nerve troubles been so prevalent as they are today.

The heart can't stand the stress and strain of this busy, bustling age, and the care and worry, the anxiety and activity of business life constitute a serious drain on the nervous system.

The business of this work-a-day world goes with such a rush that the stoutest hearts and strongest nerves break down under the strain.

On the first approach of any breakdown of the system Miburn's Heart and Nerve Pills should be taken. The reconstructive power of these pills on the heart and nerve system is simply marvellous.

Mr. W. A. Wright, Hopewell Avenue, Ottawa, Ont., writes: "After suffering for some time with my heart, I consulted a number of doctors, but got no relief. However, I read what Miburn's Heart and Nerve Pills had done for others, who had the same symptoms and thought I would give them a trial. Believe me, six boxes relieved me. I am feeling fine now, and can attend to my work every day. I can recommend your pills to any one suffering as I did."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Miburn Co., Limited, Toronto, Ont. Adv.

MAURICE CORKILL STARTING CAMPAIGN

Has Patent for Airless Tire which will Eliminate Many Troubles

Maurice O. Corkill, a wellknown oldtimer of Prince Rupert, who in the early days was with the boot and shoe firm of Renworth & Jefferson, arrived in the city yesterday on the Prince Rupert on a business trip.

Since returning from overseas, where he was busy bombing the Boches for a couple of years from an aeroplane, he has been travelling in the wholesale footwear line for Stevenson & Hoyland of Vancouver. Although he has severed his connection with this firm to enter into business for himself as an associate member of a rubber tire manufacturing company, he is covering the Northern route for the firm this trip on account of the serious illness of one of the partners who would otherwise have been here.

The enterprise that Mr. Corkill has identified himself with, and of which he is one of the directors, is known as the Globe Airless Tube Company, Limited. The company has the sole and exclusive rights in a new patent for making automobile tires which will be airless; the space in the centre of the tire being a vacuum. It is claimed, through tests extending over four years, that it will eliminate all tire troubles such as blow outs, punctures and flat tires.

Col. Cyrus W. Peck, V.C., M.P., is a modest soldier, with progressive ideas in civil life. He is truly representative of the Canadian soldier spirit, and the government does itself credit in appointing him to command the team of Canadian riflemen at Bisley this year. —Ottawa Citizen.
