DAILY EDITION. Tuesday, Feb. 15, 1921.

Meighen Policy is Protection.

The old Conservative policy has been rejuvenated, the Unionist camouflage flung aside and the present Meighen Government steps out boldly for straight protection. That will be the breaking point, where the Liberal Unionists will split with the Tories. Any former Liberal Unionist who does not now break away from the Meighen affiliation has forever cast in his lot with the Conservatives. It is the parting of the ways. It is the point at which there will have to be a declaration of principles.

Meighen Anxious For Workingmen.

Premier Meighen expresses himself as very solicitous for the workingmen and states that industries must be protected in order that workingmen may be insured a high standard of living. That is the usual thing that is heard at election time. It is the sort of thing that is used more or less by every party and is a sign that an election is at hand. Everyone knows that protective duties are imposed in order to build up industries and this is done at the expense of the rest of the people.

The ideal policy is free trade, but at the present time, following the war in which money was poured out as if it were water, there has to be a large revenue raised and this cannot well be done from direct taxation because the people will not submit to a tax high enough to pay the interest on the debt and to carry the country forward. For that reason there must be customs duties for a time, but the only reason for exacting them is to raise revenue. Meighen and his party will look more to protection of the big interests to see that they are not undercut by American competitors.

Pulp Mill Proposition.

A proposal was made last night by E. F. Duby in regard to securing privileges in return for the establishment of a pulp industry in this city. The matter has not been discussed with the council and until there is more information forthcoming it is useless trying to discuss it. The council must necessarily scrutinize any such proposals with care, but also in a sympathetic manner, something they are sure to do.

We all want industries in this city. It is the one thing above everything else that will make us important and give us prestige. We want above everything basic industries that will use our raw material, and convert it into marketable commodities. For that reason anything we can do toward securing such an industry should not be neglected.

There are other pulp and paper concerns proposed for the north, but all seem inclined to locate where the power and water are easily accessible, and also if possible in the midst of the timber supply. By locating at such a point a freedom from excessive taxation is secured and a plentiful supply of water free of cost. Given these similar conditions here, the present proposal is to bring the industry to the city.

We suggest that the people withold judgment in connection with this matter until Mr. Duby is given an opportunity of stating his case to the City Council and of discussing the matter in detail. Then they will be in a better position to judge of the merits of the present application. All we ask is that they keep an open mind in regard to it and view it sympathetically, for industries are our life blood. We want the city to grow so that we can have much-needed improvements and the amenities of civilized life.

PRINCE RUPERT TIDES

Tuesday, February 15.
High, 6:18 a. m., 19 feet.
19:16 p. m., 15.8 feet.
Low, 12:48 p. m., 6.9 feet.

Wednesday, February 16.
High, 7:26 a. m., 18.9 feet.
20:37 p. m., 15.7 feet.
Low, 0:46 a. m., 8.7 feet.
14:6 p. m., 6.7 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

DANCING in Laugh-time

From Literary Digest: "Topics of the Day."

Dance and the world dances with you. Be a wallflower and you will alone. It is the keeping in step faculty of Americans that makes the world go 'round. Dancing is an important recreative factor in the daily routine of healthful living. From the barn-like town hall in Mud Hollow to the elaborate palaces on New York's Broadway, the dance is in full swing. Whether they prance to the tune of a harmonica or glide to the strains of an accomplished orchestra pleasure seekers always whirl happily. As people become more and more proficient in the art of dancing their enjoyment increases in equal ratio with their skill. Strike up the band and step out on the floor to enjoy a full card of dance wit and humor.

An effort is being made to reduce the license fee levied on the Empress and Majestic Theatres. The fee at present is $200 a year. It is pointed out that in Vancouver the fees for theatres are only $100.

It devolved last night at the council meeting, that the insurance on the city light plant was divided equally between Peck, Moore & Co., and M. M. Stephens. Alderman Pattullo wanted to know why it was not divided between many insurance agents in the city, like the city. There was no definite reply given.

There was a brilliant assemblage of Prince Rupert society at the ladies' dance last night at the Kaien Island Club. Great credit reflects upon Mrs. Arnold and the other ladies of the club for their efforts at the making the affair such an unqualified success.
