PUBLIC WORKS COMMITTEE TO GIVE RELIEF

Alderman Kelly Wants to Know Why Prince Rupert Not Well Treated.

PROPOSAL TO OPEN A GRANITE QUARRY

There was considerable discussion and criticism over Alderman Kelly's proposal to open a granite quarry for the city, but the city provided the men with two days' work, and the Dominion and Provincial governments provided for the other two-thirds of the week. He wanted to know why the two governments would not pay these two-thirds to Prince Rupert.

Alderman Kerr intimated that they knew exactly what the Dominion and Provincial governments would do. They would not pay one-third each for work. Ald. Kelly was for wiring Vancouver to see just what they were doing and how they did it. His motion was seconded by Alderman McNeill.

Meet Emergency.

Alderman Perry stated that in 1919 some \$15,000 was spent on replanking certain roads and financed from general revenues. When the work was done, a bylaw was put up to the citizens for this expenditure and passed. He thought that this might be done again to meet this emergency of unemployment. Work might be done on the street, parks, plank roads or whatever was in accordance with the plan of development and a bylaw prepared and put up to the citizens again.

Granite Quarry.

Alderman McNeill intimated that the Board of Works' intention was to go out to locate a granite quarry for the city, but the bad weather and the snowfall had prevented this for the last two weeks. The work at the quarry, at the crusher and hauling it to town and utilizing the granite on the roads would employ a considerable number of men.

Alderman Parker thought there was something lacking in the board of works. It would be the middle of summer before a quarry would be operating, which would not help the present condition.

Only Grub Bill.

Alderman Kerr explained that all the governments would do was to pay a third each of the grub bill for relief work. They would not pay a dollar for relief employment. They would give charity but no work.

Relief work, however, meant relief work to Alderman Kelly, what ever relief work meant and he still wanted to know how Vancouver could do what Prince Rupert could apparently not.

The whole matter of relief work was left in the hands of the public works committee, with Ald. Kerr dubious a little as he knew that that committee could only spend \$50 without authority.

QUEEN MARY CHAPTER I.O.D.E. OFFICERS

At Meeting Yesterday Mrs. Blance Was Chosen Regent for Current Year.

At the eleventh annual meeting of Queen Mary Chapter I.O.D.E. held yesterday in the city hall officers for the year were elected and reports read. It was shown that the total proceeds of the year's work amounted to \$1,003.01 which was paid out as follows:

Navy League, \$25.
Hospital, \$213.10.
Building fund, \$349.45.

The money taken in was slightly less than for last year when the proceeds were \$1,044.64. A vote of thanks to the retiring officers was passed and the following officers were chosen:

Honorary Regent—Mrs. F. G. Dawson.

Honorary 1st Vice-Regent—Mrs. A. T. Parkin.

Honorary 2nd Vice-Regent—Mrs. McMullin.

Regent—Mrs. Blance.

First Vice-Regent—Mrs. Bazzet Jones.

Second Vice-Regent—Mrs. Willett.

Secretary—Mrs. Steen.

Treasurer—Mrs. McD. Hunter.

Echo Secretary—Mrs. William Millar.

Educational Secretary—Mrs. Healy.

Standard Bearer—Mrs. D. C. Stuart.

Daily Mishaps

happen no matter how careful you are. Here's where Zam-Buk saves worry. Applied to any cut, bruise, burn or scald, it instantly takes out smarting pain and promotes perfect healing. All the while, Zam-Buk safeguards your damaged tissues against the disease "infection," which causes simple injuries to become festering and poisoned. Healing, anesthetic and pain-soothing properties of a unique order.

Make

Zam-Buk world-renowned as a first-aid. These properties are derived from its herbal character and absolute freedom from the animal fats and minerals found in most ointments and salves. Zam-Buk is highly concentrated and economical. Its complete reliability and wide range of usefulness are other features that make

50c. box, all dealers. \$ for \$1.25.

KLEANZA MILL TO OPERATE

New Plant at Usk to be Completed; Mining Development and Prospecting

USK, Feb. 15.—The Kleanza Lumber and Mining Co., carrying on operations at Usk and Kleanza Creek, are looking forward to a busy season this year and much development, both in regard to mining and lumbering. The vice-president of the company, C. A. Rijnstad, has been in Usk consulting with Captain Willeman, the local manager, and Mr. Reid, the engineer. As soon as the snow conditions will permit, the installation of the machinery at the large sawmill will be completed and saving operations commenced.

In the meantime the small mills will be started, and, as soon as the title to the townsite and loading grounds can be secured, an aerial tram for handling the lumber will be put in from the large mill, right through to the railway, thus overcoming all difficulties in transportation.

Mining Operations

In regard to mining it is the intention of the company to operate on a somewhat larger scale than last year, when attention was devoted entirely to surface work. That work has been completed and the future will be given over to prospecting and development. During the summer it is expected a diamond drill outfit will be secured and the numerous veins on the Waihatta property thoroughly tested. At an early date construction work on the camps and millsite at Kleanza Creek will be commenced. It is on Kleanza Creek that the future big developments of the company are to take place and where one of the largest sawmills in the North is to be installed.

NATURAL GAS AND PETROLEUM NOTICE.

DISTRICT OF QUEEN CHARLOTTE ISLANDS.

I, Carolus D. Emmons, of Victoria, B.C., intend to apply to the Minister of Lands for a license to prospect for natural gas and petroleum over the following described lands: Commencing at a post planted at the N.E. corner of Section 17, Township 9, Graham Island, B.C., thence south 80 chains; west 80 chains; north 80 chains; east 80 chains to point of beginning. Located January 27th, 1921.

FIFTH OF PILES ARE NOW DRIVEN

All Piles Required for New Dock on Hand; Completed by May

Despite the undeniable dullness of the times at the present moment which is always to be looked for at this period of the year, decided activity in construction work can be witnessed, if one pays a visit to the waterfront at the G.T.P. dock is being made. A large number of men are employed, both in the construction of the dock and in connection with the dredging operations across the harbor for the filling necessary. All the piling is on hand, the last consignment arriving yesterday. About a fifth of the piles are driven, a considerable portion of the 800 feet addition being yet to be completed. Mr. Knox, the superintendent in charge of construction for the contractors, estimates that with favorable conditions for carrying on, the work will be finished about the first of May. The present contract is for the decking alone, that for the fish sheds not having been let yet.

Amongst the communications read by the city clerk at last night's council meeting was a letter from Premier Arthur Meighen, in reply to an urgent appeal from the local Board of Trade, that the Premier take up with the government the matter of the refrigerator car shortage at this point. The Premier promised to refer it to Minister of Railways Dr. Reid, for his immediate attention.

Lashed by the Whips of Circumstance

To be lashed into action by the Whips of Circumstance is not an evil.

One needs it periodically to overcome the flatulence of prosperity.

Let us be frank with each other.

Manufacturers, Merchants, Newspaper Proprietors, and Public, we have all had a succession of fat years. Now some of us are timorous at the thought of lean months.

Well, lean months and lean years would be in store if we sat still and wailed—but not if we show fight.

We are pleased to see fighting spirit awakening.

It is shown by the renewal of Daily Newspaper

Advertising Contracts for increased space this year.

But, greater evidence than that—New advertisers are planning to use daily newspapers to reach out for new business with old lines, and to introduce new lines into old established fields.

While such vision, and faith, and courage, is alive in men, there can be no fear for the future.

What of your fighting spirit? What are your ambitions?

Are you going to reach out and fight for business? Well, then, you have one mighty force to aid you—that is Daily Newspaper Advertising.

And Daily Newspaper Advertising welcomes the challenge.

The Daily Newspapers of Canada are resolved to do their part to make 1921 a Banner Year. They invite you to travel in their company.

Issued by the Canadian Daily Newspapers Association, Toronto
