Gradual Improvement of This City.

Observant people, and especially people who have been away for some time and returned, note the gradual improvement of this city. They see the streets being gradually levelled up and the surfacing going on. They see new business buildings going up, some of them permanent, and they also see new residences being erected and much pride being taken in the new homes.

One of the finest of the new business buildings is that just being completed by Frank Glapp on Third Avenue. It has a fine appearance and is a credit to the city. Mr. Glapp deserves all the praise he is getting for his progressiveness in pinning his faith to Prince Rupert as a permanent city with a great future.

During the coming winter, if there should be a local unemployment, there will be an opportunity to further improve the streets of the city by grading them instead of replanking. What we need is to get rid as far as possible of the planked streets. While they are unique and useful, they have to a large extent served their purpose and it is to be hoped that in the near future they will be dispensed with.

One of the things that discourages the new arrival in the city is the thought of the cost of making streets in this city. Doubtless it is a big problem, but not so big as is often supposed. If some new work is done each year we shall soon have graded streets that will be permanent in character. There will be some inconvenience from them at first, but the work has to be done and the time to commence is right now.

Why Not Buy in Prince Rupert?

If we ever are to have a real live city here it will be because the residents are imbued with a sense of civic pride and not only are willing to improve the streets and boulevards and parks but also are ready to buy at home. Money sent out is gone beyond recall. It never returns. Money spent at home circulates here and makes possible many of the improvements we like to see.

If Frank Glapp had been unable to sell the product of his soft drink factory in this district he could not have erected the fine building which now decorates the main street of the city. Happily the home people appreciated the home product, and the result is beneficial both to Mr. Glapp and the citizens generally.

The same thing applies to other local products. The local merchants are in business from a selfish motive. We grant that. If, however, they give good service they should be patronized. Their prices on the whole are very reasonable, and by buying at home it is possible to exchange goods and to select carefully. Goods never look just like the pictures in the books.

Visitor Finds Prices Very Low.

A recent visitor to the city was very much surprised at the low prices of many of the goods she saw displayed in the windows and in the stores here. She found that while some things were higher others were lower than in the larger cities. The higher priced goods were chiefly the small things, which were sometimes double the price charged in Vancouver. On almost all the larger things the prices compared favorably and often were much lower here than in the south. The average was in favor of Prince Rupert.

Several recent arrivals who have come here to live permanently have remarked on the reasonable prices charged for many commodities. Staple articles of food have been cheaper than they have been in the habit of seeing them sold. On the other hand there have been notable cases which looked like extortion.

Local merchants have a duty devolving on them. They should take the trouble to compare carefully the prices they charge with those asked elsewhere and keep very close to the outside mark. If the people are willing to buy locally there must be a willingness to sell locally at such prices as will be attractive. On the whole we believe that is what is being done. The little things that don't count much are the annoying exceptions.

Indoor Life

Spending more time indoors makes women far more subject to constipation than men.

The liver becomes sluggish and torpid, the bowels constipated and the system poisoned by impurities.

If you would get away from the myriads of ills which result from constipation, it is only necessary to use Dr. Chase's Kidney-Liver Pills.

The benefits from their use are as lasting as they are prompt and certain.

Mrs. John Barry, 18 St. Anable Street, Quebec, Que., writes:

"This is to certify that I was troubled for years with constipation and tried all kinds of medicines without relief. At last my husband suggested that I try Dr. Chase's Kidney-Liver Pills. I did so, and must say that they have given me more relief than all the medicine I have taken during the last fifteen years. I may also add that I have used Dr. Chase's Ointment for piles with excellent results."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

MOVES INTO NEW STORE

Fine Building Erected by Frank Glapp to Be Occupied by W. G. Barrie.

The ground floor of the new Glapp building has been leased by W. G. Barrie, the furniture man, who will move in within the next few weeks. He is at present arranging a big removal sale in order to avoid the expense of transferring the goods to the other building.

Mr. Barrie already has on order a quantity of new goods which will be here within a few days and will go into the new building direct. He expects to have the most up to date furniture store on the coast and will use the fine windows to display his goods. At present the furniture is crowded into the building on Third Avenue and also into the warehouse. All of these will in future be kept in the store and will be displayed in such a manner that patrons will be in a position to make a choice with ease. The floor is 50 feet by 100 feet and there is a large basement.

In the Letter Box

RUSSIAN RELIEF.

Editor Daily News:—Having read your editorial of yesterday's date under the caption "Famine in Russia is Extending," I ask for the privilege of a little of your space to correct an obvious misapprehension on your part. You are apparently aware that efforts have been started to organize a relief committee here which would collect money and clothing, etc., to be forwarded to Russia to meet the great need existing under the famine conditions. At the same time you recommend that the relief should not be attempted through the channel of any private organization, but through the medium of the Red Cross or a similar organization which would guarantee the proper distribution of the money collected.

Satisfied Solves.

This is the same objection I met with when canvassing some influential individuals in the city for their endorsement of our local committee, and in view of which it was decided not to continue that mode of enlisting support until we had evidence that the organization we were assisting was a responsible one. We, as members of a Labor organization, were satisfied, as it was endorsed by our fellow-workers in Winnipeg, but we realized that others could hardly be expected to accept it on that ground as we were able to.

Recognized by Soviet.

We now have the evidence that we wanted, and it is of a nature that ought to satisfy all those who require the guarantee of an acknowledged responsible organization as to its bona fides.

The famine relief committee for the drought stricken in Soviet Russia, central office in Winnipeg, a branch of which has been formed here, is affiliated with the American Famine Relief Committee at New York. The New York Committee is distributing relief to the famine stricken through the Red Cross Society of the Russian Soviet Republic, which is an official body recognized by the Soviet Government for the distribution of relief, and also recognized by the International Red Cross Association. The funds of this Canadian Committee are placed at the disposal of the representative of the Red Cross of Soviet Russia for purchasing in Canada at the advice of the Soviet Government.

Public Meeting Soon.

We have been notified that the Canadian representative of the Russian Red Cross Society will shortly be in Prince Rupert for the purpose of explaining the need of and assisting in the organization of aid. We expect to hold a public meeting in the near future at which the situation in regard to the famine can be discussed and as representative a relief committee organized as possible. With the information given above it is to be hoped that whatever may be the objections to the form of government set up in Russia, they will be put aside for the time being in fact of the sum of human agony we are called upon to re-

The Man in the Moon SAYS:-

THE Hays Creek dam is said to have caused trouble. And that is not the only dam thing thing that has caused trouble.

AMONG the things that won't get you anywhere, is wondering how many followers Premier Meighen will have after the next general election.

SOME of the old timers say it will be necessary to buy a microscope to see them.

SINCE the bar rooms have gone, where do the old toppers gather to argue about the high cost of living and the sins of the younger generation?

CONSIDERING that the ball players get nothing after the fifth game, they are treating the public pretty well by giving them all this extra fun.

WHAT all the Yankees are saying now is "If only I'd Babe Ruth was able to chase the pill over the back yard fence the Giants would look about as small as a five cent ride in an automobile."

Ten Years Ago

in Prince Rupert

October 12, 1921

In discussing city advertising at the council meeting last night Ald. Newton declared that the Prince Rupert Journal had been receiving double its contract rates from the city.

The city council last night decided to proceed with the building of the new fire hall next to the present one.

G. W. Hopp, an Olympia and Bellingham sewer-pipe manufacturer, promises to the city a plant here for the production of pipes.

Many people read newspapers as much for their advertising columns as they do for news.

In this connection, it is necessary to point out that the Soviet Government cannot reasonably be held responsible for the drought.

Thanking you for the space, I remain,

AUTOS FOR EVERY 18 PEOPLE IN PROVINCE

VICTORIA, Oct. 10.—British Columbia leads the Dominion in ownership of automobiles, according to statistics. It is reported there is one motor car for every 18 people of this province. The rate is one to every 19 in Quebec, one to every 20 in Ontario and one to every 27 in Newfoundland. Other sections of the northern empire show lower proportions than British Columbia's record. But even at that, we are below the proportion of the United States where there is an auto for every 11 persons.

Howard Stutchbury, trade commissioner for the province of Alberta, is in the city having arrived this morning from Vancouver. He will be here until Saturday morning in connection with the business of establishing coal bunkers here.

ANNOUNCING

The Greatest Phonograph Value in Canada

A GENUINE

Brunswick Phonograph

Only \$150

This extraordinary value puts the Brunswick within the reach of every home. It means that one complete Phonograph—the only Phonograph that can play all records as they should be played—the only Phonograph that has an all-wood oval tone chamber—is now offered in a full cabinet size at a price that you would pay for an ordinary or "assembled" talking machine.

SUPPLY IS LIMITED

Bear in mind this is not a "special" or a model made to sell at a price. It is a regular standard model of the Brunswick Phonograph, made in the Brunswick Canadian factory according to Brunswick standards, which for generations has placed perfection before production.

The supply is limited. Less than one thousand of this model will be available this year. There are over six hundred Brunswick dealers in Canada. That means less than two for each dealer for the rest of the year.

To get one of these Phonographs you must act quickly. Remember, you may only buy a Phonograph once. It pays to get one that will put real music into your home, and enable you to play all records properly.

This price represents an actual saving to you of over \$20. Call at your nearest Brunswick dealer and place your order at once. Delay may mean disappointment.

\$10 CASH

To make doubly sure that this Phonograph is put within reach of every family, Brunswick dealers will arrange to deliver one of these models for only \$10 cash, and the balance spread over an entire year. You get the benefit of the cash price, with only a nominal interest charge on the unpaid balance.

ORDER NOW FOR CHRISTMAS

Any Brunswick dealer will gladly take your order for one of the models for delivery any time up until Christmas. All you need to do is to make a small deposit and arrange future payments according to delivery. This will enable the dealer to place his order at once and insure you against disappointment.

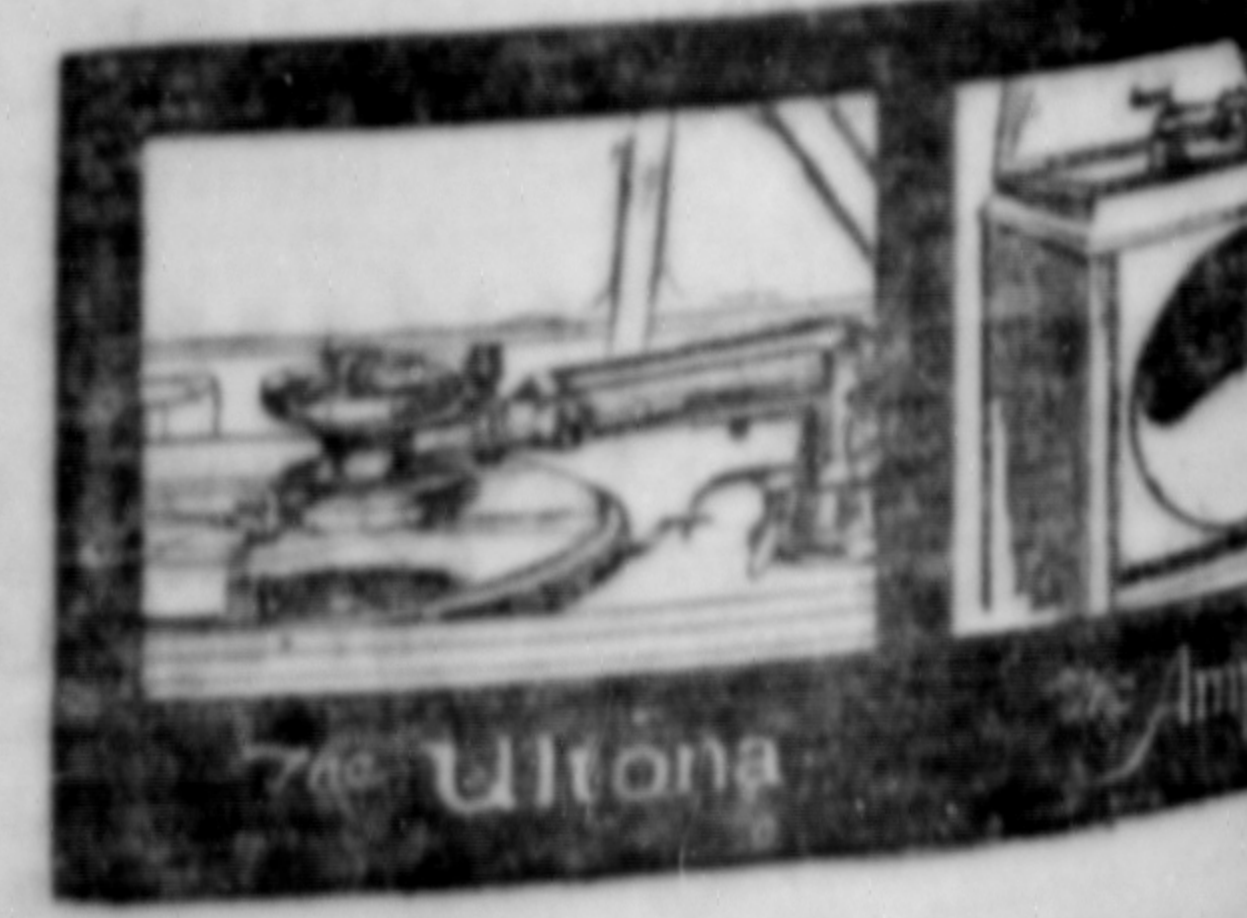

Local Agents
