

Whiskey Going One Way and Motor Cars the Other Says Collector.

WINNIPEG, Nov. 18.—A searching investigation into the alleged smuggling of thousands of automobiles over the border line from the United States to Canada is promised here by T. H. Verner, collector of customs and inland revenue.

The report of the smuggling of cars is substantially true, Mr. Verner declared. "There has been smuggling on a large scale for some time. The situation will be looked into thoroughly, and everything done to check the wave over the border."

Figure Too High. Mr. Verner said 17,000 was too high a figure at which to place the number of stolen and smuggled cars. Many persons drove in and out of Canada, and did not stay in this country; many cars were driven by men claiming to be owners, and customs officials could not investigate the ownership of each car, he said.

There will be no wholesale prosecution of smugglers, Mr. Verner said, although court actions were being taken all the time. The liquor-smuggling activity was generally in the western provinces, he added. Arrests were being made at the border for liquor smuggling, but as fast as one gang would be "cleaned up" the smugglers would break out in a new place.

May Not Be Same. Border-running of millions of dollars worth of liquor and the theft of thousands of automobiles are not necessarily kindred "industries" operated by the same organization, J. N. MacLean, chief inspector under the Manitoba Temperance act, said today.

Each gigantic illegal organization is a separate entity, in Mr. MacLean's opinion, formed to transact their respective businesses. Smugglers of booze "do not steal cars or anything else to get it across the lines," he said. "Moreover, they leave a report with the liquor commission as to who they are, what they are and where they are going. Their transaction in obtaining the liquor from the Canadian export warehouses is absolutely legal now, so you can see, they conduct it legally. They pay their good elegant coin for their booze."

Without advertisements, this paper would not be as interesting to you, because information about goods for sale in the stores is news—just that.

Never neglect a cough or cold however slight. If you do it can have but one result, it leaves the throat or lungs, or both, affected.

DR. WOOD'S NORWAY PINE SYRUP will help to stop the cough, soothe the throat, and if the cough or cold has become settled on the lungs the healing virtues of the Norway pine tree along with the soothing and expectorant properties of other excellent herbs, roots and barks promptly eradicates the bad effects, and the persistent cure cannot but help to bring about relief.

Mr. Albert Marsh, Lower L'Ardoise, N. S., writes: "About a year ago I contracted a cold accompanied by a very bad cough and sore throat. I sent for the doctor, but what he prescribed did me no little good. I began to get discouraged. A friend came to see me and asked me if I had ever used Dr. Wood's Norway Pine Syrup. I told him I had not and sent him right away to get me a bottle. I started using it, and after a couple of days I found I was getting relief, and after taking two bottles the soreness in my throat seemed to be leaving me, so I resolved to continue its use, and after I had used five bottles both my sore throat and cough were gone. I would not be without 'Dr. Wood's' for any money."

Price, 35c and 60c a bottle; put up only by The T. Millburn Co., Limited, Toronto, Ont.

FUR ENQUIRY TO BE HELD

Royal Commission Will Be Appointed to Investigate the Alleged Irregularities.

Independent Soldier Has No Sympathy With Claims of Municipalities.

VICTORIA, Nov. 18.—The Pookey motion demanding an investigation into the game administration of Dr. A. R. Baker was defeated in the Legislature on a division after midnight and in its place the Farris amendment, calling for a royal commission was carried. The vote stood 22 to 20.

A motion was passed calling for all contracts between the P. G. E. and Northern Construction Co. The papers are being tabled, but the suggestion that they had previously been withheld was protested.

Premier Oliver and W. J. Bowser both opposed Major R. J. Burde's eight-hour day act discussion, which is unfinished. Guthrie, Uphill and Hanes supported the bill.

Budget Debate. In the budget debate, Ian Mackenzie of Vancouver demanded greater economy and also asked that a beer clause be inserted in the Liquor Act as a means toward moderation.

Kenneth Duncan of Cowichan supported the budget proposals and said that the municipalities had got themselves into financial difficulties. Regarding the P. G. E., Mr. Duncan suggested that the Government should either sell out or shut down.

1000 MEN WORKLESS. EDMONTON, Nov. 18.—There are approximately 1000 men out of work here just now. This is not very unusual for this time of year, as many come in from the country following the harvest with the idea of spending the winter here, and most of them register as unemployed looking for jobs.

Is it Worth 150 Cents?

"Money can't buy anything else like this wonderful herb ZAM-BUK. It's simply priceless!" says one enthusiastic mother.

For injuries, Zam-Buk is the indispensable ever-ready healer. Where there is any skin or scalp disease, Zam-Buk is magical in extracting germs and poisonous impurities and growing new healthy skin. Being prepared exclusively from pure refined herbal essences, all highly concentrated, Zam-Buk retains its medicinal virtues indefinitely. It never goes rancid, and useless like fatty salves and ointments do. Yet, what so much more reliable, pure and reliable, herbal Zam-Buk costs no more to buy.

pendence of character are odious, The Daily News may prefer the brand of independence of the Provincial members for Prince George and Omineca but the big mass of the people, and ninety per cent of the returned men prefer the sterling, straightforward, independence of Colonel Gyrus Wesley Peck, V.C., D.S.O. A man who will live in history when the others you mention are long forgotten.
