LITTLE MINING ON AT ALICE ARM CAMP

Work so far Confined to Development on Small Scale Illiaco Valley

ALICE ARM, May 11.—What little activity in mining is at present going on here is confined to the Illiaco River valley.

Two men are working on the Bellevue Group and Louis Izzo, of Anyox, has three men on the Silver Star. A. J. Bowen, former smelter superintendent at Anyox, is also looking after a little development on some of his holdings on the Illiaco. There may be some development work on a small scale on two or three other properties.

As for the Kitsault valley there is no work going on at present. It is possible that La Rose may work again. No word as to the season's plans for the Dolly garden has yet been received here.

G. M. Watson and his party of sixteen have started their contract on the completion of the government road from the wharf to town. Engineer Suttie, of Prince Rupert, is here looking after the surveying and will return about a fortnight.

There may be something to see in the Illiaco valley.

PRAIRIE SEEDING PRACTICALLY OVER FOR THE WHEAT CROP

CALGARY, May 11.—Wheat seeding in the province will be practically all completed by Saturday night with a slightly larger acreage than last year. The Herald's third seeding report indicates that the season is from three to four weeks ahead of last year and that the crop is going in under ideal conditions.

It is yet a little early to forecast the amount of oats and other grains which will be sown, but the reports seem to indicate that there will be a slightly decreased acreage in these grains, while on the whole the same acreage will be sown to all kinds of grain in general. In some cases wheat is showing above the ground already, and in the Erskine district the stalks are from three to four inches high. There is plenty of moisture to last until the end of June, the majority of places report.

Grass is in splendid condition owing to the large amount of rain that has fallen during the past two or three weeks; cattle are in good shape due to the mildness of the winter, and dairying seems to be on the increase in many districts.

Labor is plentiful in all cases, and wages paid are from \$10 to \$60 a month, while some districts are paying as high as \$75 for experienced hands.
