UNEMPLOYMENT LARGE PROBLEM

Matter to Be Dealt with in All Provinces of Canada with Dominion Co-operating.

OTTAWA, Aug. 5.—As soon as the various provincial conferences have been held dealing with the matter of unemployment during the coming winter a Dominion-wide organization will be formed to deal with what is regarded as somewhat of a crisis in industrial affairs. It is the general official opinion here that there will be no system of doles but that as much employment as possible will be given during the winter months. While there will be no Federal conference, Government officials will be present at the provincial conferences and will make an endeavor to co-ordinate the efforts of the various sections of the country.

PROPOSALS

Among the proposals being made is an extensive program of road building where all the work will be done by labor rather than by machinery. In the lumber provinces, land clearing will be resorted to to some extent, especially in British Columbia where the need of cleared land is emphasized.

There are at present something like 140,000 unemployed in Canada chiefly in British Columbia and Ontario. In the latter province, the Canadian Manufacturers' Association is planning to co-operate by, so far as possible, keeping their mills running.

If no action is taken for relief, it is estimated that there will be 300,000 unemployed in December and many of these will be without means of living owing to the shortage of regular employment during the summer and autumn.

The outlook is not encouraging, but with each province grappling with its own problem and with the Dominion co-operating with each, there should be no difficulty in carrying out what is looked upon as a post war problem which is not likely to occur again.

Two Men Cut Their Throats Last Night Within an Hour; Both Are Alive in Hospital

Two men cut their throats in the city last night within an hour. The first was a man named Brownie Randall, recently arrived from Vancouver, who slashed himself with a razor on Comox Avenue; the other Steve Savris, a Serbian, who attempted to take his life with a pen knife in the police station. Neither died, but are now in the General Hospital, where they are recovering. The police witnessed both affairs and each man, on recovery, will be charged with attempted suicide.

About 8:35 a call was sent in to the police station from a house on Comox Avenue where a fight was reported. Sergeant McGlinchy went to the scene in time to see Randall emerging from the house. Following him up, the officer encountered the man between two buildings, where he was brandishing a razor. Before his man was subdued, Sergeant McGlinchy had received severe cuts about the hands and the front of his uniform had been slashed and Randall had cut his own throat. Constable Bourne soon arrived on the scene and the wounded man was rushed to the general hospital.

Randall is little known in the city and had just arrived from Vancouver a few days ago. Miss Sidney Vaughan was also arrested in connection with the affair but was later released. She stated to the police that she had known Randall for about ten days, meeting him first in Vancouver. Since Tuesday he had stayed at her house on Comox Avenue and last night another girl named Gladys came in and insulted Randall. The trouble which ended in the attempted suicide, then arose.

FAMILIAR FIGURE

Savris is a familiar character about town. He is a Serbian and stayed about Nick Gurvich's hotel on Fraser Street where he was employed at various duties. For years he has wandered about the city streets in a curious manner by himself and was mainly conspicuous by his slouchy attire and carriage. He wore a soft felt slough hat and often was to be seen with shoes untied and his socks hanging down over his boot tops. He was tall and of dark complexion and walked with a shuffling gait. After the affair last night, Nick Gurvich reported that he had been acting in a particularly strange manner for the past few days. It is generally understood that he was mentally unbalanced.
